

# A Business Partner Solution for Cross Industry

Secure Storage and Rapid Document Access

## Lawson

### M3 Document Archive Foundation

#### Solution Description

The M3 Document Archive Foundation enables M3 clients to store all business documents connected to Lawson M3 and make them immediately available via the Lawson User Interface. It is a complementing solution to the Lawson M3 System Foundation offering that leverages leading technologies from IBM for improved archiving, auditing and compliance processes.

As well, the M3 Document Archive Foundation is an ideal resource for securely storing and quickly accessing documents used in daily work processes. It supports simple Lawson-related document access from ODMA V2.0-compliant Windows desktop applications.

#### Features & Benefits

- Completely Integrated with M3 Workplace Document links
- Application connector to StreamServe
- Application connector to ReadSoft
- Built on a standardized platform leveraging IBM technologies
- Reduced time to search and find the correct document
- Connect pictures/presentations to relevant data in M3 Applications
- Authentication and security permissions included to ensure a fully secure system
- Virtually unlimited scalability

#### Value Proposition

Lawson's M3 Document Archive Foundation improves auditing and compliance processes and allows for seamless integration with M3's Workplace, User Interface and Output Solutions allowing for quick and accurate document searches. Because the solution is not limited in scalability, it allows for growth with company needs thereby maximizing capital investments.

#### Company Description

Lawson Software provides software and service solutions to 4,500 customers in equipment service management and rental, fashion, food & beverage, healthcare, manufacturing & distribution, public sector (United States), service industries, and strategic human capital management across 40 countries.
