# A Smarter Process...

## ...is a Social Process

*Empower business users to collaborate and act on observed insights*

## ...is a Flexible Process

*Accelerate development, deployment, adoption and change*

## ...is a Mobile Process

*Exploit mobile devices to allow anyone to engage anytime, anywhere*

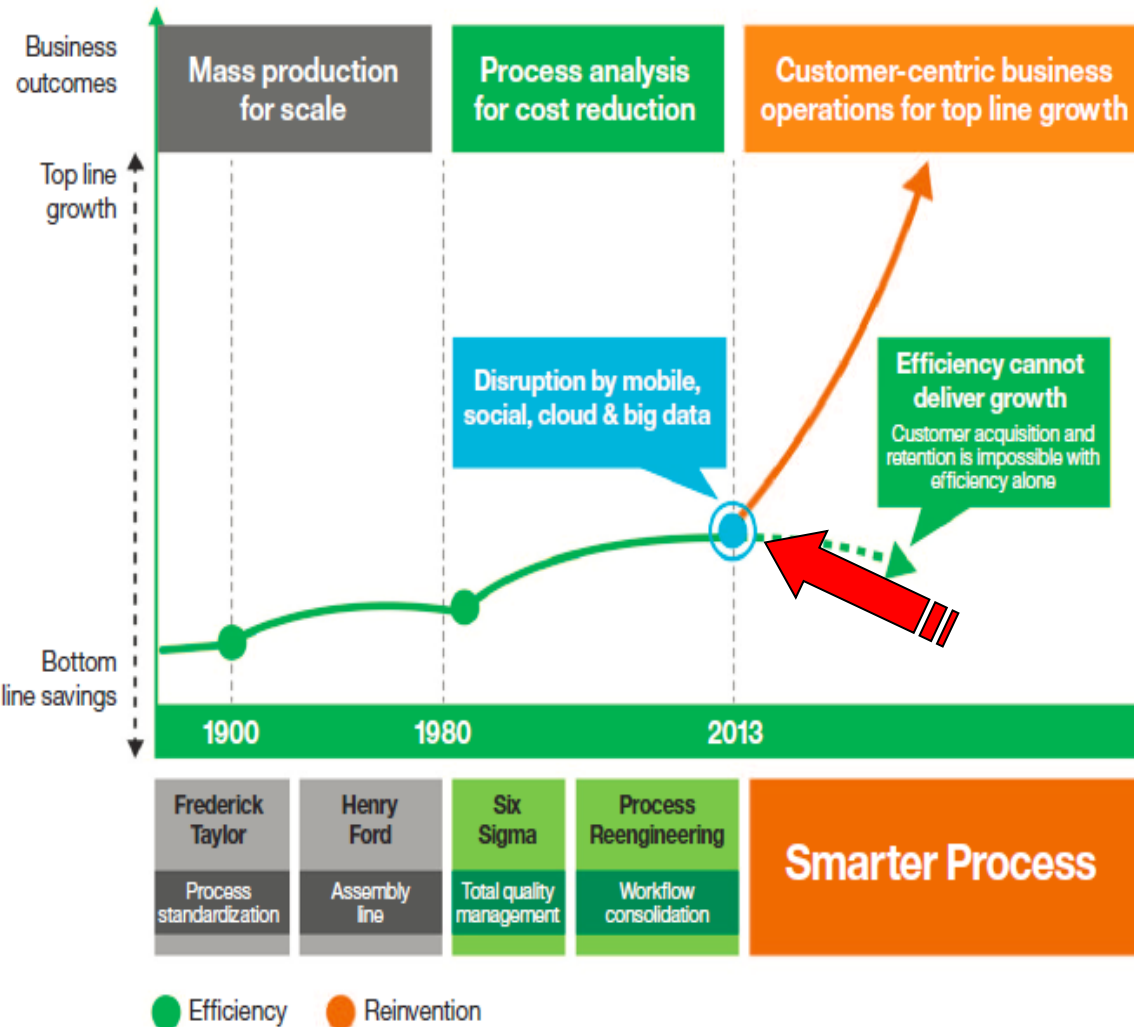

## ...is a Data-Driven Process

*Enable faster, better decisions in response to business situations and opportunities*

# Impact of Smarter Process on Top Line Business Growth

- Forrester forecasts businesses will spend up to **US\$ 2.7 B in 2014** for **mobile process reinvention** services.
- Gartner ranks Business Process as a Service (**BPaaS**) as the **fastest growing cloud segment** with **47 % annual growth**.
- Opening an account online in retail banking
  - 47 % of all account opening attempts end in the customer abandoning the process midway and never complete
  - It takes just 5 minutes at the best-in-class banks, but up to 76 mts at the other end of the spectrum.

## What is Driving the Need for Smarter Process...

New forces are disrupting how companies do business

- Mobile**

**\$3.6B** spend by 2014

**Mobile requires process reinvention**

Forrester forecasts that companies will spend about \$900 million on mobile process reinvention services in 2013 and up to \$2.7 billion in 2014
- Social**

**25%** productivity improvement

**Socially-enabled productivity**

According to McKinsey, enterprises, can raise productivity by 25%.
- Cloud**

**47%** growth in cloud processes

**Cloud deployment rethinks their processes**

Gartner ranks Business Process Management as the fastest growing cloud segment with 47% growth.
- Big Data**

**€100B** government savings

**Big data drives innovation**

McKinsey found governments can save €100 billion in operational efficiency.

*The “Nexus of Forces” (Gartner) are disrupting how companies do business...*

With heightened expectations, customer-centricity is not optional

US health insurance companies stand to gain over \$6 billion by being simpler to do business with <sup>1</sup>

“Transforming the customer experience means changing the way the company operates” <sup>2</sup>

80% of consumers are more likely to recommend a brand because it provides a simpler experience <sup>3</sup>

1. Global Brand Simplicity Index, 2012, Siegel and Gale  
 2. Adapt Business Process Improvement for Customer Experience, 2012, Forrester  
 3. Global Brand Simplicity Index, 2012, Siegel and Gale

*..and are putting the customer in the center...*

What do you need from your processes in a customer-centric world?

Processes must be:

- Instant**  
At Internet speed  
47% of online bank account opening applicants don't successfully complete the process and fund their accounts
- Seamless**  
Interconnected & ubiquitous  
In the US, mobile banking jumped to 32% of customers in 2012 up from 21% in 2011
- Insightful**  
Targeted and relevant  
47% say it frustrates them when companies don't use the information they have to make interactions and offers more relevant

*...driving the need for significant process innovation*

# How does Mobile make a smart process even Smarter?

## New Context

Location

Speed & direction

Frame of mind

## New engagement at business moments

SMS

Mobile email

## New Process Digitization

Photos

Identity

Mobile creates numerous timely interactions

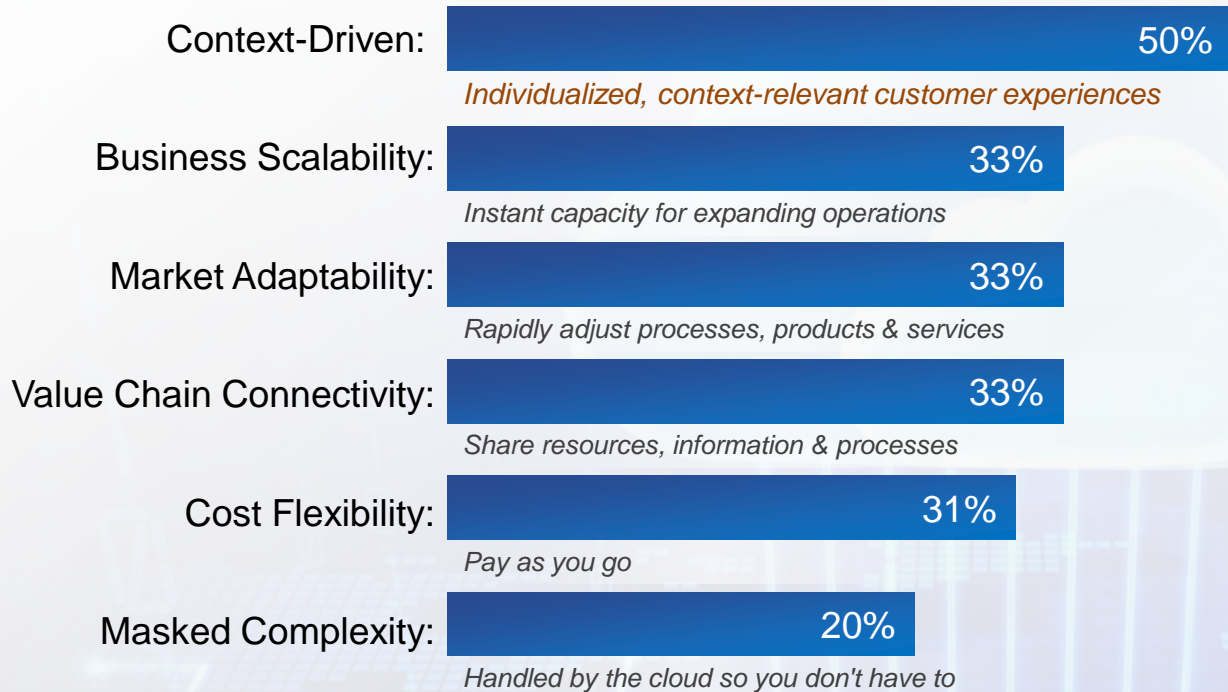

Harness interactions for goal-oriented results with Smarter Process

## Smarter Process on the Cloud transforms process adoption

Cloud empowers six game changing business enablers:

% of leaders' #1 choice

~ The Power of the Cloud  
IBM Institute for Business Value, 2012

## Smarter Process enables Business Performance Optimization

### Agile Processes

Change processes at the pace required by the business

### Operational Intelligence

Transform visibility into insight and action

### Value Realization

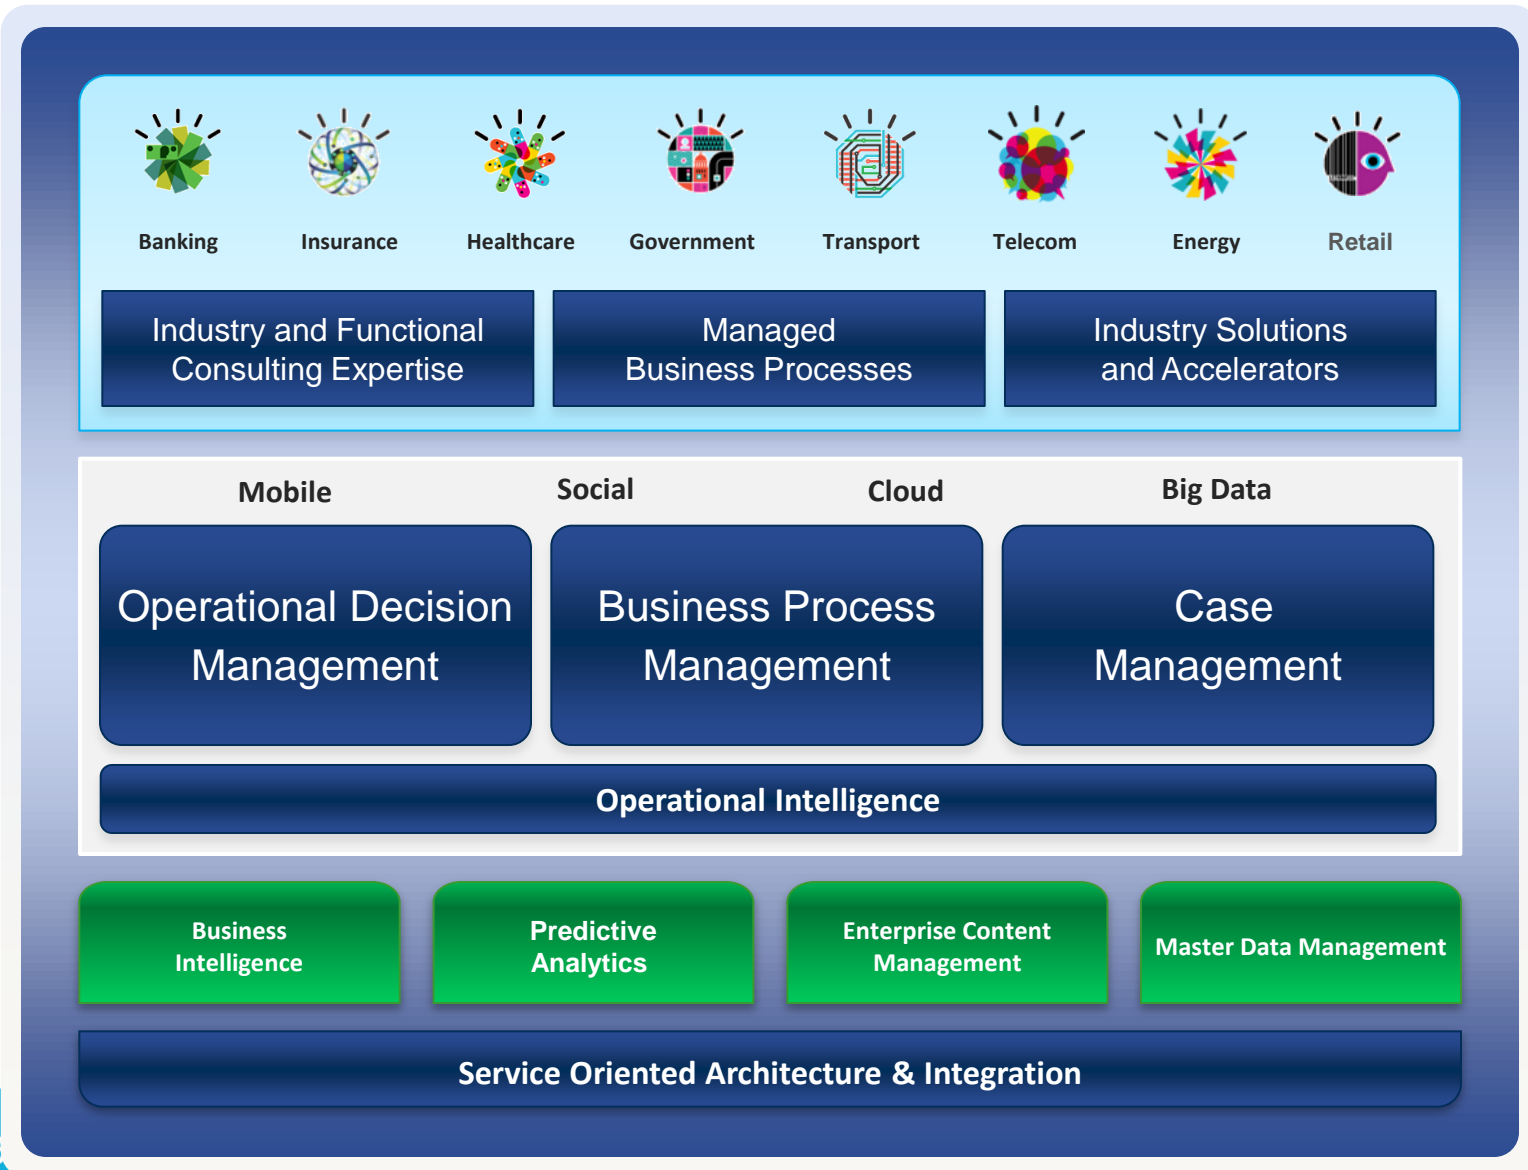

Manage value with closed loop triggers and orchestrated playbooks

- Agile processes enable new insights to be implemented at 'business speed'
- Operational intelligence
  - Drives the need for action
  - Assists or automates inline decision making
  - Helps the business characterize issues and potential solutions
- Value realization detects performance measure threats and initiated and manages structured and artful responses
- This combination allows the business to optimize its operations to significantly improve business outcomes

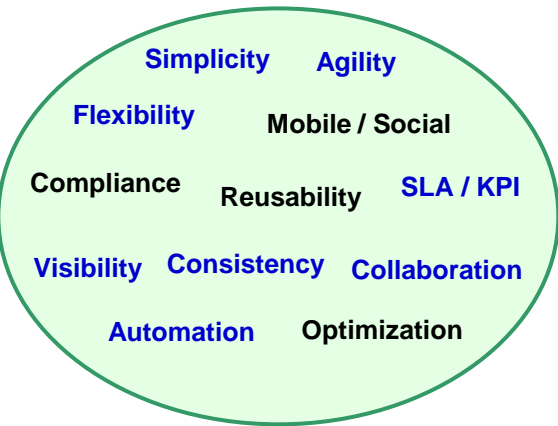

# Key IBM capabilities for Smarter Process

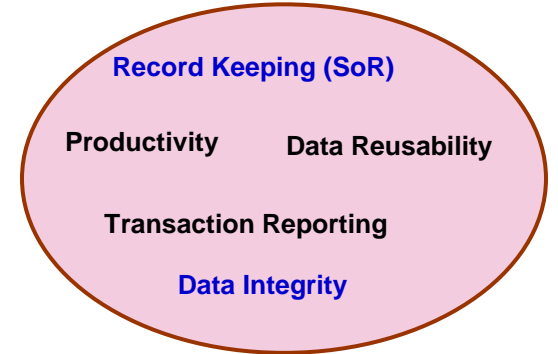

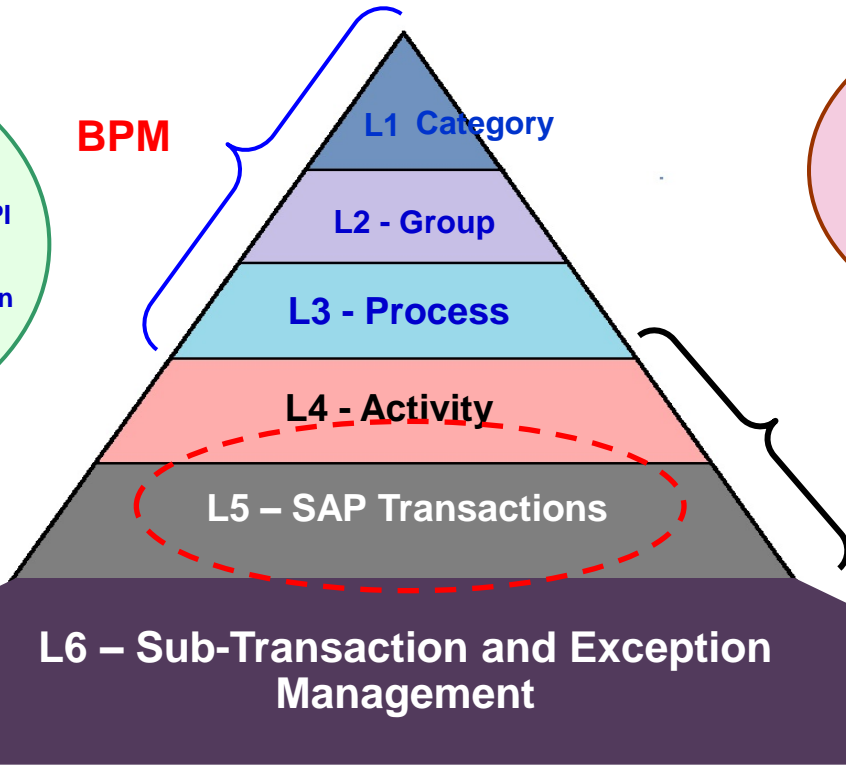

# Smarter Process for SAP

(System of Engagement - 'process', 'mobile' 'social')

# Smarter Process for SAP Capabilities

## Innovation

**Reduce blueprinting time, cost and risk**

**Iterative Business Blueprinting**

Use an iterative, experiential-based approach to accelerate traditional SAP blueprinting with SAP Solution Manager

**Improve process reliability, flexibility, visibility and control**

**Guided Workflow**

Interactively guide end users through SAP screens to improve productivity, visibility and consistency

**Process Discovery and Monitoring**

Mine SAP Business Events to discover actual processes and act in real time to business challenges

## Transformation

**Improve process efficiency and reduce business complexity**

**Process Integration and Orchestration**

Optimize process steps to improve cycle time, manageability and visibility of key processes

**Decision Automation**

Automate complex decision making to reduce bottlenecks and improve business outcomes

**Process Automation**

Dramatically reduce the cycle time of high volume processes by reducing/removing human interaction

## Business Optimization Potential

**Non-disruptive to SAP**

IBM BPM plugs into SAP Solution Manager and makes it easier to model business processes, in a roundtrip fashion

**Non-disruptive to SAP:**

IBM BPM generates business process applications that guide users through SAP screens & track process metrics for better productivity and control

**Non-disruptive to SAP**

*Business Monitor* tracks existing SAP transactions with workflow context to better manage existing processes with BAM dashboards

**Incremental Innovation:**

IBM BPM enables drastically easier enterprise service integration, process orchestration, inline business rules and process automation... in ways that enable business-driven improvements with **less risk, quicker results and more agility.**

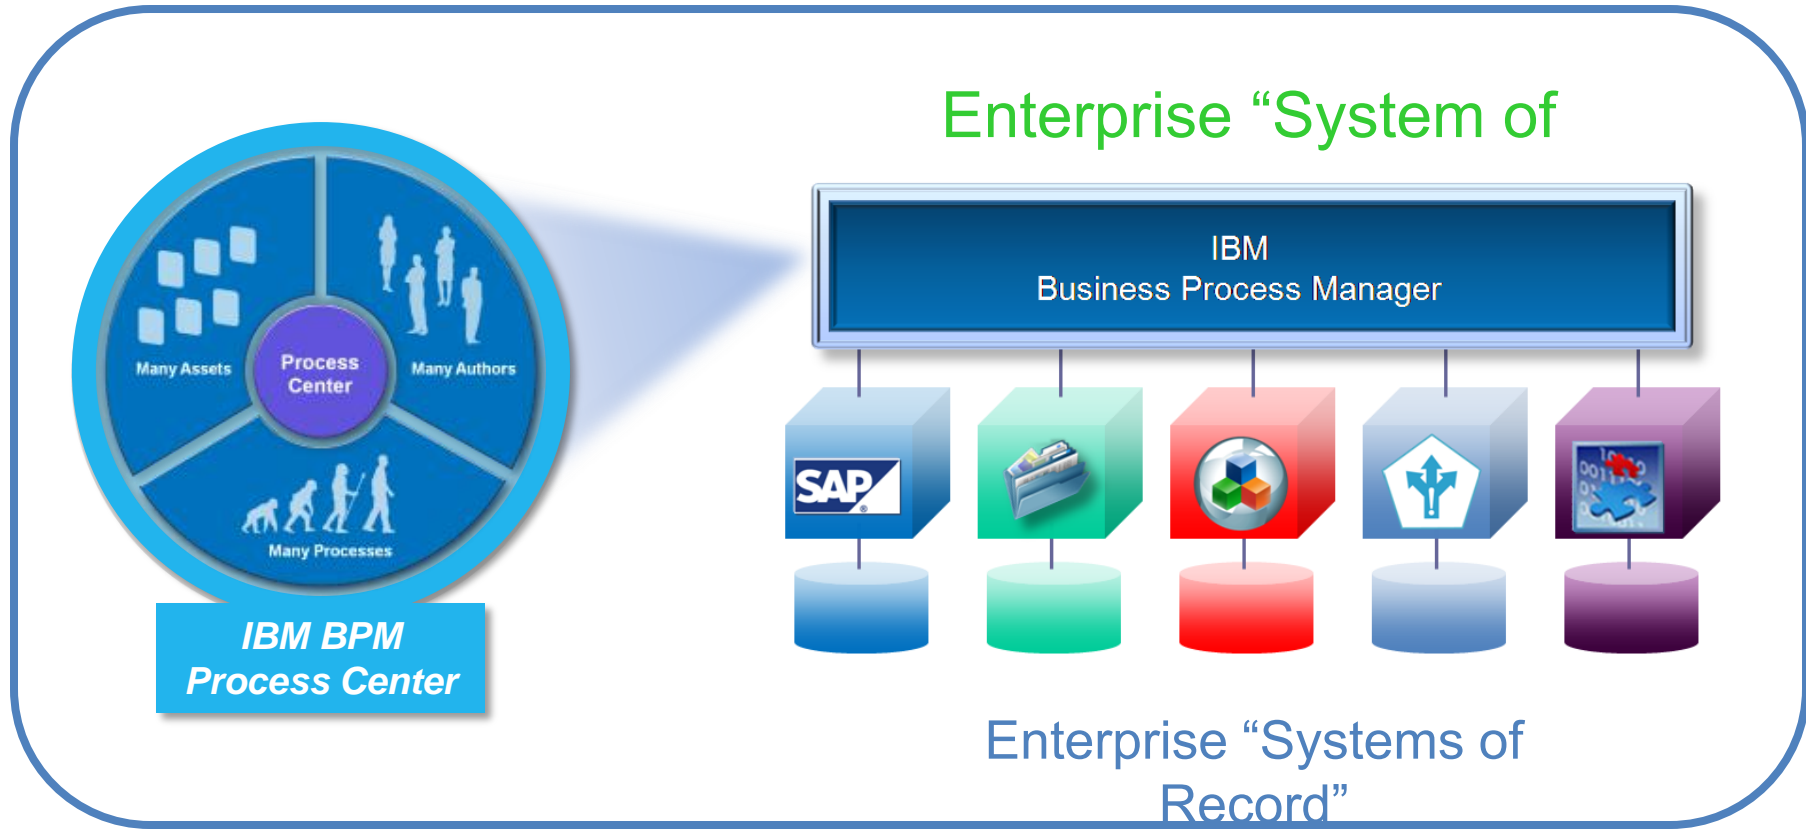

# Surround SAP With Smarter Process Capability

*IBM BPM for SAP delivers a radically superior SAP process paradigm.*

# Scale Process Improvement & Change Across the Enterprise

- *Manage large numbers of process assets & authors with centralized governance*

- *Integrate enterprise-wide operations across multiple Systems Of Record*

# IBM provides a comprehensive set of offerings

## Industry consulting and expertise

*Guide your Smarter Process strategy and execution*

## Broadest software portfolio

*Build your Smarter Process solution with best in class software*

## Managed Business Processes

*Smarter Process managed services to simplify your business & financial execution*

# Why IBM for Smarter Process?

Install base of **over 5,000+ active implemented customers** and **800+ business partners**

**Leader in Gartner's Magic Quadrant** for Intelligent Business Process Management Suites and **leader in the Forrester Waves** for BPM Suites and Dynamic Case Management

**#1 market share** in Business Process Management (BPM) and Business Rule Management Systems (BRMS) **according to Gartner and IDC**

Global Smarter Process **Center of Competency (CoC)** with **650+ experts**

## Next Steps

**Learn more with a  
Visioning Session**

**Contact your IBM seller to schedule an on-site  
guided interactive discussion on your objectives**

**See what's possible  
with a Discovery  
Workshop**

**On-site workshop with business and IT  
stakeholders to evaluate the applicability of BPM and  
Business Rules for your project**

**Implement a real  
project in 10 weeks  
with a Quick Win Pilot**

**Demonstrate immediate value to your LOB  
end-users with your first 'Quick Win' in 10 weeks**
