

# ***SPSS® Legacy Viewer Installation Instructions (Single User)***

The following instructions are for installing Legacy Viewer.

## ***System Requirements for Legacy Viewer***

The minimum hardware and software requirements for Legacy Viewer are as follows:

### **Operating system**

- Windows® Windows XP or 2000 SP3 or higher

### **Configuration**

- Pentium® or Pentium-class processor
- 256 megabytes (MB) of RAM or more
- 400 MB of available hard-disk space
- CD-ROM drive
- Super VGA (800x600) or a higher-resolution monitor

## ***Installing Legacy Viewer***

*Note:* To install Legacy Viewer, you must be logged on to your computer with administrator privileges.

### ***Installing from a CD-ROM***

#### ***Windows XP***

- ▶ Insert the CD-ROM into your CD-ROM drive. The AutoPlay feature presents a menu.
- ▶ On the AutoPlay menu, click Install Legacy Viewer, and then follow the instructions that appear on the screen.

#### ***Windows Vista***

You must run the AutoPlay as administrator:

- ▶ Close the AutoPlay window that automatically appeared.
- ▶ Using Windows Explorer, browse to the CD-ROM.

- ▶ Right-click *setup.exe* at the root of the CD and choose Run as Administrator.
- ▶ On the AutoPlay menu, click Install Legacy Viewer, and then follow the instructions that appear on the screen.

### ***Invoking the Setup Program Manually***

You can also invoke the Setup program manually:

- ▶ From the Windows Start menu, choose Run.
- ▶ In the Run dialog box, type D:\LegacyViewer\setup. (If you are not using *D* as the CD-ROM drive, enter the appropriate drive location.)
- ▶ Follow the instructions that appear on the screen.

### ***Uninstalling Legacy Viewer***

To completely uninstall Legacy Viewer:

- ▶ Use the Windows Control Panel to remove Legacy Viewer.
