

Information Management, Analytics & Optimization Software Services

HealthCheck for DB2 z/OS Package

Package Deliverables

- **Executive Presentation**
 - **Recommendations & Findings Report**
 - **Completed Checklist**
-

What is a Package Offering?

Information Management Implementation Packages are fixed scope, fixed price services to help IBM clients ensure that they have a technically sound and functional system framework necessary for the successful development and deployment of their Information Management solution.

The DB2 HealthCheck for z/OS Service includes the analysis of one DB2 z/OS sub-system. IBM will gather information about the DB2 z/OS sub-system such as DB2 system parameters, DB2 PM Accounting and Statistics reports as listed in the HealthCheck Requirements Checklist. After a detailed in-depth analysis of the information, IBM will review the top 10 worst performing DB2 application programs with you. IBM will then provide a recommendations and findings report of the results of this analysis with a formal executive review.

Tasks Involved

T1. Kickoff Meeting

- Review the Healthcheck requirements checklist
- Review Services Description
- Define/Review Project Plan

T2. Environment Review & Analysis

- Identify Top 10 worse DB2 Application Programs
- Interview Subject Matter Experts

T3. Presentation to executive team

T4. Recommendations & Findings Report

T5. Completed DB2 z/OS HealthCheck Checklist

Purpose of DB2 for z/OS HealthCheck:

Provide independent assessment to look at the setup and usage of the DB2 environment. Identify exposures in the setup and use of DB2 that could potentially cause unavailability or extended recovery times. Identify opportunities for achieving improved performance, availability and scalability of the DB2 subsystem. Opportunity to:

- Receive skills transfer
- Learn proven best practice based on leading edge experience
- Reflect on the current status of DB2 usage, potential issues and the right priorities going forward.

Education Prerequisites

There is no prerequisite education. Please consult the DB2 Senior Specialist during this engagement services for any recommendation.
