

New insights. Better outcomes.

IBM Content Navigator Experience Platform

Ian Story

Program Director, Enterprise Content Management

© 2015 IBM Corporation

Introducing IBM Content Navigator

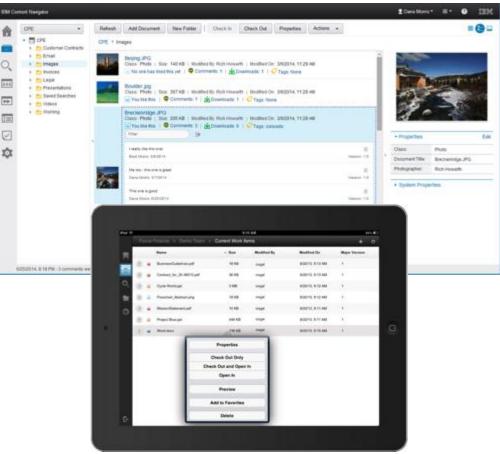

IBM's collaborative and mobile ECM experience platform

IBM Content Navigator UI:

- Modern HTML 5 client for ICF, P8, CM8, CMOD, IS
- CMIS support for 3rd party repositories
- External data integration (EDS)
- Enterprise search / facets
- Work with content across mobile devices
- Microsoft Office integration for IBM FileNet Content Manager and IBM Content Manager
- Secure file transfer to anyone

IBM Content Navigator Framework:

- Visual component toolkit
- Extend Navigator out of the box interface
- Quickly build & integrate custom apps / UIs
- Consistent design across IBM products

Benefits for Microsoft Office environments: Integrated experience platform within productivity tools

- Browse and search IBM Content Foundation, FileNet Content Manager and Content Manager 8
- Add, check out, check in
- Access shared searches and favorites
- Work within teamspaces
- External data integration
- Quick access to recently accessed content and currently checked out content
- Support for <u>desktop</u> versions of Word, Excel, PowerPoint and Outlook
 - Office 2010, 2013, 365
 - 32-bit and 64-bit

- Native iOS application, optimized for both phone and tablet form factors
- Native Android application, optimized for phone form factor
- Responsive design sample web plugin for any mobile browser
- Worklight sample project for cross platform mobile development
- · Limited use license of IBM Worklight included

- Browse, search, and share content from any device
- Bi-directional synchronization of files and folders offline access supported
- Add and edit content
- Access and create shared searches and favorites
- External data integration
- Case management and Datacap support
- Source code provided for all apps, customize, integrate with mobile device management, etc.

Benefits for IBM Enterprise Social Solutions & Microsoft SharePoint

HTML 5 and JavaScript framework

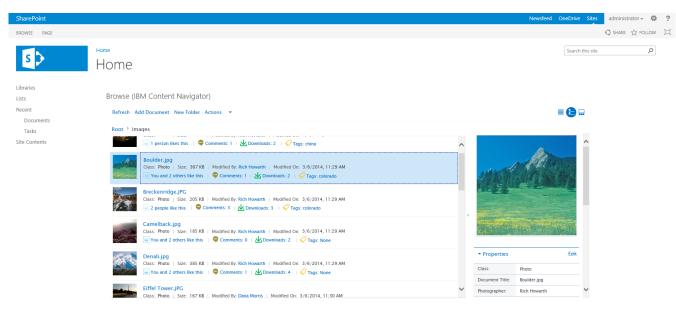

• Reusable components integrate into any web user interface

IBM Connections and WebSphere Portal leverage same JavaScript framework

Consistency and integration across IBM products

Out-of-the-box IBM Content Navigator web parts for Microsoft SharePoint

- Browse, search, workflow
- Copy content from IBM ECM to SharePoint document libraries
- Screenshot showing this integration below

Adopting IBM Content Navigator

Simple transition to Content Navigator:

- Navigator's simplified UI along with web based admin & config make it easy to deploy
- Existing search templates, step processors, structures, entry templates, workflows, etc. all work in Navigator, 5.2.1 includes plugin to use Process Designer, IER includes records entry templates
- Navigator can be deployed simultaneously with older UIs for dev / test
- Existing item types / attributes / classes / properties work in Navigator
- Existing viewers reused in Navigator (full compatibility, all annotations work)

Easy to build new applications:

- Plug-in architecture, simplifies development, deployment and maintenance
- HTML5, JavaScript and CSS3 no proprietary skills needed, cross platform
- Reusable components, mix & match in custom apps, portals, SharePoint, etc.
- Use CMIS to access 3rd party repositories, then move content without changing the UI

Internal & customer validation:

- Case Manager, Datacap, IBM Enterprise Records, ICC for SAP, etc. all adopting Navigator
- US-based global bank no-longer building side by side viewer (reusing Navigator instead)
- Tejon Ranch (reference customer) building entire new UI using Content Navigator with enChoice

Portfolio adoption of IBM Content Navigator

ECM

- Case Manager
- Enterprise Records
- Classification
- System Monitor
- IBM Content Manager 8
- IBM Content Manager OnDemand
- IBM FileNet Content Manager
- IBM FileNet Image Services
- IBM Navigator (cloud)
- Datacap
- Content Collector for SAP

Watson

- Watson Explorer Advanced
- Watson Curator

Other IBM Offerings

- InfoSphere Guardium Data Redaction
- Counter Fraud Management
- Patient Care and Insights

Partners that have adopted IBM Content Navigator

- ASE / Crawford for batch output
- **Datawatch** has integrated its report mining
- **ECMG** has created roundtrip editing between ICN & SharePoint
- Elinar and ImageTech have both built web parts using ICN
- MS Technology & Snowbound have integrated their viewers
- **enChoice** has built a full custom UI with ICN
- Seclore has integrated digital rights management with ICN
- **Genus** has built digital asset management with ICN
- Perficient (Tritek)
- Pyramid Solutions
- Neocol
- Imagine Solutions
- Levigo, Syscom...and many more!

Partner solution: enChoice KwikWork for Content Navigator

enChoice

www.enchoice.com

- Improves time-to-solution
- Enhances usability and efficiency
- Provides seamless access to documents, cases and tasks
- Enables developers to deliver modern UX design

Provides integration with line of business applications without development

Partner solution: Roundtrip editing with Content Navigator & SharePoint

Partner solution: SharePoint web parts built with Content Navigator

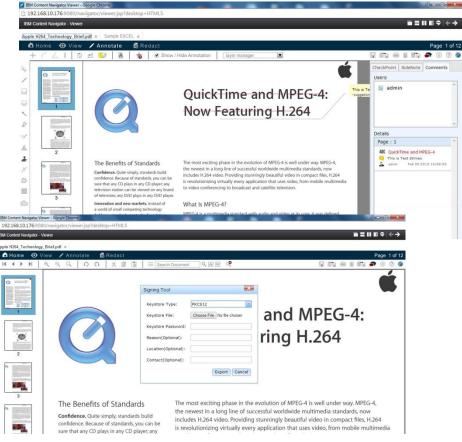

Partner solution: Additional viewer for Content Navigator

eViewer HTML5 Viewer for ICN

- 100% compatibility with all document and image types, and annotations from CM8, P8, CMOD, and others.
- Display, edit all annotations stored in CM 8 and P8.
- Page Manipulation
- Document Spilt and Merge
- Advanced Redaction
- Text and character search results from ICN are displayed in the viewer. Each occurrence is shown within each document that the search parameters appear therein.
- Digitally sign documents

www.ms-technology.com

Partner solution: Additional viewer for Content Navigator

Virtual Viewer

- Pure HTML5 document viewer
- Offers page manipulations (re-order, split and merge)
- Text searching highlights results and filters pages with results
- View, annotate and redact any format supported (PDF, AFP, Word, Excel, TIFF and more)
- Picture controls enable you to adjust color saturation
- Configurable UI & international language support
- Create new document from multiple source files and types

IBM Navigator is also available in the cloud!

Uniting knowledge workers to better engage and manage content in a flexible and trusted cloud environment

Pervasive Content Management

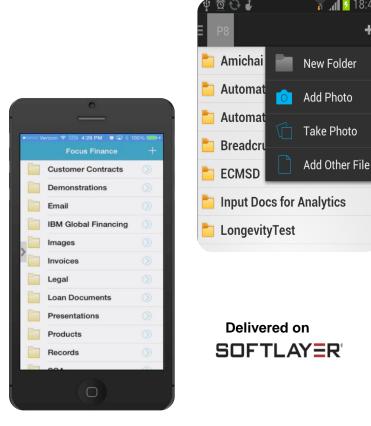

Collaborate, manage & reuse content from anywhere

Extensible ECM Experience Platform

Open standards-based, discoverable and actionable

Industry Leading ECM and Cloud

Trusted content & cloud from IBM ECM and SoftLayer

IBM. Ö

Summary, Q&A, Thank You!

- IBM Content Navigator is the standard enterprise content management <u>experience</u> <u>platform</u>, for both IBM and CMIS repositories
- IBM Content Navigator is <u>included with the</u> <u>IBM ECM platform</u>, nothing extra to purchase
- IBM Content Navigator's benefits to ECM clients both as a <u>toolkit</u> and a <u>user interface</u> are significant, from user to developer to admin, allowing for easy, secure access to enterprise content management from any device
