Integrated Business Systems (IBS)

Solution Description

Integrated Business Systems (IBS) is a corporate solution aimed at SME's, supporting mixed mode manufacturing and optionally "Make to Contract" and "Make to Order." IBS is a "Make to Contract" manufacturing control system and is one of the few to be accredited as a 'Class A' ERP solution by the Oliver Wight organization.

The IBS solution is designed for situations where traditional sales order processing is only part of the answer, and estimates, quotation and bid management are increasingly needed. With over 150 installations, IBS is a proven asset for manufacturing companies requiring a powerful ERP system at an affordable price and implementation timeframes that make sense.

Features & Benefits

- Full contract control throughout the system
- Complete integration of all aspects of contract manufacturing
- Complete costing and finance capabilities
- Fully integrated workflow and business process mapping
- Easy ERP user interface offering 'MS Explorer style' windows and browser access
- Point and Pick inquiry generator
- Seamless graphical business intelligence
- Internet enabled supporting true e-Manufacturing

Value Proposition

By merging sales and engineering into one unified software package, the IBS solution enables businesses to quote projects faster, more accurately and with fewer challenges than previously experienced. Innovative features such as Simultaneous Engineering help to shorten design times and save costs. In addition, Integrated Business Suite is a valuable tool for corporations who have extensive in-field technical staff, enabling them to track costs, assets and resource availability.

Company Description

Maxima Information Group is a Business Solutions and IT managed services company, operating internationally from bases in the UK, Ireland, USA and India. From ERP implementations and support, through to 24x7 management of IT and network infrastructure, Maxima's clients depend on their business-critical support. They trust Maxima to deliver high quality solutions and services that provide them with the stability, flexibility and agility they need for continued business success. Strong and prolonged relationships are fostered by Maxima's understanding and response to their customer's business needs. Solutions and services are tailored to meet every client's specific requirements - there is no 'one size fits all'.
