

Compact Solutions, LLC

MetaDex

Solution Description

Compact's MetaDex is a metadata integration solution for IBM InfoSphere Metadata Workbench. MetaDex quickly and cost effectively extracts metadata from major ETL (extract, transform and load) or ELT applications and integrates it with other metadata in the InfoSphere Metadata Workbench. This solution enables customers to use InfoSphere Metadata Workbench to manage enterprise wide metadata in one single repository, regardless of what ETL or ELT tool they use. Customers with diverse ETL and ELT tools (such as Informatica, DataStage, Teradata Bteq, Oracle, and other SQL scripts and ETL tools) can perform end to end data lineage across databases, ETL/ELT applications, and BI tools, enabling better data governance.

Features & Benefits

- Enables customers to integrate metadata from all major databases, ETL/ELT tools and BI tools
- Enables end to end data lineage, from source data through ETL/ELT processing, to BI reports
- Provides a single, integrated metadata repository to enable better data governance
- Allows customers to quickly identify redundancies in ETL applications and optimize them
- Allows customers to easily and quickly perform gap, dependency, and impact analysis

Value Proposition

IBM customers require a holistic, integrated view of their data assets regardless of what ETL or BI technologies they use. Compact's MetaDex for InfoSphere Metadata Workbench is the only solution that gives your customers the power to integrate metadata not only from any major ETL tool (DataStage, Informatica and others) but also any SQL scripts (Teradata Bteq, Oracle, DB2 etc), with metadata from different databases and BI platforms. Thus your customers can perform end to end data lineage regardless of what ETL or BI tool they use and use InfoSphere Metadata Workbench to create a robust framework for data governance.

Company Description

Compact Solutions is an IBM Advanced Business Partner and consulting firm focused exclusively on enterprise class data management solutions for large and mid-size companies around the world. With offices in US, Europe, Australia, and India, we serve our clients worldwide with a blend of onsite and offshore resources. For more information please visit www.compactbi.com/metadex.
