Latest LANDP support and service options

IBM

Free Course

A technical course at IBM's Hursley Park in the UK, October 29 - 30 2002.

Including presentations from development and practical exercises on the most popular features of LANDP*.

LANDP V5.0 End of Service

As of 30th September 2002, free support for Version 5.0 will no longer be available.

After this date, IBM will be offering support for Version 5.0 on a fee basis only. Alternatively, you can choose to upgrade to Version 6.0.
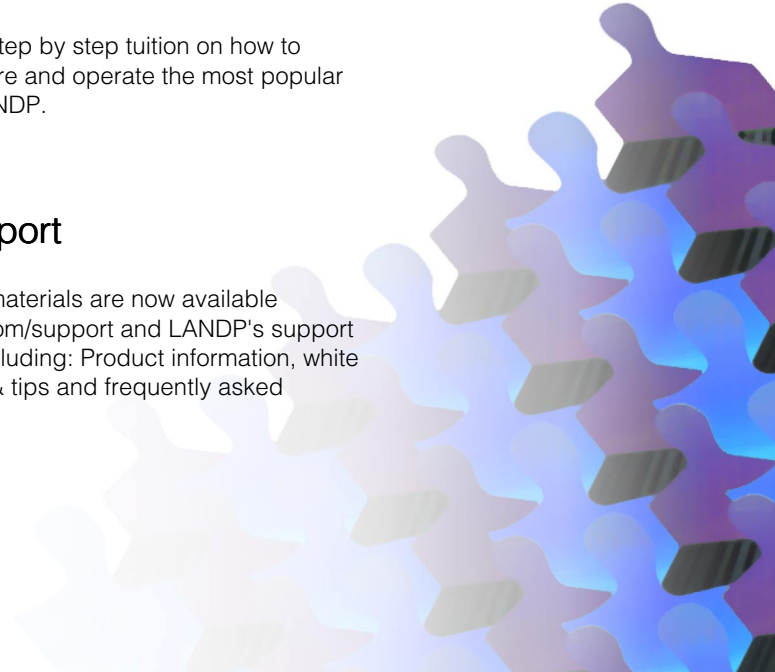

Practical Tutorials

A set of LANDP tutorials are now available to download for free from the LANDP web site.

They include step by step tuition on how to install, configure and operate the most popular features of LANDP.
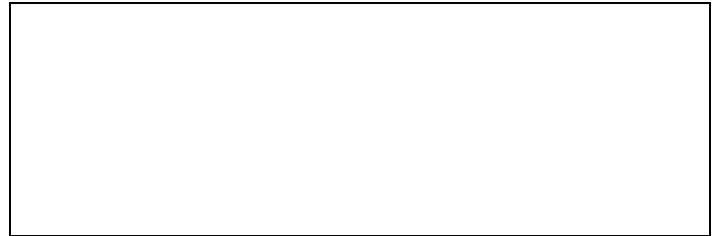

Web Support

New support materials are now available through ibm.com/support and LANDP's support web pages including: Product information, white papers, hints & tips and frequently asked questions.
