
Setting up to use PSF Direct

If you are planning to use PSF Direct for your host printing, refer to the *IBM Infoprint Manager for Windows NT & Windows 2000: PSF Direct Network Configuration Guide* for information and instructions on:

- Configuring your host MVS, VSE, AS/400 or VM system
- Configuring IBM SecureWay Communications Server for Windows NT.

Note to PSF for OS/2 Users: Be sure you have completed all of the tasks outlined in the Administrative Procedure *Collecting information from your PSF for OS/2 system* before you move on to the *PSF Direct Network Configuration Guide*.
