

## IBM ECM Regional UserNet Chapters

UserNet chapters meet the needs of IBM ECM customers in specific geographic regions. Involvement in chapters encourages members to establish business relationships among fellow IBM customers on a regional basis and offer several benefits.

- Meetings and programs provide an environment to openly exchange technology ideas and solutions and the opportunity to learn about IBM ECM products and services.
- Customers gain exposure to partners and Independent Software Vendors on a regional basis.
- Chapters facilitate the communication of topics from a local level to the Americas or EMEA UserNet Board.
