

IBM Netfinity 8500R with DB2 Universal Database Delivers Outstanding Performance with SAP R/3 Three-Tier SD Benchmark

November 4, 1999 ... Running the SAP** R/3 Three-Tier Sales and Distribution (SD) Benchmark, the IBM Netfinity* 8500R has delivered a new performance result. Configured with eight 550MHz Pentium** III Xeon** processors each with 2MB L2 cache, the Netfinity 8500R server achieved a result of 4,704 SD Benchmark users with 1.96 seconds average dialog response time on DB2* Universal Database V6.1 and Microsoft** Windows NT** Server 4.0. This represents a throughput of 1,416,000 dialog steps per hour, which is equivalent to 472,000 processed order line items per hour.

Benchmark Environment

The environment for this benchmark was an IBM Netfinity 8500R database server configured with eight 550MHz Pentium III Xeon processors, 4GB of main memory, and 601GB of total disk space running Windows NT Server 4.0, DB2 Universal Database V6.1, and SAP R/3 Release 4.0 B. The measured throughput was 1,416,000 dialog steps per hour with an average CPU utilization of 95 percent for the database server. The database server ran Microsoft Windows NT Server 4.0 with Service Pack 4.

Four Netfinity 8500R servers, configured with eight 550MHz Pentium III Xeon processors, running Windows NT Server 4.0 with Service Pack 4, were used as update servers. Twenty-four Netfinity 7000 M10 systems, each configured with four 500MHz Pentium III Xeon processors, running Windows NT Server 4.0 with Service Pack 4, were used as dialog servers. One IBM Netfinity 5500 M20 was used as a message/enqueue server. The database server and all application servers ran Microsoft Windows NT Server 4.0 with Service Pack 4.

This benchmark fully complies with SAP's issued benchmark regulations and has been audited and certified by SAP. Details can be obtained from IBM and SAP AG. These benchmarks were completed at IBM's Netfinity Server Performance Laboratory in Research Triangle Park, NC, in a joint effort by IBM engineers at the RTP and Toronto laboratories.
