List of IBM Recommended Print Media for InfoColor 70 and 3170

Please refer to the *IBM InfoColor 70 and 3170 Print Media Guide* for paper handling and storage guidelines. Media without a performance rating may be used at your own risk.

Performance Rating Definitions

1A – Good stable print quality is easy to obtain without any finishing or stacking problems.

1B – Good print quality is not very easy to obtain. Requires close monitoring to maintain acceptable print quality. No finishing or stacking problems.

Important Notes:

1. Select the medium based on your application needs. Be sure you understand the meaning of the Performance Rating before making any decision.
2. Make sure paper is stored properly at all times.
3. Request splice free material from your paper distributor.

Please visit <http://www.printers.ibm.com/manuals.html> for the latest list.
