IBM Connect Comes to You ANZ Edition

How to make money from facebook

-   **just go to** “Account Settings”

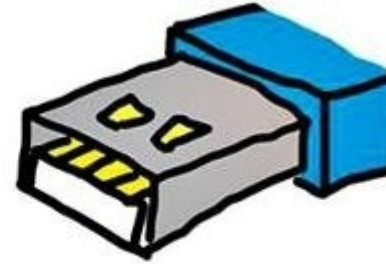

-   **press** “Deactivate your account”

-   **go to work.**

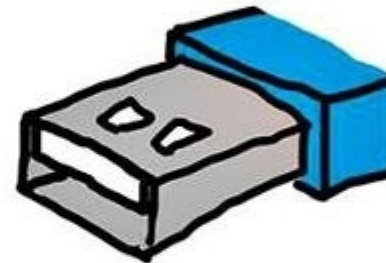

It is a well known fact that you must spin a
USB three times before it will fit.
From this, we can gather that a USB has
three states.

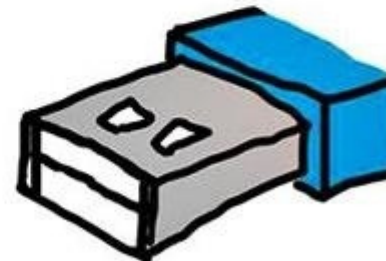

Up position

Down position

Superposition

Until the USB is observed it will stay in
the superposition. Therefore it will not fit
until observed - except for in cases of
USB tunnelling.

Please note:

IBM's statements regarding its plans, directions, and intent are subject to change or withdrawal without notice at IBM's sole discretion.

Information regarding potential future products is intended to outline our general product direction and it should not be relied on in making a purchasing decision.

The information mentioned regarding potential future products is not a commitment, promise, or legal obligation to deliver any material, code or functionality. Information about potential future products may not be incorporated into any contract. The development, release, and timing of any future features or functionality described for our products remains at our sole discretion.

Performance is based on measurements and projections using standard IBM benchmarks in a controlled environment. The actual throughput or performance that any user will experience will vary depending upon many factors, including considerations such as the amount of multiprogramming in the user's job stream, the I/O configuration, the storage configuration, and the workload processed. Therefore, no assurance can be given that an individual user will achieve results similar to those stated here.

Notes 9.0 Social Edition

Social Theme: cleaner, more modern look, adopted across IBM product line for UI consistency

Enhanced Search

The screenshot displays the IBM Notes 9.0 Social Edition interface. On the left is a navigation pane with a 'Shortcuts' callout. The main area shows an email list with columns for 'Who', 'Subject', 'Date', and 'Size'. A 'Group By' callout points to the 'Date' column. The selected email is expanded to show details, including a file attachment 'CMOPrezv3.odp' and a comment section with 'Embedded Experiences' callout. On the right, a calendar shows the current date 'Thu, Dec 13, 2012' and a monthly view for December 2012. A 'Social Theme' callout points to the overall UI design.

Quick Find works on any inbox column including Dates

What's new in Notes 9.0 Social Edition?

- “Sticky” auto-sort for Date columns

By default, your most recent emails will appear at the top of your inbox

Mail | Calendar & To Do | Access & Delegation

Basics | Letterhead | Signature | Follow Up | Sender Colors | Recipient Icons

Owner: Dennis Michaels/ibm Change

[Mail security preferences](#)

Message Options

- Spell-check messages before sending
- Warn me about blank message subjects
- Always show details in received Mail messages
- Send me a Return Receipt when recipients read mail I send
- Automatically close original e-mail when replying/forwarding

View and Folder Management

- Prohibit access to folders for users with Calendar, To Do's, and Contact access only
- Allow others to recall mail sent to me

Display names in mail in this format:
First Last

Enter last name prefixes (as in La, el, Van Der, etc.)

When I delete a collapsed conversation:
Ask me

When I delete any document in the Sent view:
Ask me

When I delete a calendar document from any Mail view or folder:
Ask me if I want to remove or delete

Delete documents in my Trash folder after 48 hours

- Automatically sort date columns (takes effect after reopening mail tab):
 - Most recent on top
 - Most recent on bottom

What's new in Notes 9.0 Social Edition?

The screenshot displays the IBM Notes 9.0 Social Edition interface. The top navigation bar includes tabs for Discover, Dennis Michaels - Mail, Dennis Michaels - Calendar, Updates, and Workspace. The left sidebar shows the user's profile (Dennis Michaels, showcase3) and a list of folders including Inbox, Drafts, Sent, Follow Up, All Documents, Junk, Trash, Chat History, and Views. A 'Folders' section lists Cal, Demo setup, Embedded Experience, Files Integration, Live Text, and Notes Link.

The main content area shows an email list with a 'Who' header. A dialog box titled 'Add Sender to Contacts' is open, displaying the following fields:

- Title: (dropdown)
- First name: Paul
- Middle name: (empty)
- Last name: Ghina
- Suffix: (dropdown)
- Company name: (empty)
- E-mail: Paul Ghina/ibm
- Mail program: IBM Notes (dropdown)
- Routing domain(s): (empty)
- Business phone: (empty)
- Home phone: (empty)
- Mobile phone: (empty)
- Save sender's internet certificates, if available

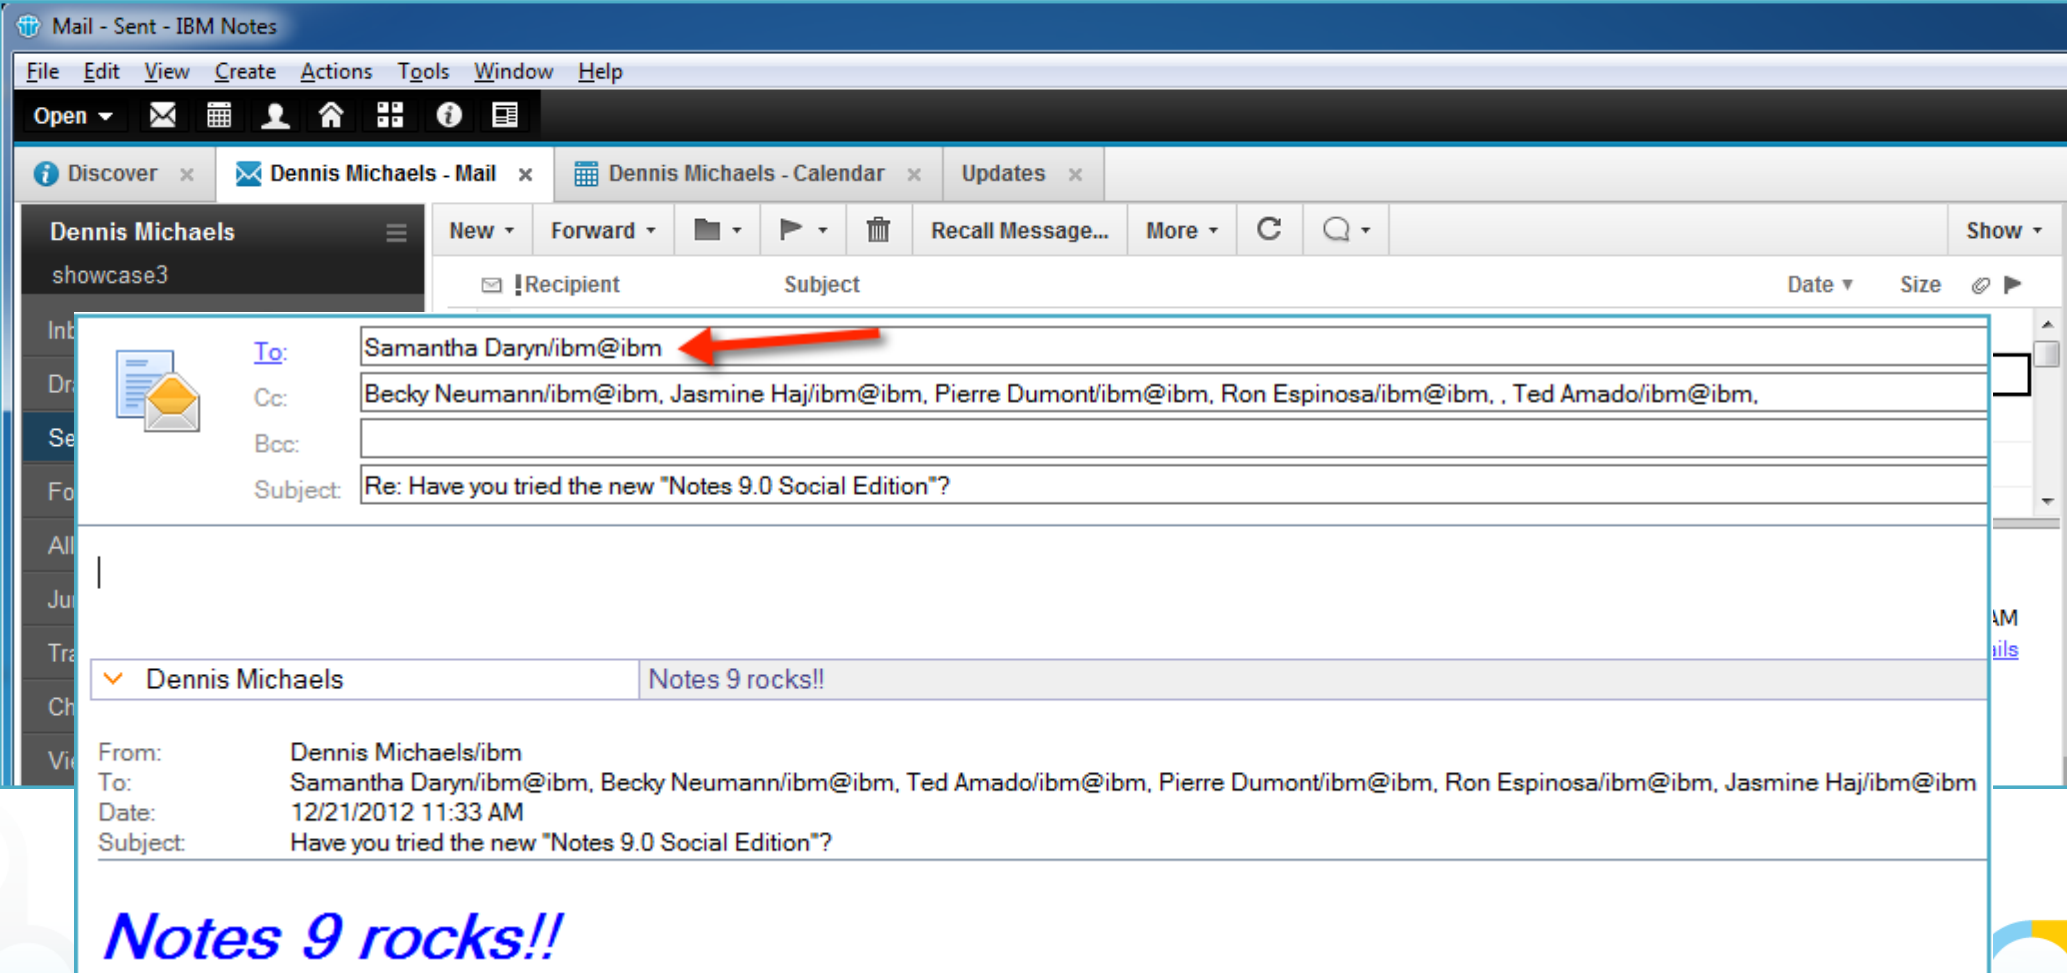

A context menu is open over the email list, showing options such as Search, Quick Flag, Move to Folder..., Mark as, Add Sender to Contacts..., Reply, Reply to All, Forward, Copy Into New, Open in New Window, Print... (Ctrl+P), and Delete (Del).

The message list below the dialog shows various messages with dates, times, and sizes. For example, a message from Paul Ghina is highlighted, corresponding to the contact information in the dialog box.

Significant improvements to "Add Sender to Contacts"

What's new in Notes 9.0 Social Edition?

- “Reply to All” from Sent folder now removes your name from the To: field

The screenshot shows the IBM Notes 9.0 Social Edition interface. The window title is "Mail - Sent - IBM Notes". The menu bar includes File, Edit, View, Create, Actions, Tools, Window, and Help. The toolbar contains icons for Open, Mail, Calendar, Home, and other functions. The left sidebar shows the user profile "Dennis Michaels" and a folder list. The main pane displays an email in the Sent folder. The email header is as follows:

To: Samantha Daryn/ibm@ibm 
Cc: Becky Neumann/ibm@ibm, Jasmine Haj/ibm@ibm, Pierre Dumont/ibm@ibm, Ron Espinosa/ibm@ibm, , Ted Amado/ibm@ibm,
Bcc:
Subject: Re: Have you tried the new "Notes 9.0 Social Edition"?

Below the email header, there is a preview of the email content:

▼ Dennis Michaels | Notes 9 rocks!!

What's new in Notes 9.0 Social Edition?

Calendar entries can now be color-coded by category

The screenshot shows the IBM Notes 9.0 Social Edition interface. On the left, a calendar entry form is visible with fields for 'Subject', 'When', 'Where', and 'Category'. The 'Category' field is set to 'Family'. A red arrow points to this field. In the center, a 'Preferences' dialog box is open, showing the 'Calendar - Colors' section. This section has tabs for 'Calendar Entry Colors' and 'Category Colors'. Under 'Calendar Entry Category Colors', there is a table with columns for 'Select Categories and the Color to associate them with:', 'Background', and 'Text'. The 'Family' category is selected, and its background color is set to yellow. A red arrow points to the 'Background' dropdown for 'Family'. Below the table, there are several rows with the text 'To add categories to this color set, click on ...'. At the bottom of the dialog, there is a 'Restore Default Colors' button and a note: 'Note: You can add Categories on the [Calendar & To Do - Display - Entries](#) tab.' On the right side of the dialog, there are checkboxes for 'Mark Private', 'Notify Me', and 'Mark Available', along with 'OK' and 'Cancel' buttons. A blue callout box at the top right contains the text 'Calendar entries can now be color-coded by category'.

This is the protected text area of the form.

What's new in Notes 9.0 Social Edition?

Check Calendar dialog can be moved and sized, and now remains on top while you're interacting with Notes

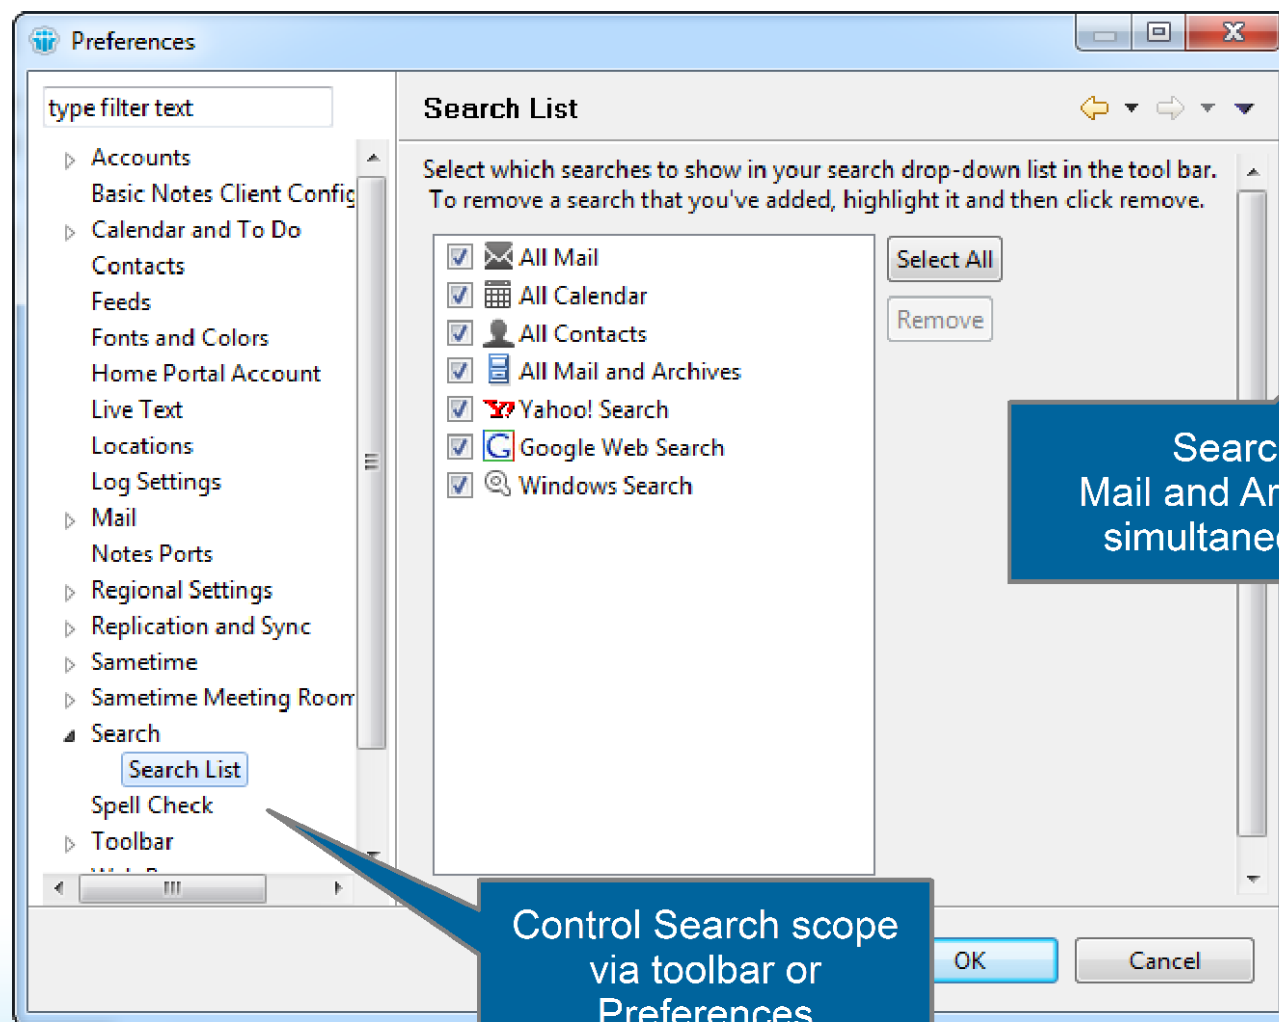

The screenshot displays the IBM Notes 9.0 Social Edition interface. At the top, the title bar reads "Invitation: DEMO session: IBM Notes 9.0 Social Edition (Jan 28 02:00 PM CST in Connect 2013) - IBM Notes". The menu bar includes File, Edit, View, Create, Actions, Tools, Window, and Help. Below the menu bar, there are several tabs: Discover, Dennis Michaels - Mail, Dennis Michaels - Calendar, Updates, and Invitation: DEMO session: IBM Notes... The main content area shows an invitation from Samantha Daryn for a meeting on Monday, January 28, 2013, from 2:00 PM to 3:00 PM. The invitation details include the chair (Samantha Daryn/ibm), location (Connect 2013), and required attendees (Becky Neumann/ibm@ibm, Dennis Michaels/ibm@ibm). A "Check Calendar..." button is visible in the invitation header.

Overlaid on top of the main content is a "Check Calendar" dialog box. The dialog box has a title bar with a question mark icon and a close button. It features a calendar view for January 28, 2013, with a time slot from 7 am to 8 pm. The calendar shows several events: "SmartCloud Notes project te..." and "Connect 2013 Opening Gen..." at 8 am-9 am; "Dentist Appointment" at 11 am-12 pm; "Invitation: DEMO session: IBM Notes 9.0 Social Edition" at 2 pm-3 pm; and "Pickup Jack after school" at 5 pm-6 pm. The dialog box also includes a "Done" button at the bottom.

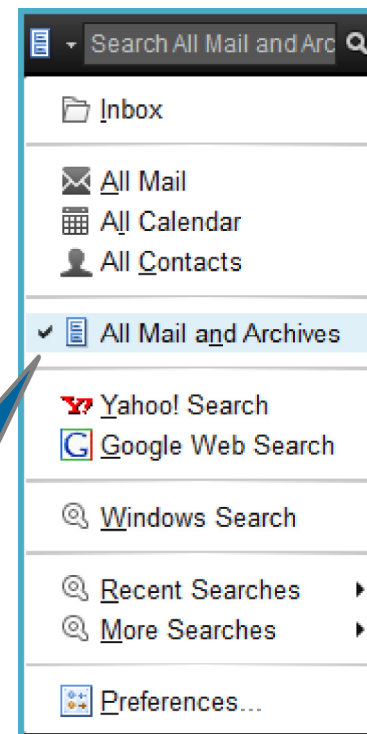

On the right side of the interface, there is a sidebar with several widgets: "Sametime Contacts", "My Widgets", "Feeds", and "Day-At-A-Glance". The "Day-At-A-Glance" widget shows a calendar for Wednesday, December 19, 2012, with a list of events: "Quality assessment (Connections Mail)" from 8:00 AM to 9:30 AM, "Executive Briefing (Acme Corp.)" from 8:30 AM to 04:30 PM, "Pickup Jack after school" at 05:00 PM, and "Client Dinner" from 07:00 PM to 08:00 PM. Below the "Day-At-A-Glance" widget is a "Today" widget showing the current date as December 19, 2012, and a calendar for the month of December 2012.

At the bottom of the interface, there is a status bar that reads "You are using Widget Catalog showcase3/ibm/toolbox.nsf." and an "Online" indicator.

What's new in Notes 9.0 Social Edition?

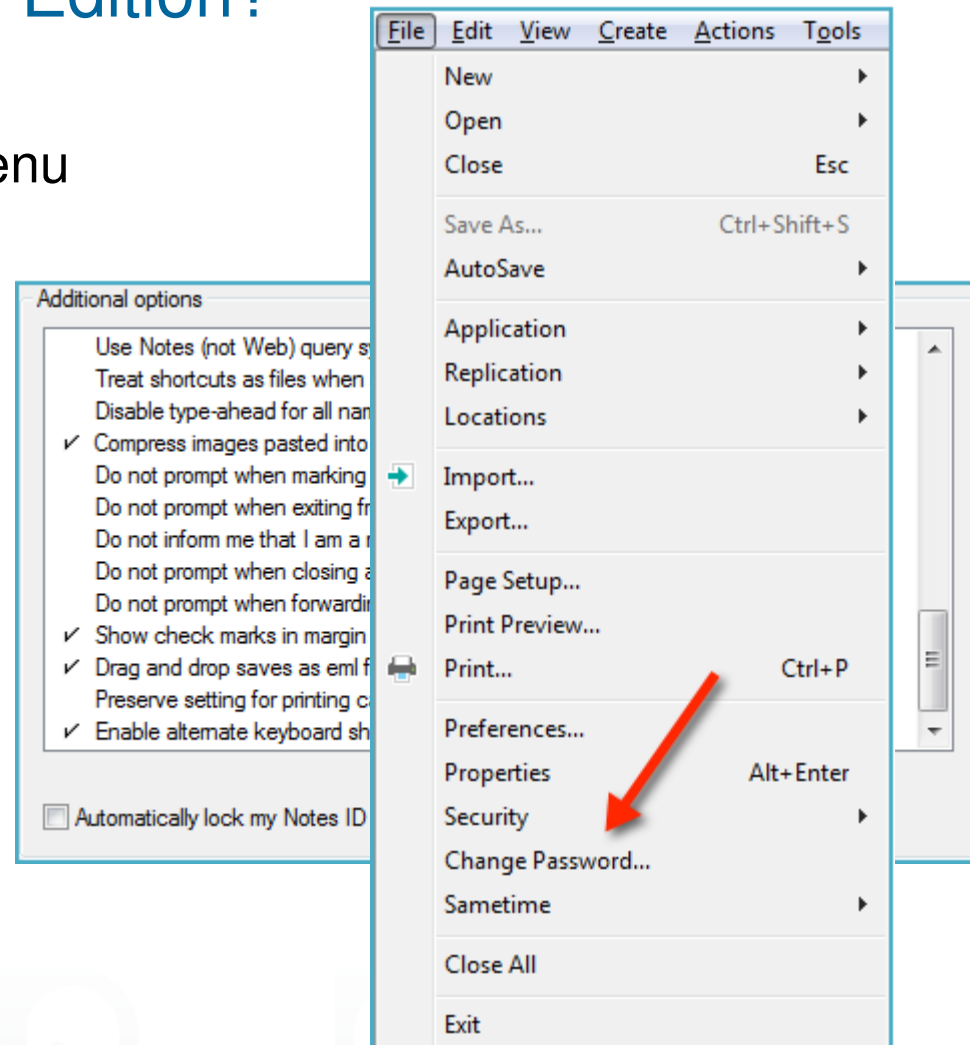

Search Mail and Archives simultaneously

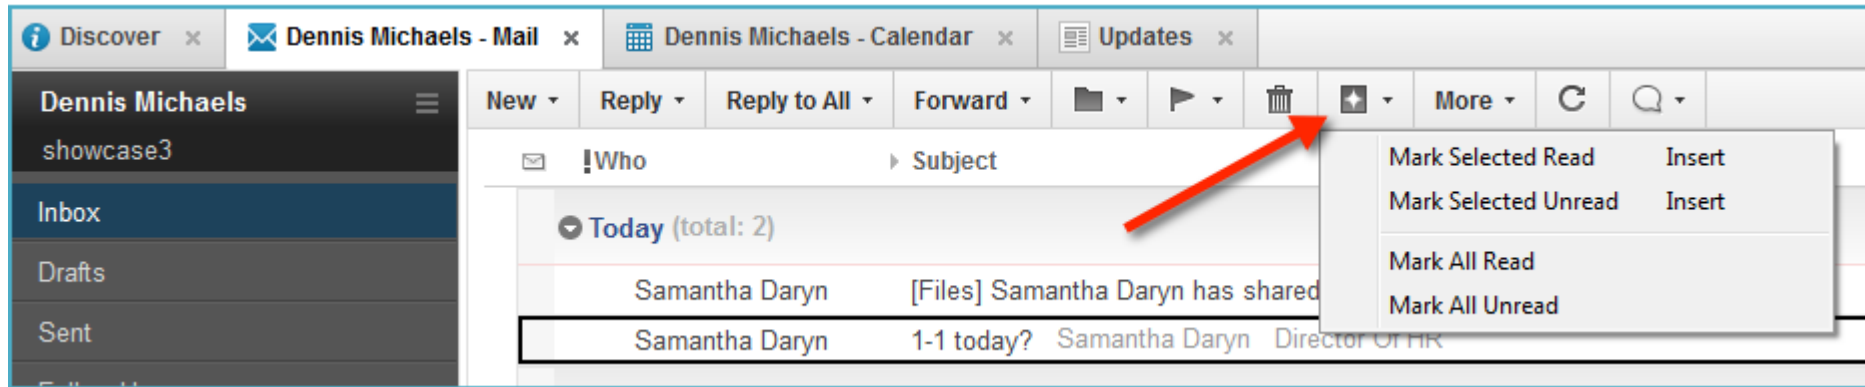

What's new in Notes 9.0 Social Edition?

- “Change Password...” now on File menu
- New shortcut keys:
 - Ctrl+R -or- Ctrl+Shft+R for “Reply” or “Reply to All”
 - Ctrl+Alt+V for “Paste Special”
 - Ctrl+Shft+V for “Paste as Plain Text”
- Mac® Cocoa® support!

What's new in Notes 9.0 Social Edition?

- Action bar button in Inbox to mark messages Read or Unread

Default Preference settings...

- If user is already using the mail pop-up notifier, change to use “slide-in” notifier instead
- Automatically close original mail when replying or forwarding
- Automatically sort Date column to display the most recent at top
- Automatically process meeting *notifications* (e.g., updates that do *not* require a change-in-schedule decision)
- Turn on “ghosting” in calendar (display *unaccepted* invitations in the calendar view)
- Enable “Synchronize Contacts” (with iNotes and mobile devices)
- Turn on new “One UI” theme
- Expose “Job Title” in type-ahead

- Embedded Sametime – 8.5.2 IFR1
- Symphony has been removed – separate download now required

iNotes 9.0 Social Edition

Near-parity with full Notes experience!

Consumability:

- Abbreviated dates
- Quick find
- Vastly improved Calendar Create, Edit and Notice forms
- Calendar view improvements
- NEW dynamic Scheduler widget
- Import existing contacts from Microsoft® Outlook®
- Return Receipt generation control
- Paste images from clipboard (Firefox only)
- Drag 'n Drop attachments (HTML 5 APIs)
- Extensibility via Notes Widgets and Live Text (OpenSocial gadgets)
- Open widget content in new sidebar panels or tabs

- Secure attachment viewing (now on Greenhouse; planned for SmartCloud and on-premises)
- Relocate folders

Social integration:

- Embedded Experiences
- Activity Stream with “Updates” widget
- Connections Files integration
- IBM Social theme
- NEW Notes links and web links, displayed together

Caption Row One text in the first row								
Caption Row Two text in the second row								
Caption Row Three text in the third row								

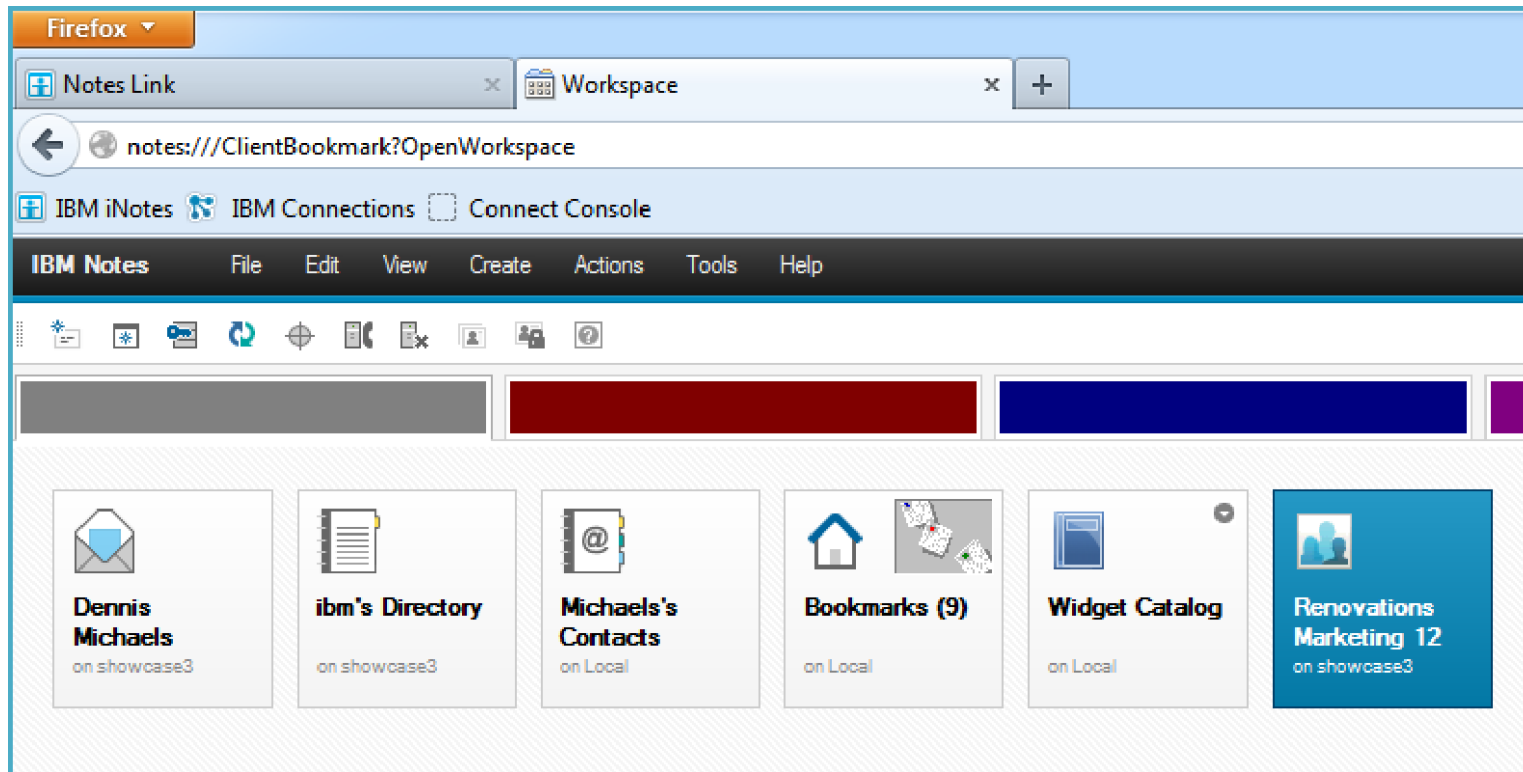

But if you click the Notes link...

Feature	Example:	Note:
Sections		- used in replies for Notes mail. Otherwise most common on a form or in documentation.
Tables		
Tabbed Tables - Row is picked via tabs	<div style="border: 1px solid gray; padding: 5px; display: inline-block;"> Tab One Tab Two Tab Three </div>	Mostly used on forms
Caption Tables - Displays each row as a clickable caption.	<div style="border: 1px solid gray; padding: 5px; margin-bottom: 5px;"> <p style="text-align: center;">Caption Row One _</p> <p style="text-align: center;">text in the first row</p> </div> <div style="border: 1px solid gray; padding: 5px; margin-bottom: 5px;"> <p style="text-align: center;">Caption Row Two □</p> </div> <div style="border: 1px solid gray; padding: 5px;"> <p style="text-align: center;">Caption Row Three □</p> </div>	Mostly used on forms

...and you get this...

The screenshot shows a Firefox browser window with two tabs: 'Notes Link' and 'Greenwell Vendor Checklist (No Resp...'. The address bar shows a URL: `notes://showcase3/85257A850060FC1C/0e5e7b7972ee57f1802577c2003df433/63f79142040b370c85257962001b646a`. The browser displays the IBM Notes application interface, including a menu bar (File, Edit, View, Create, Actions, Tools, Help) and a toolbar with buttons for 'Edit Document', 'New Response', 'Chat', and 'Cancel'. The main content area is divided into a 'Main Document' section and a 'Basics' section. The 'Main Document' section contains the text: 'Dan Misawa/Renovations2 12/09 11:59 PM EST' and 'Keep this document active'. The 'Basics' section contains metadata: 'Document Type Discussion', 'Subject Greenwell', 'Category Collateral, V...', 'Associated Event', and 'Associated Subteam(s)'. Below this is a 'Reviewers (optional)' section with 'Review By Date <No due date>' and a list of reviewers: 'Dan Misawa/Renovations2; Dina Maroni/Renovations2; Gardner Raynes/Renovations2; Heather Reeds/Renovations2; Lucille Suarez/Renovations2'. An 'Open Application' dialog box is open in the foreground, showing a file list under 'On My Computer'. The file list includes 'Bookmarks (9)', 'Dennis Michaels's Log', 'Java AgentRunner', 'Michaels's Contacts', 'Server.Load Setup Agents', 'Widget Catalog', 'autocorr', 'domino', and 'Help'. The 'File name' field contains 'bookmark.nsf' and there is a 'Browse...' button. A bookmarks menu is also visible, listing various bookmark folders like 'Favorite Bookmarks', 'Applications', and 'More Bookmarks', along with options like 'Open All in Tabs' and 'Bookmark...'. The background of the slide features a decorative pattern of overlapping circles in various colors.

...and even this!

Notes Browser Plug-in

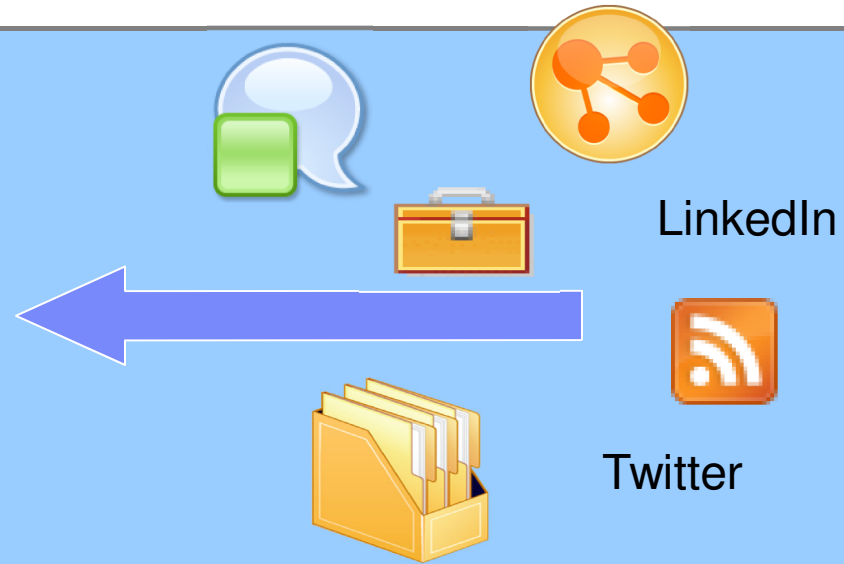

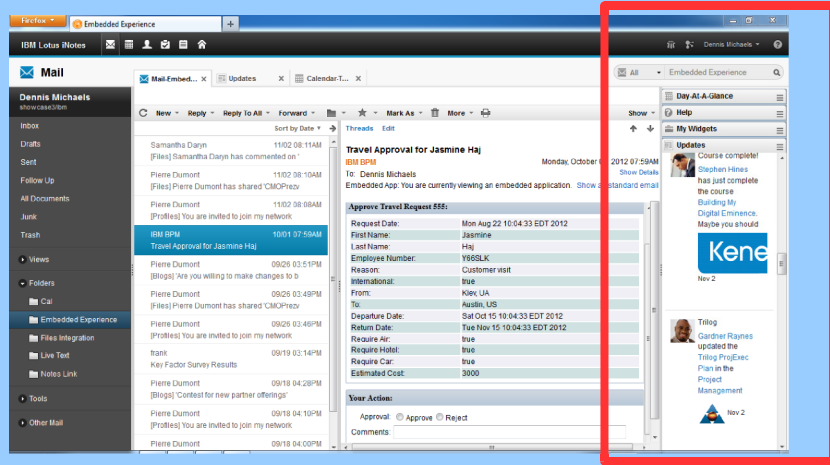

- Designed to easily extend applications previously available only to Notes users out to web browser users, as well
- Provides a powerful compliment to existing XPages capabilities
- Allows applications to run in a browser with no modification!
- Lightweight install, similar to other plug-ins in size, deployment time and configuration requirements
- Minimal limitations:
 - Windows only (for now, at least!)
 - Not designed to support mail templates or work in conjunction with iNotes
 - Firefox and Internet Explorer along with other browsers please
- Licensing plans: Enterprise

BOTTOM LINE: "...the beauty of this is for the users who want to use iNotes and could not access their apps before. This solution is for them and not for someone who wants to use the plug-in instead of the standard Client with a lower footprint..."

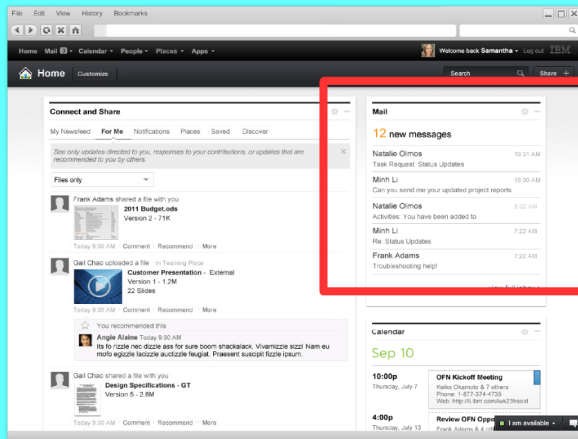

– Raj P.

“Social Mail” is the evolution of messaging to include social capabilities...delivered in the context of where you choose to work

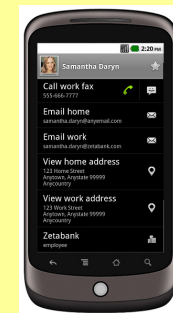

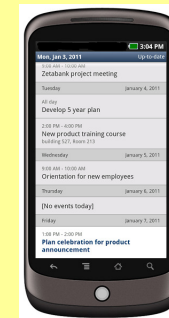

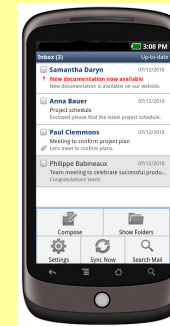

Access social tools from your inbox

Access messaging from social homepage

Access from your mobile devices

Realizing the Social Vision in the IBM portfolio

IBM Notes and Domino 9.0 Social Edition

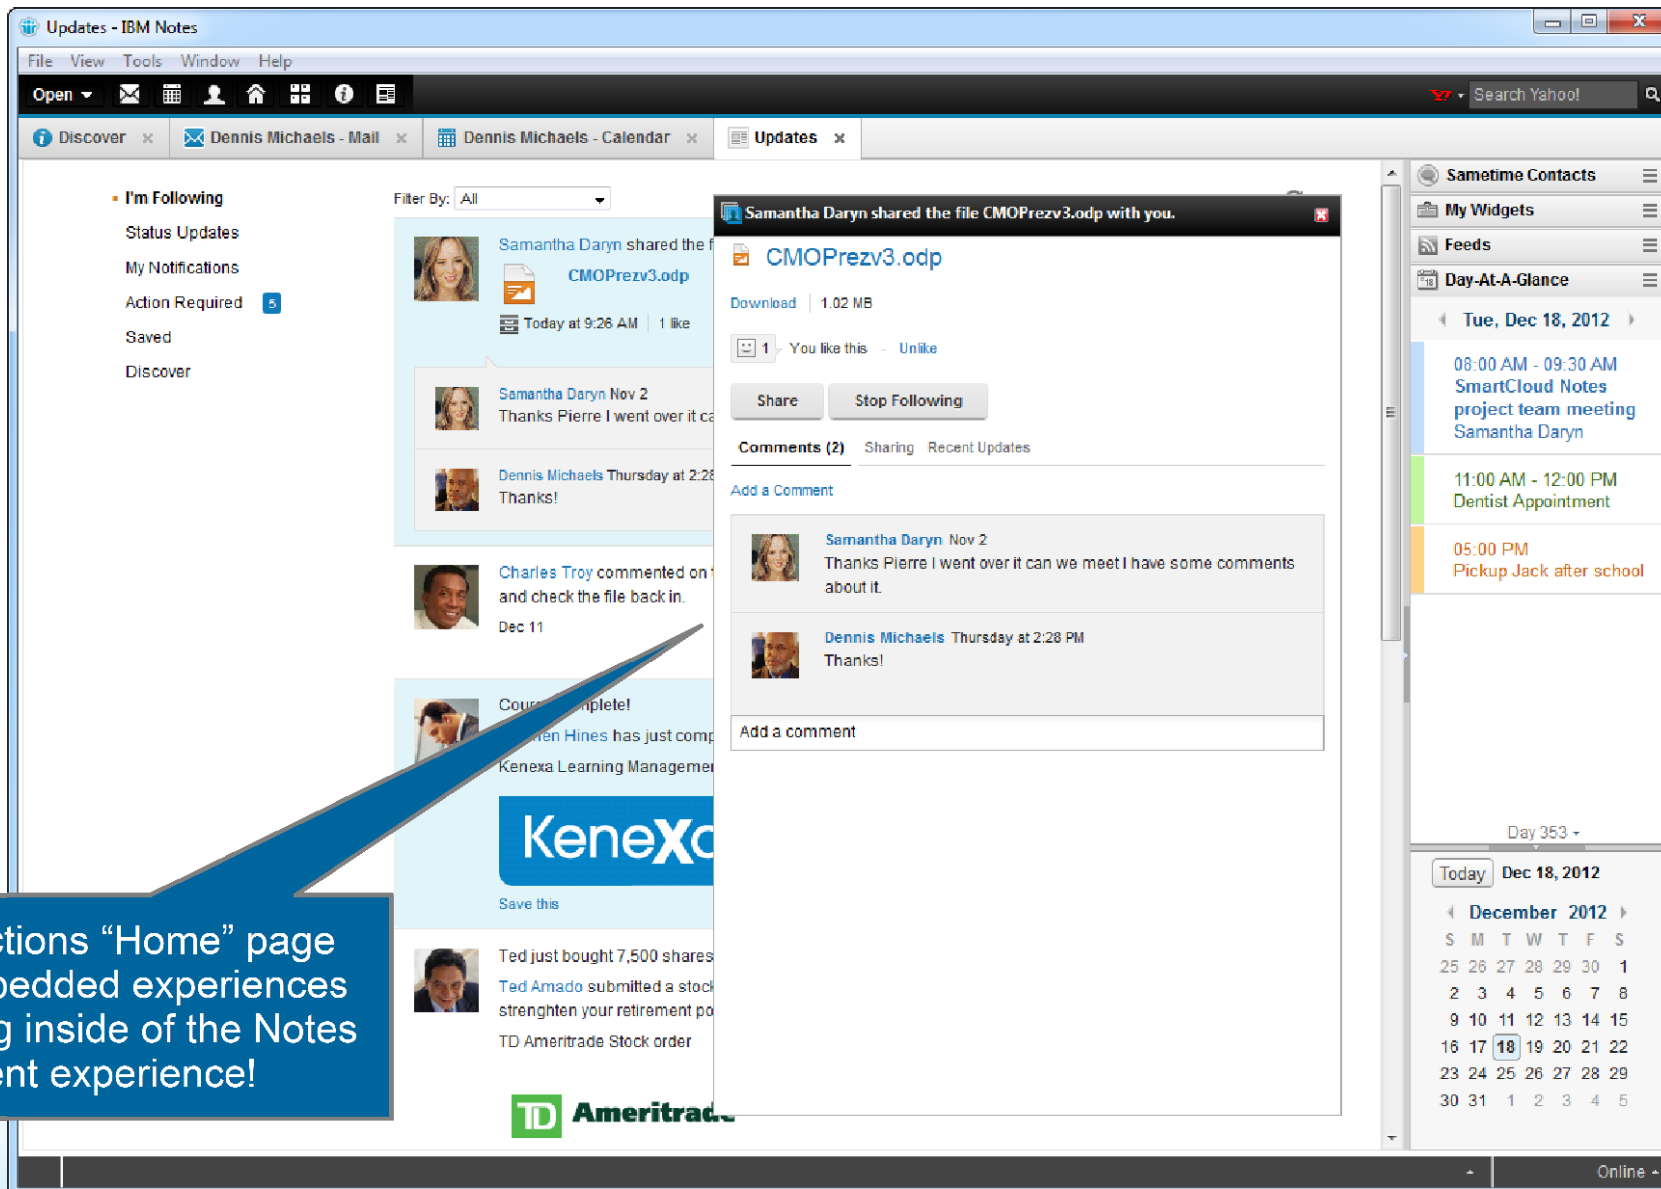

IBM Connections 4.0 and Connections Mail

“Updates” page

For rendering Activity Stream content

Connections “Home” page and embedded experiences rendering inside of the Notes client experience!

Embedded Experiences

Work without switching context...stay focused

The screenshot shows the IBM Notes Mail interface. On the left is a navigation pane with folders like 'Inbox', 'Drafts', and 'Embedded Experience'. The main area displays a list of messages under 'Month of November (total: 3)'. One message from Pierre Dumont is highlighted with a black box: '[Files] Pierre Dumont has shared 'CMOPrezv3.odp' with you'. Below this is a detailed view of the shared file, including a download button and file metadata. On the right, a 'Day-At-A-Glance' widget shows a calendar for Dec 19, 2012, with events like 'Quality assessment' and 'Executive Briefing'. A yellow callout bubble with the text 'NOT this...' points to the file sharing notification, indicating that this is not the intended 'embedded experience'.

Embedded Experiences

Work without switching context...stay focused

The screenshot shows the IBM Notes interface with an email open. The email content includes a message from Pierre Dumont sharing a file named 'CMOPrezv3.odp'. The interface features a left sidebar with folders, a top navigation bar, and a right sidebar with widgets like 'Sametime Contacts' and a calendar. A yellow callout bubble points to the embedded application with the text "...THIS!". A blue callout bubble points to the email list with the text "Download or preview the file directly from within mail". Another blue callout bubble points to the comment section with the text "See the latest and add additional comments".

budget approved!!!!

Dan,

Great news!

Our 2013 budget was approved in full!

Please proceed with purchasing the new phones and tablets we discussed. :)

Thanks,
Simone

■ BlackBerry 10 Exchange ActiveSync

- Supports standard ActiveSync direct connection to Traveler
- When BB10 is connected directly to Exchange ActiveSync (no BDS):
- Managed by Exchange ActiveSync Policies/IT Commands
- Exchange ActiveSync data sits in the Personal Perimeter
- To enable device encryption for local storage set require password and prohibit unencrypted devices on Traveler

Notes Traveler with BlackBerry Enterprise Service 10 (BES 10)

- BlackBerry 10 with BES 10
 - Behind-the-Firewall Connection for Anything, including Traveler
- Data Separation
 - All corporate data is secured in the Work Perimeter
- Secure Connection
 - Single, secure connection and management for any app and any data

What's New in IBM Domino 9 SE

SAML	<ul style="list-style-type: none">• Supports Federated Login for Notes, iNotes, and web clients• Identity Providers IBM Tivoli Federated Identity Manager (TFIM) + MS ADFS 2.0 with Active Directory
Transport Layer Security (TLS)	<ul style="list-style-type: none">• Web Server activity protected by TLS• IBM HTTP Server will act as “front end” for Domino HTTP server
Domino Migration Utility	<ul style="list-style-type: none">• Server component to handle server based mail migration• Client component to handle local mail migration (PST files)• Active Directory migration to automatically create users and groups in the Domino directory• Provides APIs to manage the migration• Supports Exchange/Outlook 2007 and Outlook Express• Supports Active Directory 2003 and 2008
DBMT = DataBase Management Tool	<ul style="list-style-type: none">• Domino 9.0 Social Edition introduces a new task called DBMT that streamlines DB maintenance• Automatically Bounded by time - Given a defined daily/weekly Maintenance Window, DBMT will achieve as much as it can, saving the remaining tasks for the next maintenance window

What's New in IBM Domino 9 SE

SHA-2 Support	<ul style="list-style-type: none">• As of 9.0 Social Edition SHA-2 is available to use for X.509 certificate signature verification and S/MIME signed mail, and some areas of Notes/Domino where a password such as the Internet (HTTP) password was previously "hashed."• No Configuration needed, just works out of the box
OAuth (Open Standard for Authorization)	<ul style="list-style-type: none">• Provides Basis for Embedded Experiences feature in Notes/iNotes Mail• Embedded Experiences: allow you to access business critical actions from other applications without leaving your email. This brings collaboration in-context and results in tighter integration across iNotes, Connections, Notes, app dev (XPages), and 3rd-party products and services
QoS – Quality of Service Probe	<ul style="list-style-type: none">• Detects if server is not responding or hung• Optionally email an administrator and/or automatically terminate the server and restart it.

■ Operating System Support for Domino 9.0 Social Edition

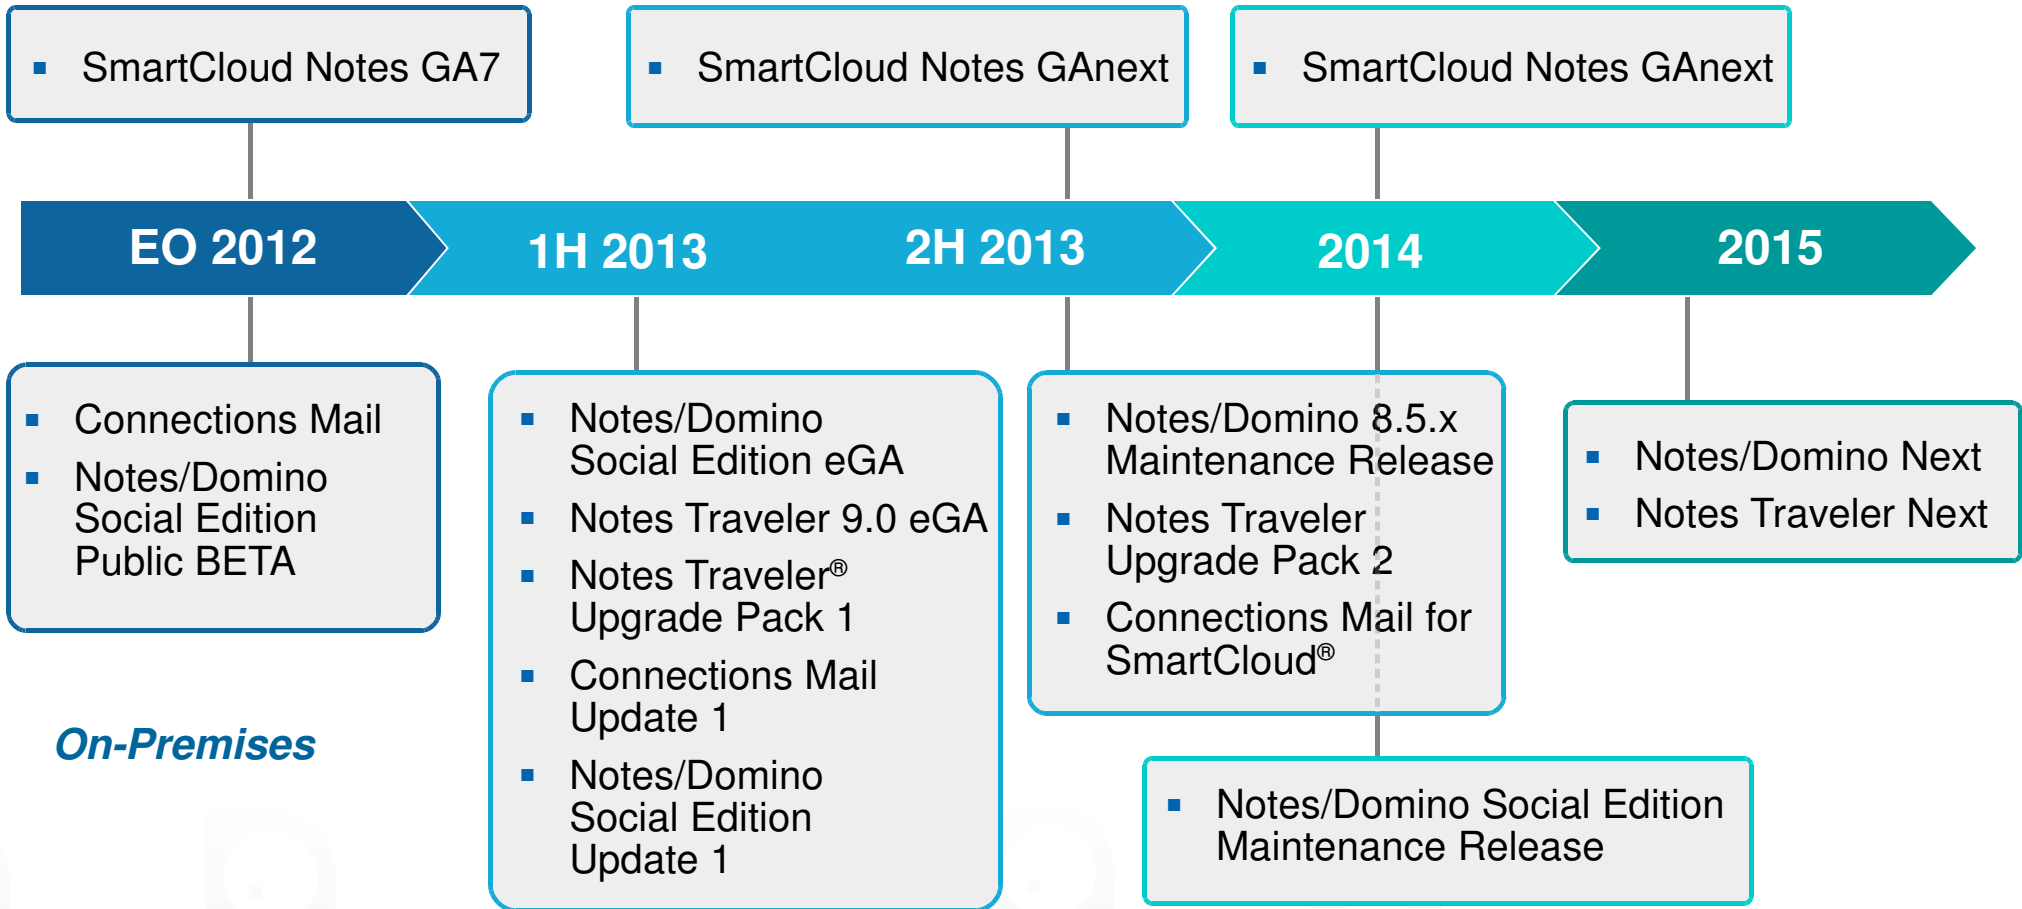

- Support Modern Strategic Operating System and Versions endorsed by IBM Software Group
- Bigger Emphasis on 64-bit by supporting only 64-bit Operating Systems
- Still Build and Ship 32-bit Domino primarily for API and Product Compatibility
- Future Major Domino releases planned 64-bit only

Platform	Domino Support	
	Domino 32 bit	Domino 64 bit
Windows 2008R2 - 64 bit	x	x
Windows 2012 – 64 bit		x
AIX 7.1 POWER System	x	x
SLES 11 SP1 – 64 bit	x	x
SLES 11 SP1 z64		x
RHEL Server 6x x86 – 64 bit	x	x
RHEL Server 6.x System z		x
