A Business Partner Solution for the Distribution Sector

A Comprehensive Family of Adaptive Software Applications, Providing Best-of-Breed Functions to the Big Ticket Retail Industry

STORIS Management Systems
Vision R8

IBM

Business Challenge

- Improve efficiency
- Lower operating costs
- Enhance customer service
- Increase profitability

Solution Description

Vision R8 provides the most comprehensive family of adaptive business applications, providing best-of-breed functions built for complete integration, industry-specific technology, unlimited scalability, and easy, secure processing. Developed to meet the needs of an ever-changing retail industry, Vision R8 is an intuitive, robust, Windows-based system.

With STORIS Vision R8, retailers can decide how to manage their technology platforms. Retailers can choose to implement the Vision R8 product suite with either our powerful Server Business Solution, or as a subscription service with our evolutionary Software as a Service (SaaS) model, an affordable option for emerging and dynamically growing, small size businesses. STORIS SaaS is a streamlined, opendeployment vehicle for service-oriented architecture applications developed to enable software programs to be used over the Internet and in a Web environment. Vision R8 retailers are able to concentrate on their business knowing their internal operations are using the premier system for big ticket retailers, backed by the best professional services staff in the industry.

Value Proposition

Each aspect of Vision R8 drives productivity for your business. The inventory and auditing tools deliver the highest level of accuracy and efficiency. As a result, many retailers achieve significant growth while partnered with STORIS - without adding additional resources.

Company Description

STORIS is a leading supplier of business management systems to big ticket retailers World-wide. Based in Mt. Arlington, New Jersey, with a Research & Development office in Deerfield Beach, FL, STORIS has been the foundation for successful retail operations since 1989.
