E49 Implementing DFSCCMD0 to Enhance IMS Command Security - A User's Perspective
Robert Hain

Have you ever wanted to make the IMS Command Security more granular? Are the wrong people issuing commands, when they shouldn't be? Do you have some unique security requirements not handled by IMS? Come to this session and learn about ways of combating this, above and beyond what IMS normally provides. Join in the discussion to find out how other sites have overcome some of these challenges.
