Linda C. Puschauer commented today at 9:13 AM (version 2)
Juliana, This looks great; am really looking forward to today's call. I have some questions about capacity or cost restraints associated with using the IBM internal Connections tomorrow, where does the associated cost get charged?

Please let me know if you will send a separate link that I should forward to the team in advance of the call. Thanks!

[Delete](#)

Juliana M. Leong commented today at 10:54 AM (version 2)
Thanks Linda.. Looking forward to it too... I can cover the questions about capacity and cost for the team, just click on "Share" above and enter their names. You can also click on "Add to collection" above and enter their names. They will each get an email notification.

Web 2.0 no es una tecnología... Es una actitud

"It's about enabling & encouraging participation through open applications & services"

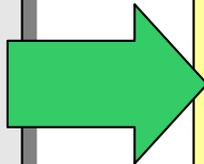

Ian Davis, Internet

The "Readable" Phase
- Static, Flat data

The "Writable" Phase
- Interactive data

Web 1.0 was about **connecting computers** and making **information** more readily available

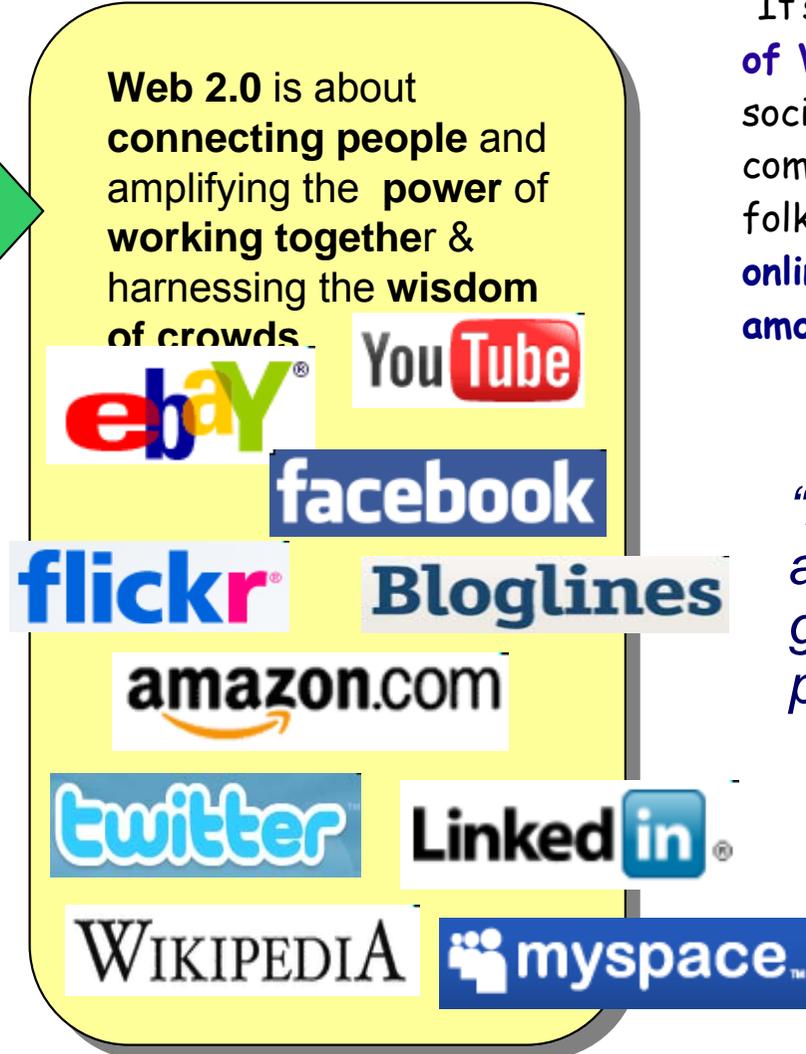

Web 2.0 is about **connecting people** and amplifying the **power of working together** & harnessing the **wisdom of crowds**

"It's a perceived **second-generation of Web-based services** — such as social networking sites, wikis, communication tools, and folksonomies — that emphasize **online collaboration and sharing among users**"

Wikipedia

"A true Web 2.0 application is one that gets better the more people use it."

Tim O'Reilly

IBM es el primero en adoptar el Software Social para transformar la empresa en una Compañía Globalmente Integrada

- La estrategia de colaboración de IBM se basa en cuatro puntos:
 - Transformar la empresa en una organización más colaborativa
 - Establecer una presencia colaborativa de IBM en Internet
 - Simplificar e integrar herramientas y procesos
 - Ayudar a los empleados y a los clientes a identificar a los expertos de IBM

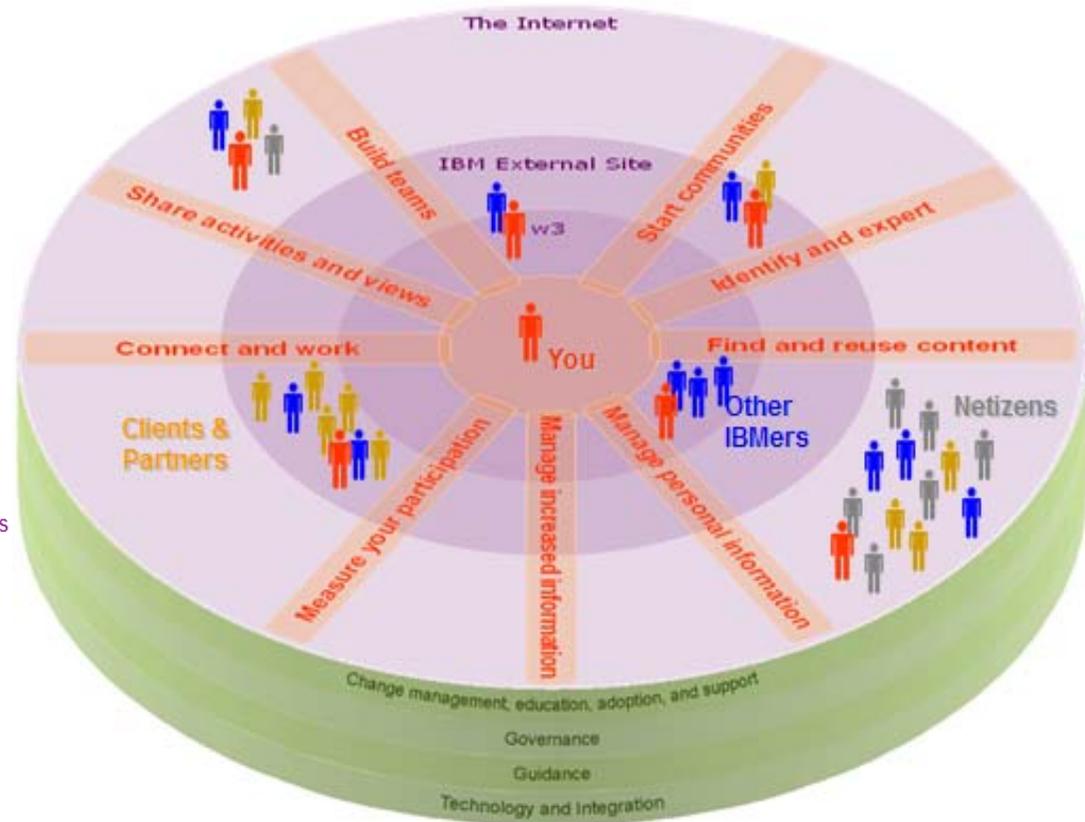

The Collaboration Framework

S t r a t e g y	Identify an expert		
	Connect and work		
	Find and reuse content		
	Start and join communities		
	Build teams		
	Share activities and views		
	Manage your personal information		
	Measure your participation		
	Manage increased information		
		Internal	IBM External
	Change Management, Adoption, Education, Support		
	Governance		
	Corporate Guidance		
	Technology and Integration		

→What? Capabilities

→Where? Participation domains

→How? Enablers

¿... pero esto a mi que me aporta?

Piensa cuantas veces contactas con alguien para:

- Encontrar información
- Obtener una respuesta
- Preguntar por un consejo
- Proponer una idea
- Obtener una segunda opinión

La realidad es:

- Hay demasiada información para manejarla por nosotros mismos
- Cuatro ojos ven más que dos (y cientos mucho más)
- Todos necesitamos conectar y sentirnos conectados

Facilitarte la comunicación y colaboración con tu red de contactos

¿Que es **Lotus** Connections ?

Un software social que trata que los empleados sean más innovativos y les ayude a ejecutar sus tareas más rápidamente usando redes dinámicas de compañeros, partners y clientes.

Crea, encuentra y asociate a comunidades de personas con tus mismos intereses o áreas de trabajo

Communities

Lotus Connections

Homepage – Mira lo que pasa a tu alrededor...

The screenshot shows the Lotus Connections homepage. At the top, there is a navigation bar with tabs for 'Lotus', 'Connections', 'Home', 'Profiles', 'Communities', 'Blogs', 'Bookmarks', 'Activities', 'Files', and 'Wikis'. The user 'Gail M. Hock' is logged in, with 'Help' and 'Log Out' links. Below the navigation bar, there are tabs for 'Updates' and 'My Page'. A search bar and a 'Customize' button are also visible. The main content area displays a list of updates from the user's network, including posts from Luis A. Benitez, Luis Suarez Rodriguez, Howard K. Smith, Juliana M. Leong, Nabeel Ahmad, and Susann Ulrich. Two yellow callout boxes provide additional context: one points to the 'Discover' tab and says 'Filtra las noticias basado en tu red, las notificaciones que recibes, tags y gente a la que te subscribes', and the other points to the update list and says 'Vista personal de tu red (actualizaciones de estado y eventos)'. On the right side, there are sections for 'My Status' (showing Gail M. Hock's current status) and 'My To-Do List' (with a calendar for July 2009).

Collaborative Learning Community Customize Mail Community Leave Community Community Actions-

Overview Moderated

This community will focus specifically on how to incorporate collaboration into the things we do in Learning. We'll focus on things like:

- Can we do a better job of collaborating ourselves?
- How can we incorporate collaborative tools and techniques into the offerings we deliver?
- What have we done that we think exemplifies best practice that others can learn from?
- How can we enhance collaboration behaviors across IBM?

We'll utilize discussion forums, RSS feeds and other tools and techniques as we build this community - our goal is to become avid learners about collaboration by collaborating and using the best tools and technologies available.

Please sign up if you'd like to join us - we encourage and practice collaboration in this community!

Blogs – Comparte y descubre ideas

The screenshot shows the Lotus Connections Blogs interface. At the top, there's a navigation bar with 'Home', 'Profiles', 'Communities', 'Blogs', 'Bookmarks', 'Activities', 'Files', and 'Wikis'. The 'Blogs' section is active. Below the navigation, there are tabs for 'Browse Blogs', 'My Blog', and 'My Updates'. A search bar is present on the right. The main content area displays a list of blog entries under the 'Announcements' category. The first entry is 'Where is my BlogCentral data?' by Samantha Daryn, dated Aug 25. Below the list, there are sorting options: 'Date', 'Title', 'Most Recommendations', 'Most Comments', and 'Most Visits'. On the right side, there are sections for 'Featured Blog Entries' and 'Most Recommended'. The 'Featured Blog Entries' section includes entries like 'SSH, SCP, and FTP' by Brian S. Wilson, 'Celebrating my QCC w...' by Dale E. Rehorn, 'Living in the future' by Sacha Chua, 'Social media and emp...' by A. Piper, and 'Now available on You...' by Anna Dreyzin. The 'Most Recommended' section lists 'Living in the future', 'Lotus Connections 2.5...', 'Good News! 24x5 User...', 'The man who should hav...', and 'GreaseMonkey to add Lo...'. There are also sections for 'Most Commented' and 'Most Visited'.

Annotations:

- Funciones avanzadas de ordenación:** Points to the sorting options: Date, Title, Most Recommendations, Most Comments, Most Visits.
- Blogs de comunidades:** Points to the 'Community Blog' icon next to the 'Nyhedsbrev for IGA AS Danmark - 3Q 2009' entry.
- Recomendaciones a entradas:** Points to the star rating and comment icons for the 'Living in the future' entry in the 'Most Recommended' section.
- Etiquetas para ayudar a encontrar lo que buscas:** Points to the 'Tags' section on the left sidebar, which includes a search box and a list of tags like 'adoption agile', 'announcement', 'api', 'blog', 'blogcentral', 'blogging', 'blogs', 'blueiq', 'blueiq-ambassadors', 'business-value', 'career', 'cloud', 'collaboration', 'communities', 'communities-of-practice', 'communitiesofpractice', 'community', 'competition', 'connections', 'cop', 'cpif', 'demo', 'development', 'dogear', 'ecm', 'education', 'enablement', 'enterprise2.0', 'evangelism', 'event', 'events', 'faq', 'firefox', 'geno', 'go', 'horizonwatch', 'ibm', 'iif', 'integration', 'lux', 'ac', 'fr', 'profiles', 'personalmentor', 'quickr', 'rational', 'rdm', 'regionalmentors', 'research', 'rqm', 'rrc', 'rtc', 'sales', 'sametime', 'search', 'security', 'selling', 'session', 'social', 'social-computing', 'social-media'.

Activities – Mejorando la productividad...

The screenshot shows the Lotus Connections interface for managing community activities. The top navigation bar includes 'Lotus, Connections', 'Home', 'Profiles', 'Communities', 'Blogs', 'Bookmarks', 'Activities', 'Files', and 'Wikis'. The user 'Gail M. Hock' is logged in. The main content area is titled 'Activity Goal - Discuss 'privately' the things we will do to grow and dev...'. It features a sidebar with 'Activity Outline' (Recent Updates, To Do Items, Trash, Sections) and a main list of activities grouped into sections like 'Meeting Notes', 'Why people wanted to join our community', 'Presentation Preparation', 'Community Health / Maintenance', and 'Community Calls'. Callouts highlight: 'Crea y reutiliza actividades (templates)', 'Agrupa trabajos en secciones (personalizables)', 'Agrupa información relevante bajo una única entrada', and 'Rápido acceso a toda la información relacionada en emails, chats, ficheros'.

Crea y reutiliza actividades (templates)

January 18 - 22, 2009	Lotusphere 2009	Taking IBM Lotus Connections Mobile Going mobile - Lotus Connections cuts the cord! You're out at lunch, talking with a customer and need a subject matter expert immediately. Lotus Connections Mobile to the rescue! Come see a demonstration of a web client deployment that provides painless access to Lotus Connections on mobile devices. Featuring a sneak peek of the Mobile Edition 2.5, this session will show you how you'll be able to access Profiles, Activities, To-Do items, and other Lotus Connections services from a mobile device, and get an understanding of the development process.	ODP Version PDF Version
January 18 - 22, 2009	Lotusphere, Minassian & Prager	What's next with IBM Lotus Connections Over the past several years, Lotus Connections has been enabling customers to leverage the knowledge and expertise, and complete work faster using a set of interactive services. In this session we'll discuss the new features being planned for the next release of Lotus Connections. See how we've taken the product to the next level, how we've integrated the services, how we've enabled you to better understand what is happening and how we've extended into new environments. Be the first to see these new features in action.	
January 18 - 22, 2009	Lotusphere, Chris Lamb & Peter Van de Graaf	Deep Dive on New Web 2.0 Social Software Innovations This session will focus on exciting new capabilities from IBM's social software products including Lotus Connections. The session will feature some of the latest Web 2.0 features, including social content sharing, Web 2.0 wiki capabilities with MWidget support to enable easy integration with Mashups, portal applications, plus other new social concepts from IBM research. Come see and hear about the latest Web 2.0 innovations and how they will deliver real business value across your globally connected enterprise, enabling you to work smarter.	Presentation
January 18, 2009	Lotusphere, Marc Pagnier & Miki Banatwala	ID306 - Lotus Quickr overview This session will provide an overview of Lotus Quickr.	Presentation
January 18 - 22, 2009	Lotusphere, Hugh Taylor & Michael Martin	Best Practices on Social Software Adoption This session will cover the types of business issues that are often confronted by clients in introducing social software capability to their organizations. We will share best practice examples of adoption efforts that include using social network analysis (SNA) for supporting a "viral" change management plan, using a Collaboration Center of Excellence to build competencies and link to business strategies and goals, and client examples of critical success factors.	Presentation

Bookmarks – Comparte y descubre información

The screenshot shows the Lotus Connections Bookmarks page for user Gail M. Hock. The interface includes a navigation bar with tabs for Home, Profiles, Communities, Blogs, Bookmarks, Activities, Files, and Wikis. The main content area is titled "Bookmarks for Gail M. Hock" and features a "Notify" dialog box. The dialog box contains a list of selected bookmarks, a "People to notify" field, and a "Comments" field. The "Notify" dialog box is highlighted with a yellow callout box containing the text "Notifica a tus compañeros sobre una dirección de interés". The "Bookmarks for Gail M. Hock" title is also highlighted with a yellow callout box containing the text "Filtra la información que te interesa". The "People to notify" field is highlighted with a yellow callout box containing the text "Subscribeté a notificaciones cuando haya más contenido". The "Notify" dialog box is also highlighted with a yellow callout box containing the text "Notifica a tus compañeros sobre una dirección de interés".

My Page – Tu punto de control para organizar todo

The screenshot shows the 'My Page' interface in Lotus Connections. The page is organized into several sections, each highlighted with a red box and a callout box:

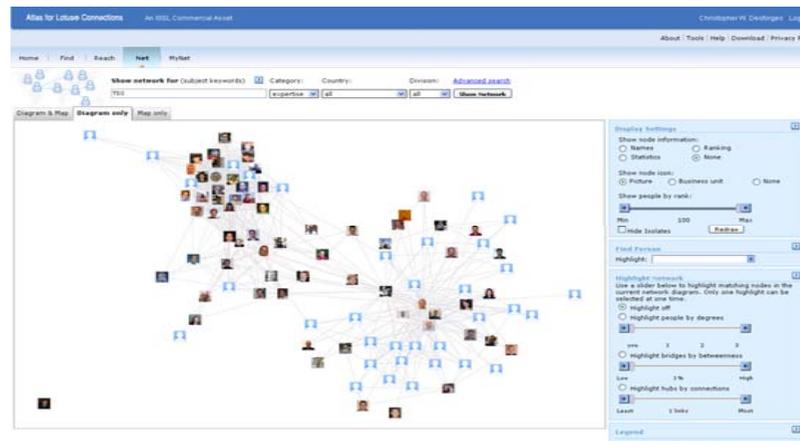

- Profiles:** A callout box states 'Agrega datos de tu red social a través de Connections' (Add data from your social network through Connections).
- Activities:** A callout box points to the 'Activities' section, which includes a calendar for July 2009 and a list of recent activities.
- Communities:** A callout box states 'Búsqueda en todas las aplicaciones' (Search in all applications).
- My Watchlist:** A callout box states 'Acceso rápido a tu red de contactos' (Fast access to your contact network).
- My Wikis:** A callout box states 'Visión rápida a tus tareas pendientes' (Quick view of your pending tasks).
- My Files:** A callout box states 'Mejora tu habilidad para descubrir información crítica' (Improve your ability to discover critical information).
- My Bookmarks:** A callout box states 'Widgets para acceder a otras aplicaciones' (Widgets to access other applications).

The interface also features a top navigation bar with tabs for Updates, My Page, Home, Profiles, Communities, Blogs, Bookmarks, Activities, Files, and Wikis. A search bar is located in the top right corner.

- Analiza la red social para maximizar su uso, ayudando a encontrar expertos de una manera más avanzada

- Características:

- Find & Reach – Búsqueda avanzada de personas
- MyNet – Visión personalizada de tu red social
- Network – Visión de la red completa

- Atlas for Lotus Connections extiende el valor de Connections:

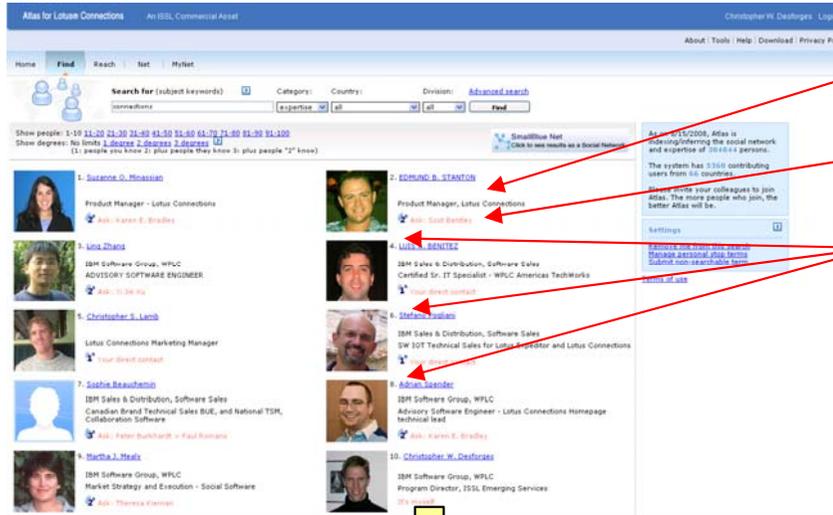

- Buscando expertos no solo por sus perfiles si no por su trabajo
- Ayuda a los equipos a analizar áreas específicas de conocimiento que están en riesgo (por ejemplo, ausencia de un determinado rol en un lugar específico)

Busca y llega: Advanced People Discovery

FIND - Advanced People Discovery

- Encuentra a los expertos basándote en datos públicos (organización, blogs, comunidades) y además en las comunicaciones de email e IM
- Encuentra expertos basado en el "ranking" de recomendaciones
- Filtra basándote en unidades de negocio, geografía o proximidad personal

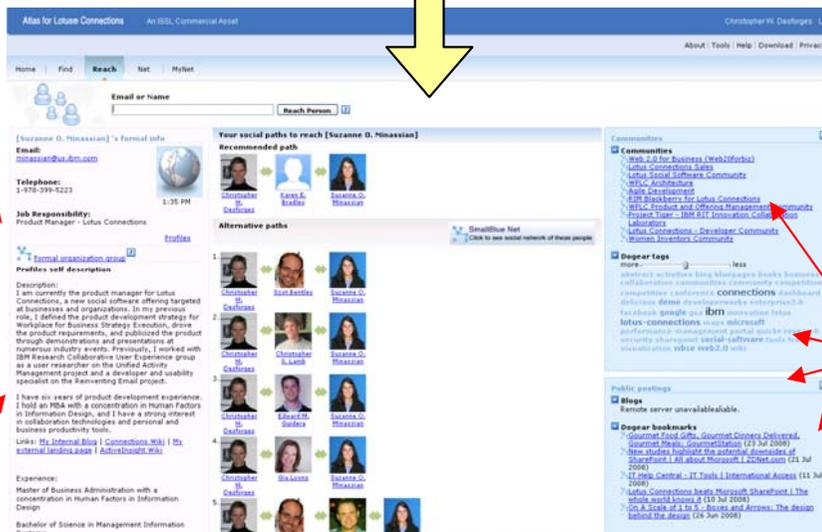

Information from Lotus@Connections Profiles

Social path from Atlas

Ranking results from Atlas

REACH – Social Dashboard

- Caminos de búsqueda busca los caminos más cortos para llegar a otra persona hasta 6 grados de separación*
- Access** -- ¿quien me puede presentar a esta persona?
- Trust** -- ¿quien conoce a esta persona en mi red social?
- Familiarity** – ¿que personas suelen relacionarse con él?
- Conversation** – El saber quien conocemos en común ayuda a iniciar una conversación

Formal information from Lotus@Connections Profiles

Enterprise Social Network Analysis s

Visualiza la red basándote en:

- Jerarquía formal
- Membresía a una comunidad
- Etiquetas en común
- Palabras claves definidas en tu perfil

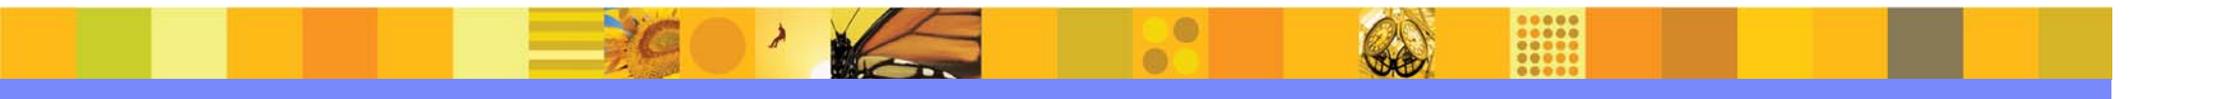

Utiliza Social Network Analysis para mostrar:

- Quien son los “concentradores” en un grupo de expertos
- Quien son los “PUENTES” para unir diferentes grupos

The screenshot shows the 'Atlas for Lotus Connections' web interface. At the top, it says 'An ISSL Commercial Asset' and 'Christopher W. Desforges Logout'. Below the navigation bar, there are search filters for 'Show network for (subject keywords)', 'Category', 'Country', and 'Division'. The main area displays a network diagram with nodes and connecting lines. On the right side, there are several control panels: 'Display Settings' (with options for node information and icons), 'Find Person' (with a search box), 'Highlight Network' (with sliders for highlighting by degrees, betweenness, and connections), and 'Legend'.

Display settings to control the appearance of information on the network diagram.

Social Networking Analysis tools that enable you to understand the structure of the social network.

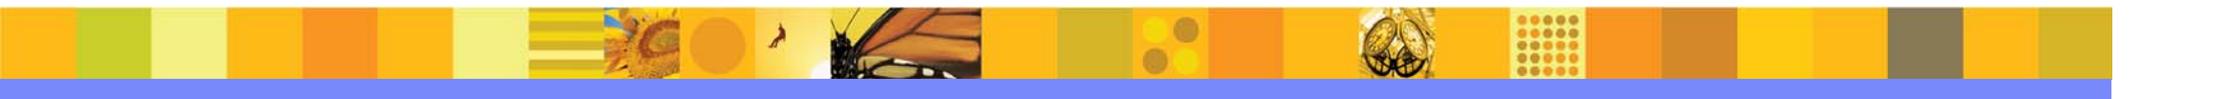

MyNET: ¿Como de “sana” es tu red social?

La diversidad es esencial para la innovación

- Herramientas para ayudarnos a ampliar nuestra red
- Tratar de mejorar nuestras conexiones para salir de nuestro “grupo” (my Ego Net Circle)
 - Número de conexiones
 - Localización (geográfica y organizativa)
 - ¿Qué me aporta una determinada persona?

The screenshot shows the MyNET interface with a central network diagram, a contact profile for Vicky Griffiths-Fisher, and various filters and statistics. Red arrows point to specific features:

- Understand your contact's social value:** Points to the contact profile of Vicky Griffiths-Fisher.
- Your Personal Social statistics:** Points to the 'Your net statistics' section on the right, which shows 47 IBMers 1 degree away, 1294 IBMers 2 degrees away, and 12513 IBMers 3 degrees away.
- Visualize one's personal social network:** Points to the central network diagram.
- Identify organizational boundaries:** Points to the 'Show by Division' filter on the right, which lists various IBM divisions like GBS, CHQ, SWG, etc.

¡Integra Atlas en Lotus Connections usando Widgets!

- ¿Qué hace la gente de mi red?
- Filtrar contenido de Connections basado en tu red

The screenshot shows the IBM Lotus Connections home page with several widgets and callouts:

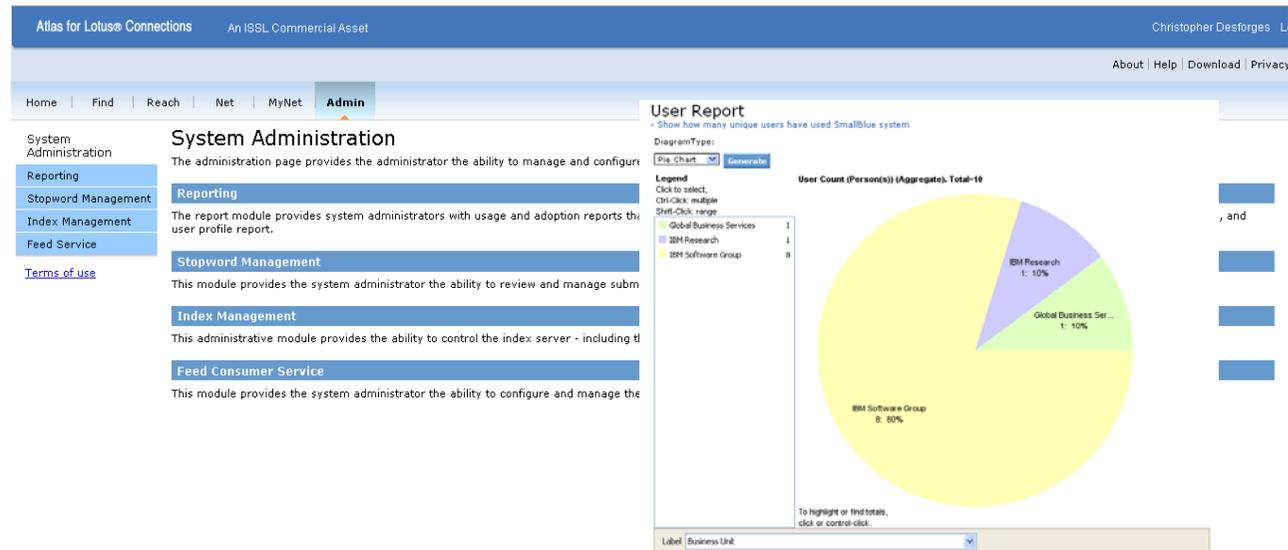

- Discover blog entries from your friends and colleagues:** A callout pointing to the 'Blogs by Atlas' widget.
- Automatically keep track of bookmarks from people in your personal social network:** A callout pointing to the 'Dogear by Atlas' widget.
- Receive community recommendations based on those joined by your friends and colleagues:** A callout pointing to the 'Communities by Atlas' widget.
- View the social paths between yourself and another person:** A callout pointing to the 'Your social paths to reach [Botter, Marlene]' widget.

The page layout includes a navigation bar, a search bar, and a sidebar with widget management options. The main content area displays various widgets such as 'Blogs by Atlas', 'Dogear by Atlas', 'Communities by Atlas', and 'Profile Search'.

La Interfaz de Administración da acceso a informes process information

- Filtrado de palabras inapropiadas
- Manejo y monitorización de índices
- Informes:
 - Búsquedas realizadas
 - Contribuciones y nuevos miembros
 - Número de usuarios que ejecutan búsquedas
