Lotus® software

Sametime QuickStart

Overview

The Sametime QuickStart offering provides an effective way to pilot the real-time collaboration software solution with chat, white-boarding and application sharing capabilities.

Sametime can make working with your extended team easier than ever before. It's not only about instant messaging, it's also about using the Web to improve customer service, reduce travel costs, and create communities among your employees, customers, partners, and suppliers.

Benefits

- *Proof of the power of Sametime to meet your collaboration needs.*
- *Solid understanding of Sametime's key features – and how best to use them in your environment.*
- *Pre-defined services to prove how Sametime can improve corporate collaboration.*
- *IBM Software Group Services brings years of experience in deploying mission-critical groupware solutions to the real-time collaboration market. We will assist you with the right services to ensure that the technology is implemented quickly and efficiently, and that your IT staff and end users can fully capitalise on it.*

Does your Organisation need Sametime QuickStart

- *Are you interested in improving workgroup communication by creating a collaborative environment with chat, awareness, and e-meetings?*
- *Do you need to reduce travel time, cost and expenses without affecting productivity?*
- *Would you like to help workgroups in your organisation make decisions faster, locate people and expertise faster?*

- *Would you like to see the Sametime Solution work in your environment prior to full scale deployment?*

If you answered "yes" to any of the above questions, Sametime QuickStart is appropriate for you.

What is delivered?

Sametime QuickStart offering includes the following deliverables:

- *Installation of one Sametime server.*
- *50 client access licence.*
- *Administrator hands-on walk through.*
- *On-site, classroom, end user training on Sametime for 10 pilot users.*
- *Post implementation review and high level road map for your enterprise-level roll-out.*
