Big Data, Integration and Governance at Insight 2014

Why choose the Big Data, Integration and Governance track:

If you care about putting good data to work for your organization, the Big Data, Integration and Governance track in the Information Management program is made for you. You will hear from the experts about the latest issues, learn about new technologies, and hear from your peers about the best practices that are making a difference for them.

Listen to these and dozens of other customer speakers:

Michele Musumeci, Chubb Group, on Improving Productivity and Reducing Costs with Metadata Management

Robert Ghavidel, USAA, on Building a Multitenant Big Data Infrastructure at USAA

Cillian ODriscoll, University College Cork, on a Real-Time Streaming Decision-Support Platform for Newborn Seizure Detection
