

CICS V5.2

Think April was busy? Get ready for May! A lot of things happened last month in CICS: we announced CICS Portfolio V5.2 and the Impact conference was a huge success... In this edition we've put together all the latest and the most important updates from the world's favourite transaction server!

It's good to know...

IBM Knowledge Center goes live

[IBM Knowledge Center](#) is a new tool for all IBM product documentation. This tool enables you to customize your experience of working with IBM documents. Now you can search through all the content for subjects that interest you, restrict your search to one or more products and set filters to define your own personal search preferences. Get started with [IBM Knowledge Center](#) now!

CICS TG for z/OS V9.1 open beta is available to download now

Test [CICS TG V9.1 open beta](#) yourself and explore its new capabilities, including new mobile support, which enables modern workloads to be quickly and efficiently integrated into CICS systems. [Download it now](#) and don't forget to provide us with some feedback!

CICS V5.2 and the Cloud

Read a new article by Matthew Webster, CICS Cloud Guru, [Develop Cloud Applications and Meet Consumer Expectations with the IBM CICS V5.2 Application Server](#) to find out about Cloud enablement and other enhancements in CICS V5.2.

In addition, discover how CICS Tools V5.2 increase the value of the whole CICS V5.2 Portfolio in the [IBM CICS Tools for z/OS, V5.2 Deploys CICS into the Cloud](#) article in the latest edition of IBM Systems Magazine.
