A New Era of Smart

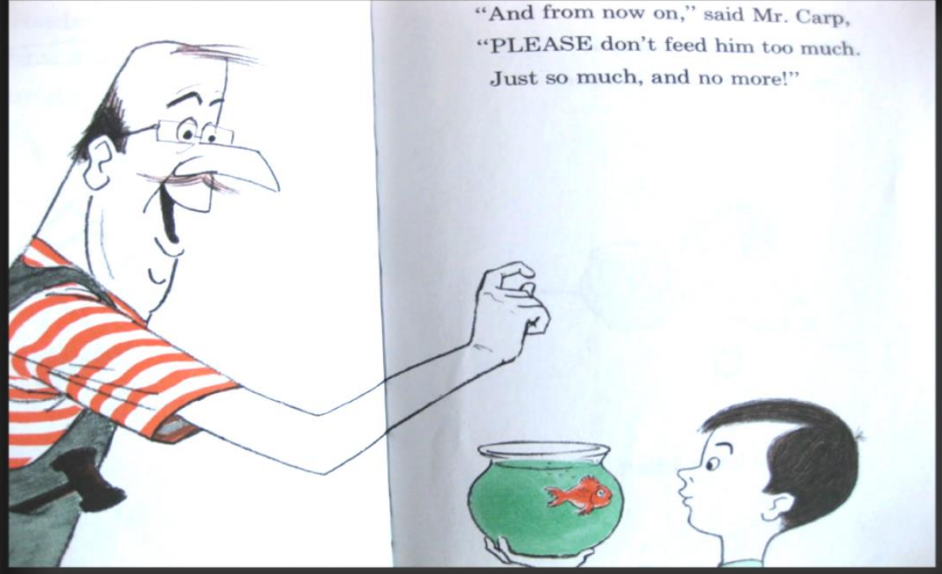

Increase value from  
your heterogeneous  
virtual environments

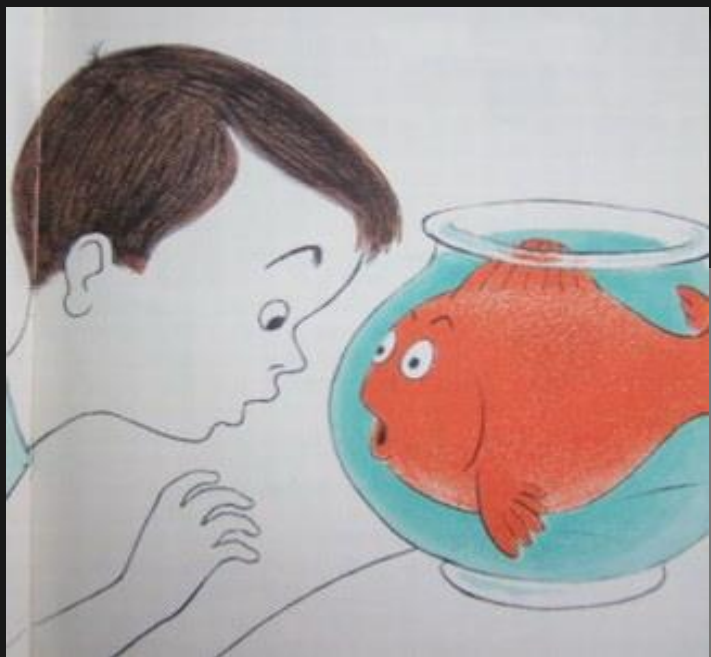

“This little fish,”  
I said to Mr. Carp,  
“I want him.  
I like him.  
And he likes me.  
I will call him Otto.”

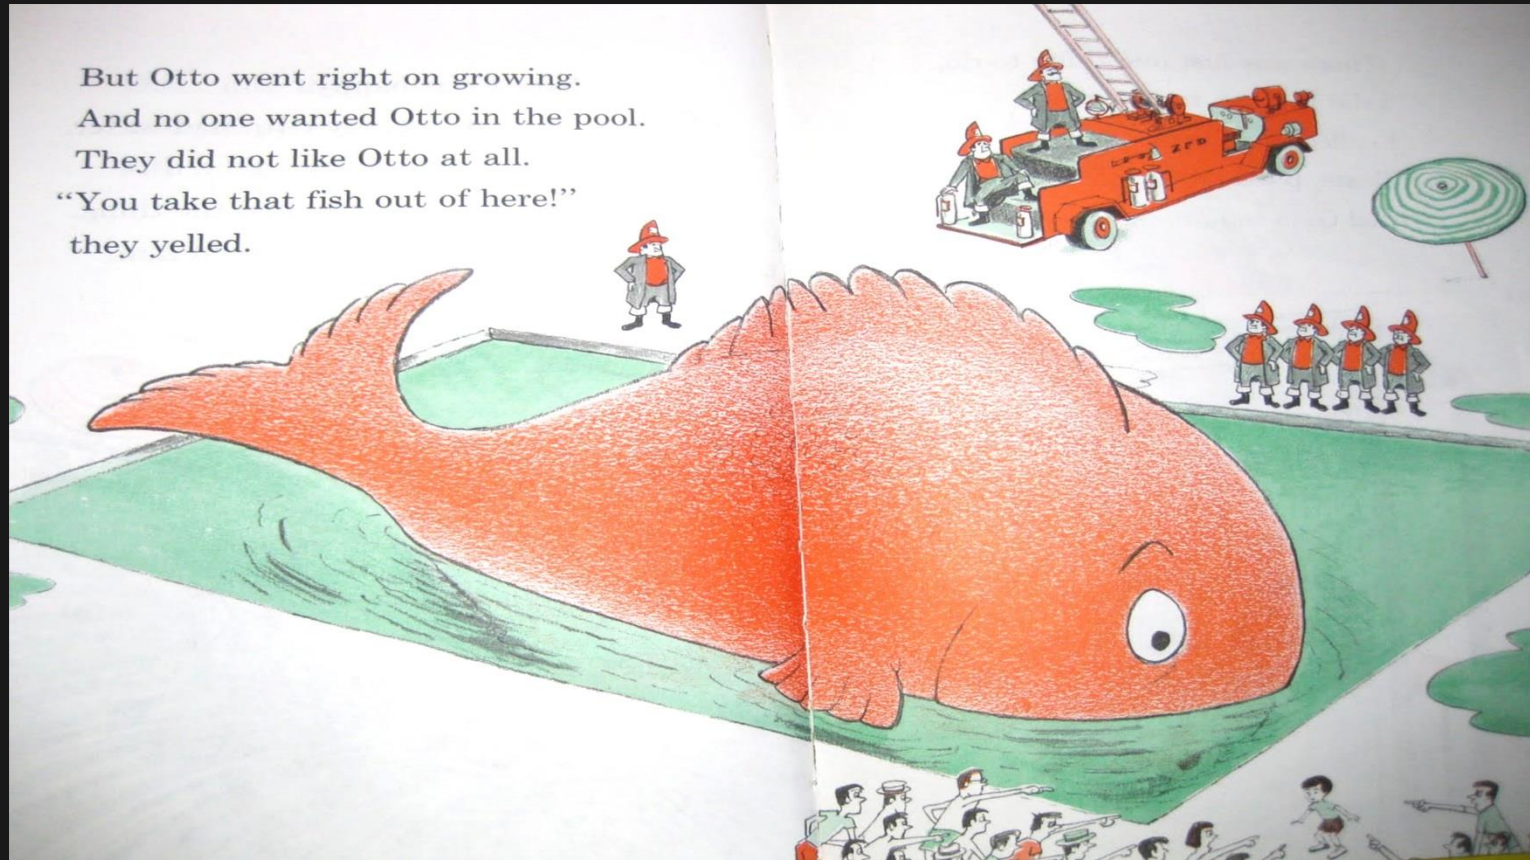

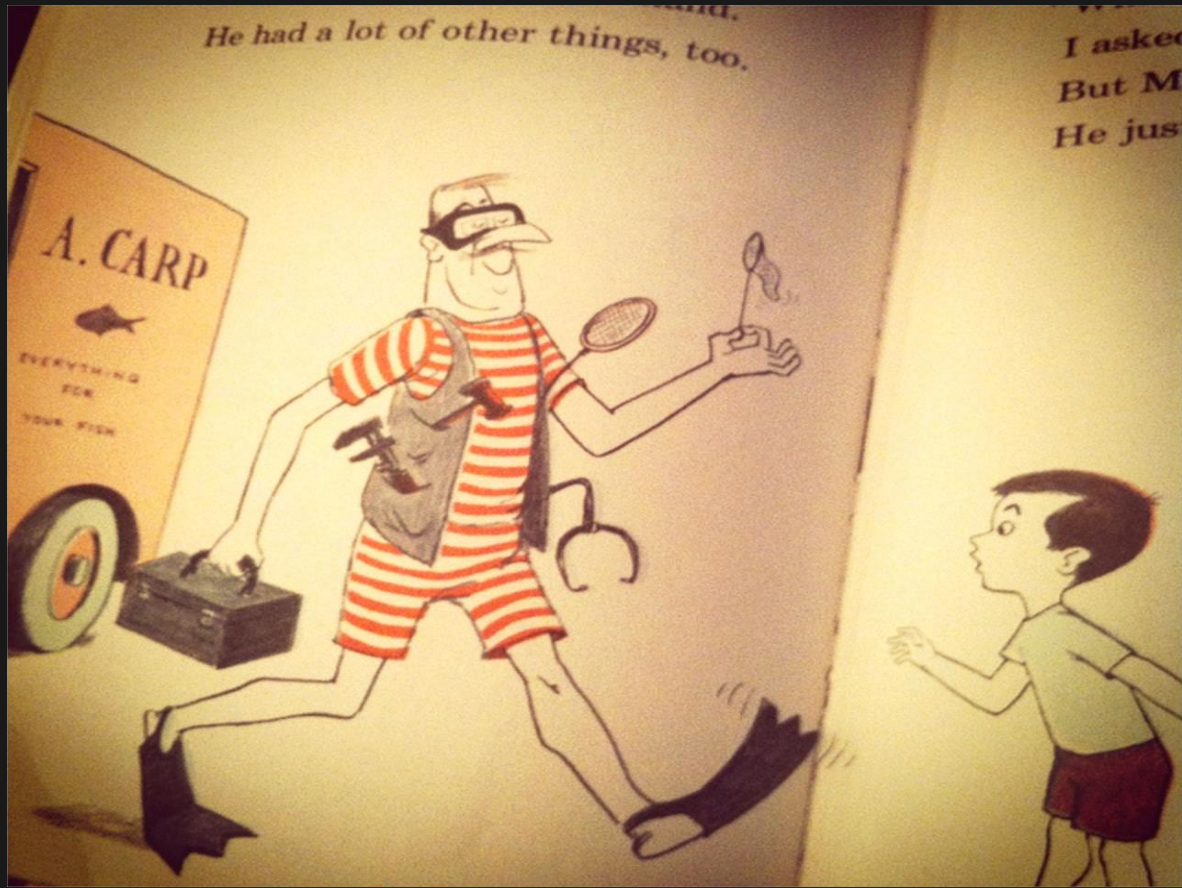

“And from now on,” said Mr. Carp,  
“PLEASE don’t feed him too much.  
Just so much, and no more!”

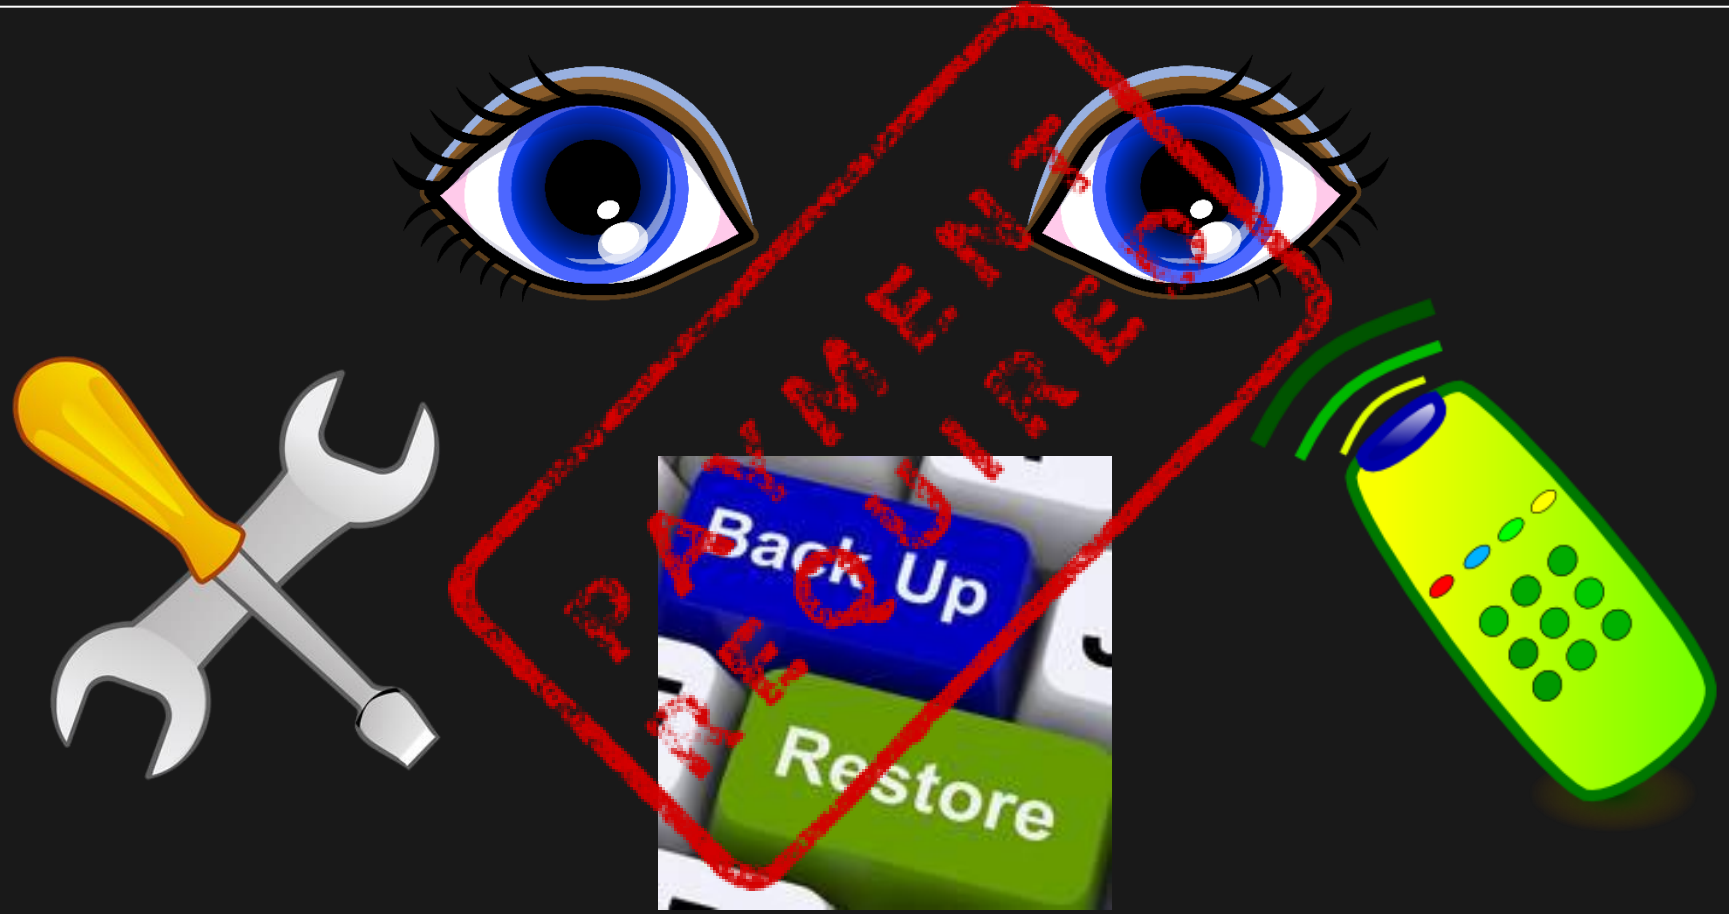

But Otto went right on growing.  
And no one wanted Otto in the pool.  
They did not like Otto at all.  
“You take that fish out of here!”  
they yelled.

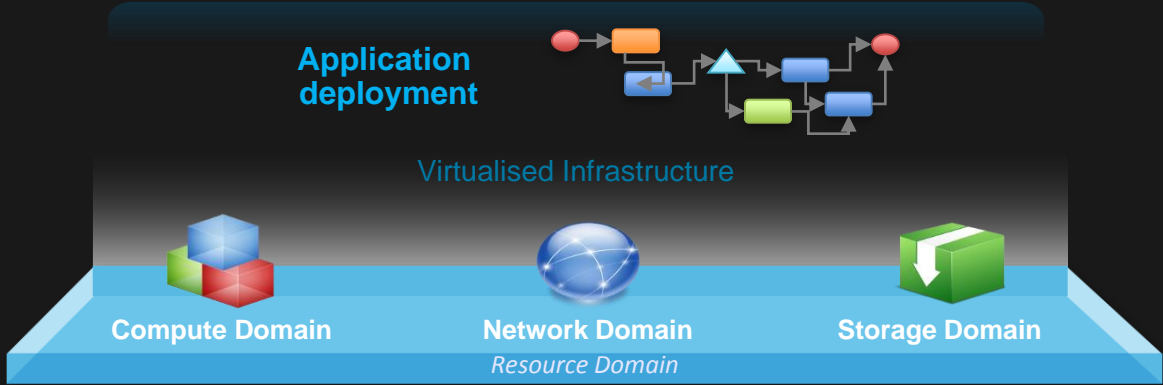

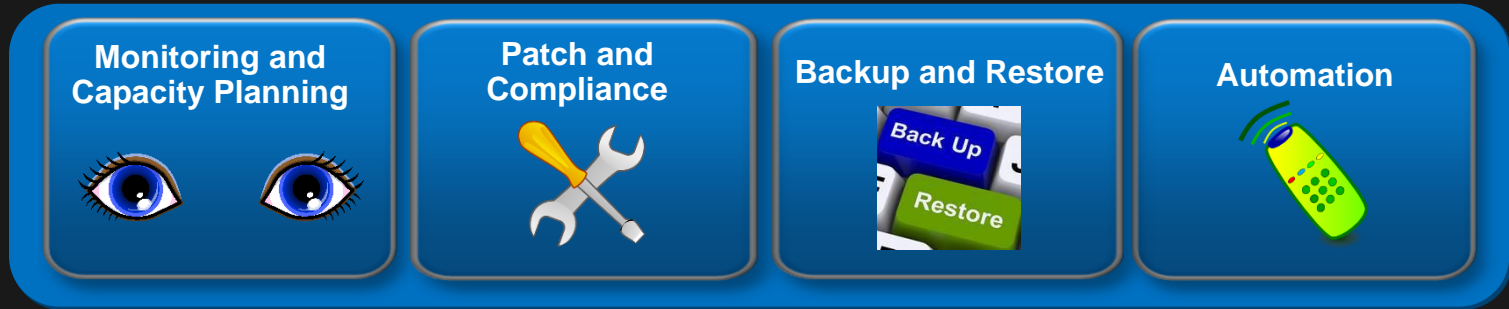

...and.  
He had a lot of other things, too.

I asked  
But M  
He jus

# Entry points for optimised virtualisation

## Monitoring and Capacity Planning

**Single monitor view of hypervisor hardware and software**

Discover and analyze images for security breaches to **patch endpoints for over 98.5% compliance**

Patch and Compliance

## Backup and Restore

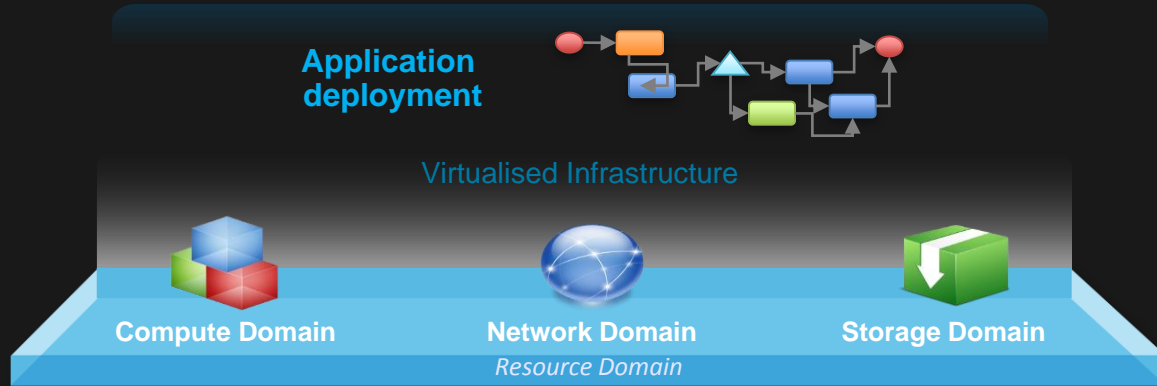

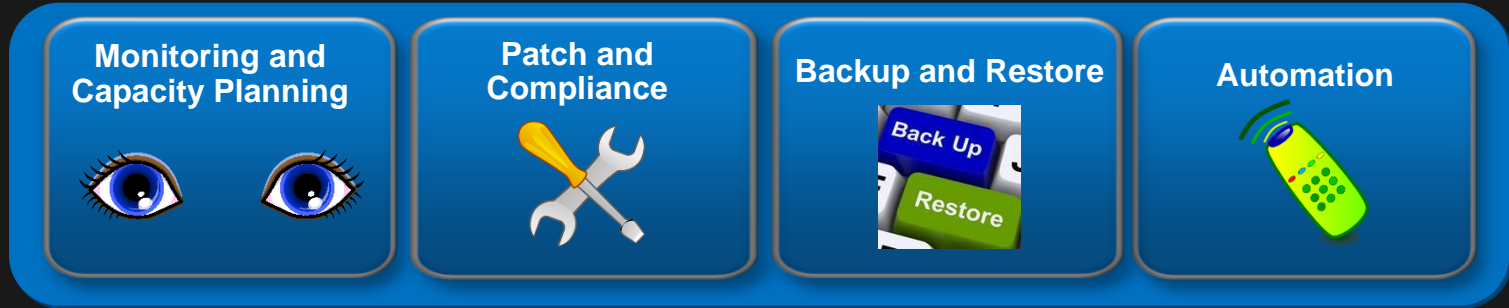

**Reduce storage footprint by 90%** and improve time to value by backing up thousands of VMs in minutes

Up to **80% labor cost reduction** by increasing  
image/admin ratio efficiency

Automation
