

## **WELCOME TO RATIONAL NORDIC BUSINESS PARTNER EVENT, 7<sup>TH</sup>-8<sup>TH</sup> OF MAY**

Technical Enablement, Software Quality  
Bergendal Conference Center, Stockholm

Good Quality is something we all appreciate – both software quality and quality in life.

The Nordic Rational team invites you to two intensive days with focus on software quality. We hope that these educational sessions will inspire and motivate you to continue to study and get a certification in IBM Rational solutions.

IBM Rational's Quality solutions have developed strongly during the last year. We have presented new versions of all our products, Manual Tester, Functional Tester, Performance tester, and last but not least, ClearQuest TestManager! The real power, however, is to be found in our strong Partner community. We want to make 2007 a profitable and successful year for all of us.

The goal is to enable you to bring our Quality message to your customers. We want to give you in-depth knowledge about our products and therefore the second day will consist of Hands on Workshops. You will get a chance to learn about all Rational's Quality products including how to test for SOA.

This is an opportunity to learn from two of the most experienced people in Rational's world wide organisation, Robert Quinn and David Chadwick. Robert is a Senior Software Engineering Specialist with Rational Quality solutions as his speciality and David is Load Testing Champion and Manager for the Load Testing Product Development. They are both appreciated speakers on international conferences and known for their extensive knowledge in their respective area.

Some quality in life is of course also included. You will enjoy tasteful meals in one of Bergendal's magnificent dining halls and participate in a team building activity during the evening. The opportunity to network during these days is unique. You will get a chance to share experiences with IBM Rational Business Partners from all the Nordic countries! Bergendal is one of the best conference locations in Stockholm, located in a beautiful manor park, at the shore of Edsviken in Sollentuna. See [www.bergendal.se](http://www.bergendal.se) for more information.
