## Agenda

- The mobile imperative
- Industry innovations 'Made with Mobile'
- Enterprise Considerations for mobile innovation

---

# THE MOBILE IMPERATIVE

**40%**

**OF PEOPLE**

**USE SMART DEVICES**

to log onto the web before getting  
out of bed in the morning

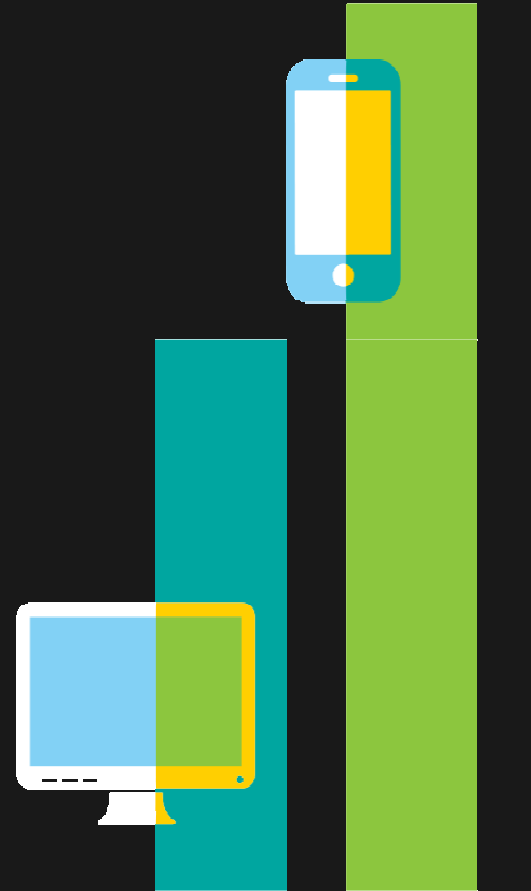

The average mobile phone  
user checks their phone

**150x**  
PER DAY

**76%**  
**OF EXECUTIVES**  
expect mobile to  
surpass desktop  
for key work activities  
within 3 years

Industry experts predict that

**BY**  
**2015**

**2/3 OF THE WORKFORCE**  
will own a smartphone

**40% OF THE WORKFORCE**  
will be mobile

# 85% of Adults

who have completed a mobile transaction

## IN THE PAST YEAR

expect the experience to be better on mobile than on a laptop or desktop computer

Global M2M connections  
will increase from 2 billion in 2011 to

**18 BILLION**

**AT THE END OF 2022**

# CONTINUOUS TRANSACTION OPPORTUNITIES

are defining  
the new mobile era

# \$4.4 BILLION

Projected revenue  
from new products  
and services  
resulting from  
location-based  
mobile data

# The Next Generation of Enterprise Mobility

The convergence of a number of fast growing technologies, including mobile, present transformational opportunities for enterprises

**More Innovation:**

*Develop new mobile enabled business models*

**More Experience:**

*Create more systems of engagement*

**More Productivity:**

*Increase employee responsiveness and decision-making speed*

**More Responsive:**

*Improve access and service levels*

**More Revenue:**

*Increase revenue through sales engagements*

**More Functionality:**

*Extend existing applications to mobile workers and customers*

**More Cost Savings:**

*Reduce operating costs (e.g., mobile check deposit) as well as personnel costs (e.g., utilizing personal-owned instead of corporate-issued devices)*

# The Next Generation of Enterprise Mobility

The convergence of a number of fast growing technologies, including mobile, present transformational opportunities for enterprises

**More Innovation:**

*Develop new mobile enabled business models*

**More Experience:**

*Create more systems of engagement*

## Industry innovations driven by mobile

- Energy and Mining
- Retail
- Banking
- Healthcare
- Government

# Mobile solutions support the natural resources business model

## Transform the Value Chain

NATIONAL GRID, International electricity and gas improved quality by driving efficiency

- Achieved **20% improvement in productivity** and hit all key **safety** requirements
- Increased points of data capture and **improve data accuracy and quality** for better work management
- Increased **travel time accuracy** from 60% to 99% on every job

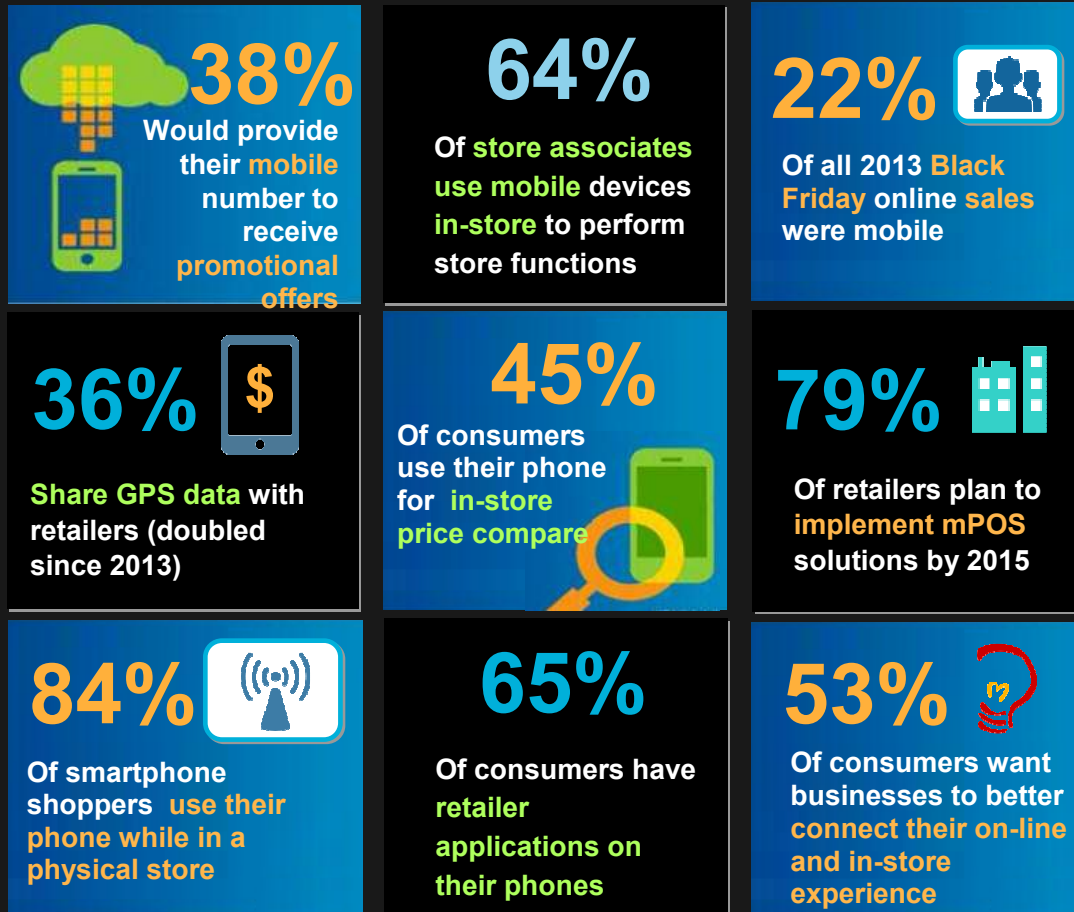

**75%**

**OF MOBILE  
SHOPPERS**

take action  
after receiving  
a location-based  
message

# Mobile retail services are now a must-have service

Source: Mobile Industry Statistics, 2013 , Mobile Commerce and Engagement Stats

## Mobile Retail Innovation

Innovation in mobile retail continues to evolve customer engagement, processes, and new products and services

Broad categories of next-generation mobile use case enablement are emerging in retail

### Customer Engagement and Experience

- Personalized, contextual enhanced experience for customer
- Cross-sales of related products, services or partners
- Loyalty wallet, group shopping and buying

### Workforce Empowerment

- Associate productivity mobile tools, mobile optimized supply chains
- Social showrooming and listening
- Advisor rating & real-time feedback for training improvements

### Process Innovation

- Mobile business processes and inventory handling
- In-store navigation, mobile checkout process changes
- Mobile friendly purchase / return / follow-up interactions

### Analytics

- Digital customer profile data matched with physical profile data for a focused customer picture
- Real time, comprehensive operational data

## Deliver Contextually Relevant Experience

Large retailer delivers personalized and contextually relevant real-time shopping experiences based on known shopping patterns

I want **a retailer**

That helps me **find what I want**

And gives me **customized offers**

Before, not after, **I need them**

In order to maximize **my shopping experience**

The number of mobile payment users worldwide reached

**245.2 MILLION**

in 2013, up from  
200.8 MILLION in 2012

## Mobile retail banking services are a must-have service

Mobile banking is the most important deciding factor when switching banks (32%)

More important than fees (24%) or branch location (21%) or services (21%)... a survey of mobile banking customers in the U.S. <sup>1</sup>

### #1 Channel

Mobile banking channel development is the #1 technology priority of N.A. retail banks (2013)

of customers are willing to provide their banks with more personal information in exchange for context aware products

**29%**

Cash-based retail payments in the U.S. have fallen from 36% in 2002 to 29% in 2012

**90%**

Of mobile banking app users use the app to check account balances or recent transactions

**\$1tn**

The mobile payments market will eventually eclipse \$1 trillion by 2017

# Retail banks are facing new competitive threats

## Mobile Money Ecosystem

Agile 'non-banks' are entering the mobile money ecosystem with leaner customer-centric offerings

### Mobile First Banking

*Streamlined products and services*

### Mobile Payment

*Making or receiving payments via mobile devices*

### Mobile Commerce

*Sourcing, marketing, buying, selling and transactions via mobile devices.*

### Personal Financial Management (PFM)

*Budgeting, Saving goals, spending analysis tools*

- The traditional relationship between the bank and the customer is being threatened across various fronts. As a result banks are losing the opportunity to cross-sell or up-sell products and services
- There is the risk of supplanting banks by building relationships with customers in one area, like payments, and expanding into the traditional retail banking space (e.g., savings and deposits)

# Mobile Banking Innovation

**Innovation in mobile retail banking continues to evolve customer engagement, processes, and new products and services**

## Mobile Marketing & Analytics (Visa Offers)

The program enables retailers and financial institutions of all sizes to deliver customized and differentiated offers to Visa cardholders at the point-of-sale. Visa analyzes cardholders' purchases and offer customized deals and discounts that match cardholders' spending habits

## Social Banking (ING Direct)

Integrates mobile banking with Facebook for added convenience. Users can receive account notifications within Facebook for a more unified experience

## Mobile Payments (P2B – NFC)

La Caixa enables contactless payment through TAP Visa stickers attached to the back of a mobile phone and carry an EMV chip with encrypted card data  
Customers complete transactions or withdrawal through frictionless interactions with in-store terminal

## Mobile Wallet (Serve)

Amex's mobile wallet offering provides the benefits of a debit card to which you can transfer funds from any bank or through P2P. Customers can send money via email, Facebook, mobile app or SMS, create sub-accounts for families

# mHealth initiatives are driving better outcomes across all stakeholders

*To change behavior, mobile health applications ...need to address disconnects between long-term intentions and moment-to-moment choices. The most effective tools will creatively instantiate well-evidenced behavior-change principles with **data mining, social networking, location awareness** and other capabilities of mobile technologies.”*  
**Margaret Morris PhD,**  
**Sr Researcher, Intel**

## Environment

<p><b>1.5m</b></p> <p>Errors per year in the way medication is prescribed or taken</p>	<p><b>30m</b> </p> <p>Wearable health devices shipped in 2012 (+37% over 2011)</p>	<p><b>20%</b> </p> <p>of patients consume <b>80%</b> of costs</p>
--	---	--

## Opportunities

<p><b>45%</b> </p> <p>Reduced mortality rate due to remote monitoring</p>	<p><b>47%</b></p> <p>Reduction in overnight hospital stays due to proactive coordinated care </p>	<p><b>8%</b> </p> <p>Reduction in total cost per patient attributed to mhealth initiatives</p>
--	--	--

# Several mHealth initiatives and technologies dominate the discussion

While wearables are gaining significant attention, there are a number of other technologies and engagement models that are gaining traction.

## Remote Monitoring (wearables)

- **AIQ Clothing** – wearable electrodes paired with Bluetooth connectivity for continuous remote monitoring of health conditions
- **Preventice** – body sensor that allows physicians to monitor a patient's physiological data
- **Fitbit Force** – wireless activity and sleep wristband

## Mobile Medication Management / Adherence

- **ARemind** – service platform that sends patient scheduled medication reminders as dynamic, personalized SMS
- **MyMedSchedule** – secure medication schedule and reminder application
- **RxmindMe** – reminder application for medication, vitamins, and supplements

## Remote Diagnosis (Telemedicine)

- **MobileCT Viewer** – medical imaging application enabling anytime, anywhere viewing of patient cases, optimizing the medical imaging workflow
- **TeleSteth** – Platform to allow healthcare professionals to share heart, lung, and airway sounds with colleagues using the internet or a private network
- **Airstrip** – Collection of mobile services allowing physicians to monitor patient status information away from medical centers in real time

## Social Health

- **Alliance Health Networks** – condition-specific social networks serving over 1 million members across more than 50 health conditions
- **Ozmosis** – care collaboration platform that enables hospital systems and life science firms to drive greater collaboration within care teams
- **MyHealthTeams** – mobile-optimized condition-specific community portals to connect individuals with local businesses and support networks.

# Mobile adoption is changing the business of government

## Reality

81%

Of US Federal workers say mobile devices increase productivity

In 2014

More people will access the internet with their mobile than a desktop

## Reaction

35%

Of new government applications will be mobile

1/3

Of citizens accessing government websites are logging in from phones or tablets

# The economic value of mGovernment

Total Transactions – 2%  
Total Cost – 9%

**Physical**

Total Transactions – 24%  
Total Cost – 84%

**Call Center**

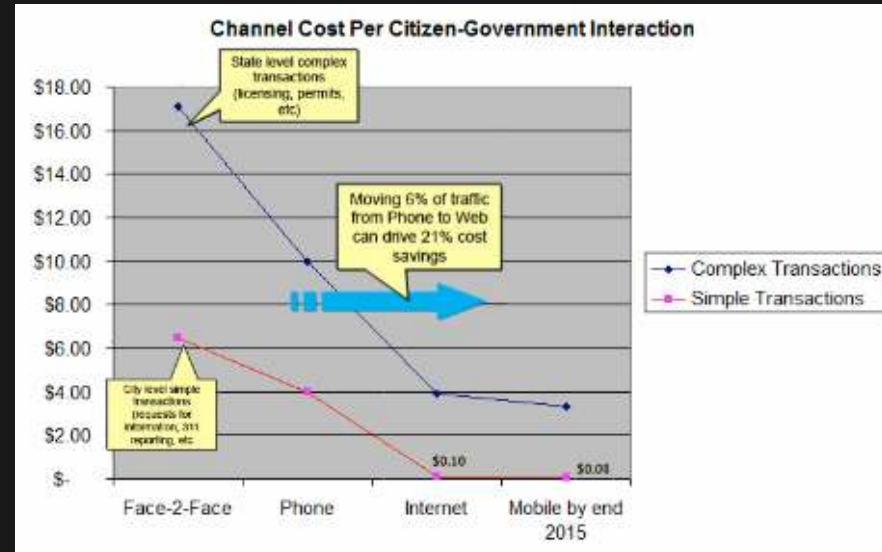

Total Transactions – 74%  
Total Cost – 6%

**Web**

Total Transactions – ?  
Total Cost – ?

**Mobile**

## Leverage Industry Transformations

Region of Eindhoven captures data from cars and road sensors to notify commuters via smart phone app

**I want to tag things** through auto ID technologies like RFID

**Sense things** through sensors and actuators

**Shrink things** through developments in miniaturization and nanotechnology

**Create Thinking Things** by imbedding processing power

and **Power things** through advances in energy efficiency, storage and generation

**IBM®**

# **BusinessConnect and SolutionsConnect**

It's time to make bold moves.

# TOP 5

## CONNECTED APPS PROJECTED BY 2020

- Car
- Clinical monitoring
- Security
- Assisted living
- Pay as you drive insurance

## Enterprise considerations for mobile innovation

- **BYOD**
- **Security**
- **User Adoption**
- **Big Data**
- **Business Value**

**81%**

**OF EMPLOYED  
ADULTS**

use at least one  
personally owned  
electronic device  
for business

**IBV Study found that**  
**SECURITY**

**WAS THE #2 CONCERN**

**related to implementing  
mobile within the enterprise**

Industry experts predict that  
BY

2018

70%

of the workforce will use a  
tablet or tablet hybrid

80%

OF MOBILE APPS

are used once,  
then deleted

**90%**  
**OF USERS USE  
MULTIPLE SCREENS**  
as channels come  
together to create  
integrated  
experiences

# 5

## PETABYTES OF DATA

Are generated every day by mobile phone subscribers around the world

# Furthermore, Mobile strategy leaders are much more likely to deliver superior financial results

## Breakdown by Revenue Growth - Outperformers

How does the revenue growth of your organization compare to your industry peers over the last 3 years?

## Breakdown by Profitability - Outperformers

How does the profitability of your organization compare to your industry peers over the last 3 years?

## Breakdown by Net Profit Margin - Outperformers

On average, what was your organization's annual net profit margin over the past 12 months? (percent indicating companies with a profit margin 8% or greater)
