Domino 6 Upgrade

Helping you minimise risk and recognise value in Notes/Domino 6

Overview

IBM Lotus Notes and Domino 6 has been designed, built and tested with one goal in mind — to help you do more with less, and manage your total cost of ownership (TCO).

Domino 6 Upgrade Offering ensures the safest and most efficient possible means to upgrade to Notes and Domino 6.

IBM Software Group Services has the proven tools and methodologies to help with the transformation from your current Domino R4.6/R5 Infrastructure to a Notes and Domino 6 Infrastructure as cost effective and smooth as possible.

Benefits

- *Your Domino 6 Upgrade project can help limit your risk, utilising well-established tools, experienced IBM Software Group Services Consultants, with industry experience and proven best practices.*
- *Ensure a robust, scalable and reliable messaging & collaborative platform through the development and documented policies, standards, procedures and guidelines (PSPG).*
- *IBM Software Group Services will provide added value by helping you identify how you can get more out of your investment in the Lotus Technology.*
- *Leverage true business value with the new and enhanced features and functions of Lotus Notes and Domino 6.*

Reasons for choosing Domino 6 Upgrade offering:

- *IBM Lotus Notes and Domino 6 represents an evolution of the platform, adding features that increase the strength of Domino as a strategic platform for Web applications, messaging, and e-business.*
- *Lotus Notes and Domino 6 addresses TCO with continuing improvements in scalability, streamlined management control, highly efficient disk usage, and innovative features like policy-based administration and enhanced messaging security.*
- *The rich messaging capabilities of Lotus Notes and Domino 6 include powerful enhancements that help users simplify everyday tasks and ease communication with others in and outside of your organisation.*
- *Lotus Notes and Domino 6 has an ultra-intuitive user interface that helps users focus on what they're doing, rather than how they're doing it.*
- *Lotus Domino 6 offers improved security and integration with directories to help enterprises achieve better administrative control with less overhead.*
- *Lotus Domino 6 includes performance and administrative features to facilitate Application Service Providers to manage multiple organisations.*
- *Lotus Domino Designer 6 provide application developers with improved design tools with unmatched flexibility, reusability, sophistication, relevancy/evolution concurrent with industry, and rapid time to market.*
- *IBM Lotus Notes and Domino 6 is designed to fluidly integrate with applications such as Lotus Sametime, QuickPlace and Discovery Server and other software, as well as expanded support for open standards and technologies such as LDAP, XML and Web Services.*
- *Lotus Notes and Domino 6 can help you do more with less, do it faster, and do it better. Whoever you are.*
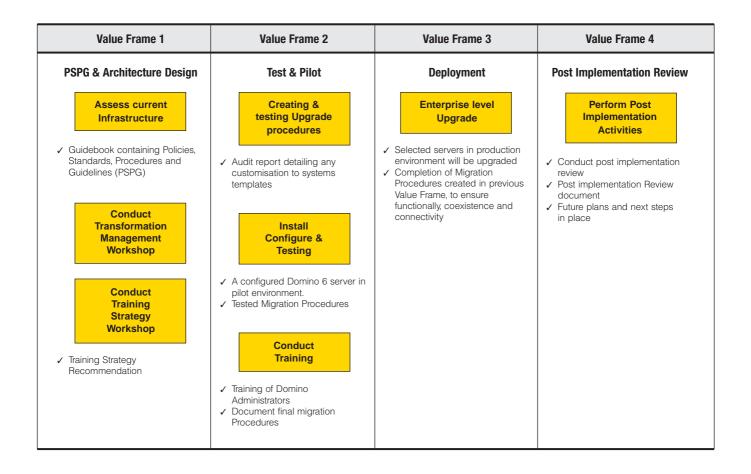

What is delivered?

The IBM Software Group Services Domino 6 Upgrade offering includes planning, and workshops to identify, update and document policies, standards and procedures (PSPG) for the upgraded system. We will upgrade your system to Domino 6, for an environment consisting of up to 1,000 users and 10 Domino servers. We conduct system audits, and basic Administrator training. We also conduct a post implementation review session for your future infrastructure plans.

The Domino 6 Upgrade Offering consists of 4 Value Frames:

The tasks associated with each Value Frame are represented by boxes and the resulting deliverables are denoted by a ✓.

Value Frame 1	Value Frame 2	Value Frame 3	Value Frame 4
PSPG & Architecture Design	**Test & Pilot**	**Deployment**	**Post Implementation Review**
Assess current Infrastructure	**Creating & testing Upgrade procedures**	**Enterprise level Upgrade**	**Perform Post Implementation Activities**
✓ Guidebook containing Policies, Standards, Procedures and Guidelines (PSPG)	✓ Audit report detailing any customisation to systems templates	✓ Selected servers in production environment will be upgraded ✓ Completion of Migration Procedures created in previous Value Frame, to ensure functionally, coexistence and connectivity	✓ Conduct post implementation review ✓ Post implementation Review document ✓ Future plans and next steps in place
Conduct Transformation Management Workshop	**Install Configure & Testing**		
Conduct Training Strategy Workshop	✓ A configured Domino 6 server in pilot environment. ✓ Tested Migration Procedures		
✓ Training Strategy Recommendation	**Conduct Training**		
	✓ Training of Domino Administrators ✓ Document final migration Procedures		

IBM Software Group Services - Messaging and Wireless Portfolio

Domino 6 Upgrade offering is one of the service offerings from the Messaging and Wireless Portfolio. This Portfolio offer services in the area of messaging and collaboration. We help our community of Notes/Domino users to successfully upgrade to later versions and get the best possible experience with these solutions. For new customers, we help accelerate migrations from other solutions and create a smooth path to improved messaging and collaboration.

Other offerings in this Portfolio are:

- *R5 Upgrade*
- *iNotes QuickStart*
- *Messaging Migration*
- *DYS CONTROL! Infrastructure Performance Analysis*
