Departmental and Enterprise applications, leveraging BPM, RM, Search/Discovery, Advanced Doc Mgmt.

Enterprise Content Services (Business Documents, Imaging, Capture Report Management, RM, BPM, Classification, Archiving, Analytics, Search)

2

Collaboration and ECM

- **SharePoint**
  - Enhances team productivity through collaboration
  - Consistent user experience
  - Reduces training costs

- **FileNet P8 or CM V8**
  - Discipline and controls (e.g. retention and compliance)
  - Business process management
  - Central management (e.g. archival and backup)
  - Scalability

Use Cases for Integrated BCS/ECM

- Archival – keep SharePoint humming

- Assets only in the trusted vault

  - Not all documents are assets

  - Assets are sensitive

- Compliance

- Business process management

- Information reuse

- User-experience

IBM SharePoint 2007 Integration

Web Parts Connector, What is it?

- ❑ Collection of Web Parts which allow end users to interact with documents in FileNet P8 directly from the SharePoint

- ❑ Merges basic document management capabilities with Microsoft user experience

- ❑ Real-time access of P8 content from SharePoint

Capabilities:

❑ View/Browse/Search

❑ Check in/out

❑ Upload document

❑ Edit

❑ Edit properties

❑ Delete

❑ Column Sorting & Filtering

❑ Business Process Management Support

   ❑ Personal Inbox (tasks)

   ❑ Public Queues

   ❑ Launch P8 BPM Workflow from SharePoint

❑ Stored Search Support

ICC for SharePoint, What is it?

- ❑ SharePoint initial content authoring environment, & content ultimately swept into & accessed from P8

- ❑ Provides SharePoint basic content services and collaboration, but customers need a secure and centrally managed repository

- ❑ Provide a seamless and automated way for content to transition into an ECM repository

Capabilities:

- ❑ SharePoint-created content move into & managed by the ECM repository; and deleted from SharePoint
- ❑ Move and Retain Link ("stubbing")
- ❑ Retention of created-by, modified-by metadata
- ❑ "Sweeping" of pre-existing SharePoint site content
- ❑ Automatic SharePoint child site discovery
- ❑ Central Configuration Utility with common repository
- ❑ Remote Deployment
- ❑ Records Management support

Supports:
- WSS 3.0 & MOSS 2007
- IBM FileNet P8 4.x

SharePoint

ICC for SharePoint v. 2.2 – What's new?

# Content Collector Overview
Modular and Extensible … Powered by Unique Task Routing

Policy & Task Routing Engine

Source Connectors

MESSAGING / EMAIL
- Microsoft Exchange / PST
- Lotus Domino / NSF
- Lotus iNotes / LotusLive
- Instant Messaging (3rd Party)

FILE SYSTEMS
- Microsoft File System
- Desktops (via Tivoli CDP)
- Data ONTAP (NetApp / IBM N series)
- Other File Systems

OTHER
- SAP Archive Files *
- Microsoft SharePoint
- IBM Content Integrator
- CMIS
- Tivoli Storage Manager

CUSTOM SOURCES
- API Support with SDK

1

Task Connectors

INTERNAL TASKS
- Copy / Move / Delete / Stub
- De-Duplication
- Rules-Based Classification

EXTERNAL TASKS
- Records Declaration
- Advanced Context Classification
- Rendering (3rd Party)

CUSTOM TASKS
- API Support / Partner Apps
- Meta Data Enhancement / Cleansing
- Encryption
- System Lookups
- Policy Management

2

Target Connectors

IBM NATIVE
- FileNet P8
- CM8
- FileNet Image Services
- Tivoli Storage Manager

CUSTOM / OTHER
- Microsoft File System

3

Available now
Future options

* SAP available as a specialized connector
