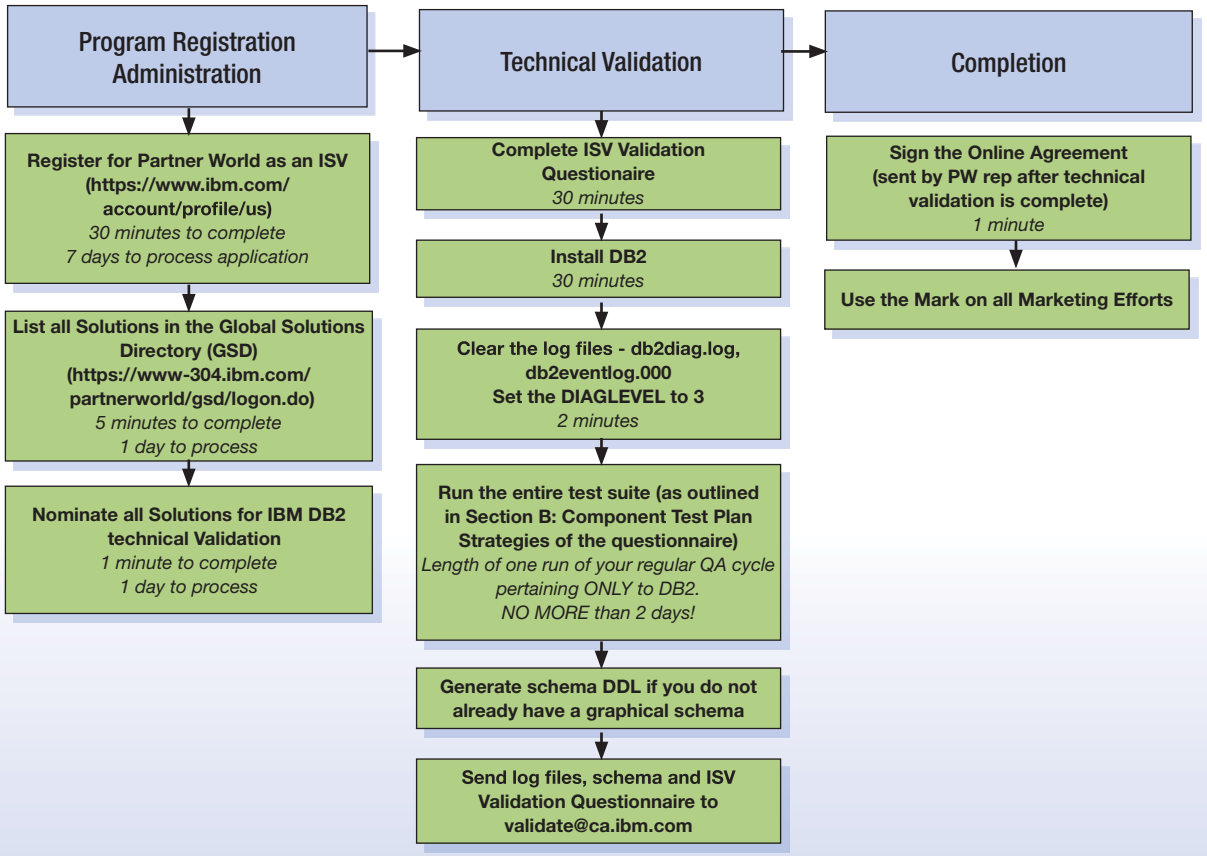
Ready for IBM DB2 database software Validation

The Ready for IBM DB2® database software mark demonstrates your commitment to quality in the IT industry and can generate greater interest in your business solutions. Achieving this software validation assures your customers that your solution meets key IBM integration standards for DB2 for Linux®, UNIX® and Windows®.

Complete Validation Process for DB2

Including Approximate Time Requirements



Time Requirements

The process should take less than 3 days after the company is registered for PartnerWorld as an ISV. View the chart "Complete Validation Process for DB2" for more information.

How to Participate

View the chart "Complete Validation Process for DB2" for an overview of how to validate.

For a step by step guide to validation please follow the document "Complete_Ready_for_DB2_LUW.pdf".

Documents available in DB2 partner pack or at **www.ibm.com/db2/portal**.

If you are interested in participating, please contact us at validate@ca.ibm.com!
