Business Challenge

Providing healthcare can be complicated: increasing federal regulations, rapid changes in technology and constant pressure to better serve consumers all pose challenges for healthcare organizations as they seek to provide superior care and run profitable businesses. That's why HealthPort focuses on simplifying healthcare by providing easy to use solutions that improve patient care and financial results.

Solution Description

- *HealthPort Practice Management (HPM)*: HPM is designed to reduce paper, streamline business processes, and handle more functions from fewer screens. HPM's intuitive browser-style practice management is easy to use and offers all the front and back office functions a practice needs to run smoothly.
- *HealthPort Electronic Medical Record (HEMR)*: HEMR provides immediate access to patient information from anywhere at anytime, automating manual processes and providing easy access to crucial data like patient information, decision support and reference data. From a full point of care EMR to an entry level system, there's a solution for the way physician practices operate.
- *HealthPort Revenue Cycle Management*: HealthPort RCM is a robust revenue cycle management system designed to help save time, cut costs and uncover lost reimbursements. HealthPort simplifies the major components of an organization's revenue cycle: registration, billing and payment posting.

Value Proposition

HealthPort has extensive experience developing comprehensive information management software and services for the healthcare industry. Our software and solutions, personalized customer service and flexible specialty applications deliver robust information solutions that physician practices and hospitals can use to improve their financial clinical and managed care operations. Our software solutions, HealthPort PM, HealthPort EMR, HealthPort RCM and HealthPort EDMS (Electronic Document Management Solutions) give healthcare providers a single source approach to managing and distributing information throughout their organizations.

Company Description

Based in Columbia, S.C., HealthPort improves business operations and patient care through practice management, electronic medical record, revenue cycle management, ROI, healthcare consulting services, and document management solutions. Formed by the merger of Companion Technologies and SDS, HealthPort connects the paper reality of today with the electronic efficiencies of tomorrow.
