-

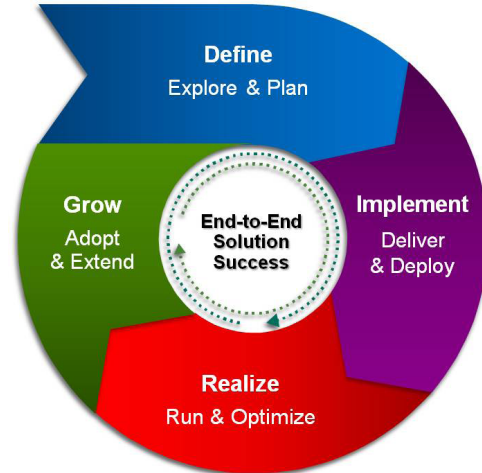

Data Architecture Services

For the lifetime of your data

We understand that integrating IBM's powerful Data architecture solutions into your business as quickly as possible is a priority. Our skilled and knowledgeable IBM Analytics Services experts are ready to help you be successful. We can maximize the value of your technology investment and address your critical business needs.

Services lifecycle

Our solution based services portfolio includes flexible, end-to-end services that are designed to help drive positive results. The portfolio delivers value in all four core elements of your solution lifecycle: define, implement, realize and grow.

What we offer

We have a broad, flexible portfolio of offerings designed to support your solution planning and implementation. We also provide services that will continue to optimize and refine your solution post deployment. In addition, through both formal and informal knowledge transfer activities, your team will benefit from the deep expertise of our service experts and will grow in their solution knowledge.

Data architecture services offerings:

- Accelerator
- HealthCheck
- Installation
- Jump Start
- Migration
- QuickStart
- Upgrade Service

IBM Analytics Services experts will work with you to determine the most effective and efficient engagement model that will benefit your business. With our broad range of offerings and our flexible delivery models, we are sure we will find the right services model to make your solution successful whether your solution is on premise, in the cloud or a hybrid model.

About IBM Analytics Services

The Analytics Services organization provides expert services exclusively focused on the IBM Analytics product portfolio. Our depth of experience and extensive proven practices help clients mitigate risks, raise the quality of their implementations and build valuable skills. We have provided guidance, advice, reviews, assessments and assistance to thousands of clients around the world enabling them to maximize the return on investment for both their on premise and cloud based analytics solutions.

Engage

Reach out to the IBM Analytics Services team to get started or for more information on our services offerings. Simply complete our [online contact form](#) and a member of our team will contact you to discuss your business needs.
