 - The course workbook contains the complete set of material for the DB2 9.7 Academic Workshop. It includes all presentations and instructions for execution of the hands-on laboratories.
 - File 1: ce302_course_book.pdf
- DB2 9.7 Academic Workshop Course VMware[®] Image (3 Files) This is the Virtual Machine (VM) that you will use to execute the hands-on labs.
 - File 1: vmimage_part01.exe

- File 2: vmimage_part02.rar
- File 3: vmimage_part03.rar

• DB2 9.7 Academic Workshop Discovery Kit DVD (5 Files)

Includes the VMware image and Course Workbook mentioned above
 This is a DVD ISO image containing a selection of great material on DB2 for Linux,
 UNIX and Windows plus the Course Workbook and the VM image of the DB2 9.7
 Academic Workshop.

- File 1: dvd_part01.exe
- File 2: dvd_part02.rar
- File 3: dvd_part03.rar
- File 4: dvd_part04.rar
- File 5: dvd_part05.rar

1.1 DB2 9.7 Academic Workshop Course VMware Image

The VMware image for the course is divided intro three self-extractable RAR files. You must download all three parts before you can decompress the files. Download the files into the same folder.

Academic Workshop Image files and the self-extractable window

Double click on the "vmimage_part01.exe" file and wait for the WinRAR self-extracting archive window. Click on "Install" to begin decompressing the VMware image. All the volumes must be decompressed to the same folder. Decompressing the image can take several minutes depending on your system. You will require "VMware Player" or "VMware Workstation" to open and execute the VM image. For details on how to obtain VMware software, please refer to section 2.

Start VMware Player (steps for VMware Workstation are similar), then click on "Open a Virtual Machine".

VMware Player

Start VMware Player (steps for VMware Workstation are similar), then click on "Open a Virtual Machine". Browse to the folder where you decompressed the VM image and select the "DB2 Express-C 9.7 32-bit.vmx" file. Click "Open".

Opening the DB2 Academic VM

Click on "Play Virtual Machine" to start the VM. Then follow the lab instructions in the Course Workbook to execute the labs.

Starting the DB2 Academic VM

1.2 DB2 9.7 Academic Workshop Discovery Kit DVD

The "DB2 9.7 Academic Workshop Discovery Kit DVD" is divided in 5 files. Before you can decompress you need to download all 5 files to the same folder. In a similar way as for the VMware image files, you need to double click on the "dvd_part01.exe" file and wait for the WinRAR self-extracting archive window. Click on "Install" to begin decompressing the DVD image. All the volumes must be decompressed to the same folder.

This will decompress the ISO file that you can use to burn the DVD using your favourite DVD burning software. Besides the course material, the DVD contains additional collateral about DB2 for Linux, UNIX and Windows and IBM programs for the academic community.

2. How to obtain VMware Software?

To execute the labs, you will require "VMware Player" or "VMware Workstation". To obtain the software, open a web browser and visit <u>www.vmware.com</u>.

Click on the "Support & Downloads" link. Look for the Downloads link on the upper side of the page. Then look for VMware Player under Desktop Products.
