Advanced Document Imaging at Insight 2014

Why choose the Advanced Document Imaging track:

Are you passionate about improving customer service, accelerating document and case processing times, and reducing the cost of servicing claims? Then, the Advanced Document Imaging Track in the ECM Program is for you. You will learn about how the Second Wave of Capture moves capture to the point of customer contact and how the latest releases of IBM's Imaging and Capture products are helping customers streamline their business processes. Learn about the latest solutions from IBM and Business Partners including mobile and distributed capture and about the best practices for reducing costs, accelerating business processes and improving customer experience that you can bring back to your organization.

Listen to these customer speakers:

Union Bank: Hear how Union Bank executed an advanced capture strategy using IBM Datacap with barcoded and unstructured new account documents.

Huntington Bank: Hear how you can eliminate courier fees and enable your workforce to manage processing tasks with their customers in real time.

Centene Corp: This major U.S. health insurance company will discuss their "Datacap Journey," as they rolled out a claims processing application and then expanded to other areas of the company, including mobile capture.
