

## Customizing the Layout of the Enterprise Search Interface

The screenshot displays the IBM Content Analytics with Enterprise Search interface. At the top, the header includes the IBM logo, the text "IBM Content Analytics with Enterprise Search", and navigation links for "Collection: NHTS... (change)", "Logged in as: Not lo...", "Preferences", "My Profile", "Help", and "About". Below the header, a search bar contains the query "\*: \* AND /'date'/'2008'", with "Search" and "Clear" buttons. A "Help for query syntax" link is also present. Below the search bar, there are tabs for "Saved Searches (0)", "Advanced Search", and "Query Tree". A "Search within results" checkbox is located to the right.

The main content area shows "Results 1-10 of 303 (303 results matched)". A toolbar includes icons for saving, printing, and other actions, along with a "Results per page: 10" dropdown. A "Facet Tree" on the left shows "Narrowed by: /date/2008" and a "Date" facet with "2008(303)" selected. Below the facet tree are options for "New search" and "Add to search".

A central text box provides information about interface customization:

You can drag panes to customize the layout of the interface if:

- Your administrator configured the enterprise search application to support this function, and
- Your administrator authorized you or all users to customize the layout.

The search results table shows a single entry with the following details:

| Flags | Actions | Source   | Date    | Title    | Thumbnail |
|-------|---------|----------|---------|----------|-----------|
|       |         | CSV file | 3/10/08 | 10342201 |           |

The snippet of the search result text reads: "OIL CONSUMPTION ISSUE, VEHICLE USES 3 TO 4 QUARTS OF OIL BETWEEN 3,000 MILE OIL CHANGES, HAS DONE SO SINCE 25,000 MILES. I'VE ALSO HAVE A 'POPPING' FEELING FROM THE FRONT END OR STEERING COMPONENT WHEN VEHICLE HAS WARMED UP. YOU'LL FEEL THE 'POP' IN THE STEERING WHEEL AND FUEL PEDDLE. THE DEALERSHIPS FROM BOTH FLORIDA AND TENNESSEE STATED NO PROBLEM FOUND MULTIPLE".

At the bottom, a "Console" pane displays the message: "You searched for '\*: \* AND /'date'/'2008'' Query language: English".

## Customizing the Layout of the Enterprise Search Interface

The screenshot displays the IBM Content Analytics with Enterprise Search interface. At the top, the header includes the IBM logo, the text "IBM Content Analytics with Enterprise Search", the collection name "Collection: NHTS... (change)", and the user status "Logged in as: Not lo... | Preferences | My Profile | Help | About".

The search bar contains the query `*:* AND /"date"/"2008"`. Below the search bar are buttons for "Search" and "Clear", and a checkbox for "Search within results".

The main content area shows "Results 1-10 of 303 (303 results matched)". A "Time Series Chart" is displayed, showing a bar chart with data points for each month from 2008-01 to 2008-12. A yellow callout box points to the chart with the text: "For example, you might prefer to see the expanded query syntax at the top of the results instead of at the bottom of the page. If so, drag the **Console** area to position it at the top."

Below the chart is a table of search results. The first result has a title "10342201" and a snippet: "OIL CONSUMPTION... DONE SO SINCE 25... COMPONENT WHEN... PEOPLE THE DEALER...".

At the bottom of the interface is a "Console" area, which is circled in red. It displays the search query: "You searched for '\*:\* AND /"date"/"2008"' Query language: English".

## Customizing the Layout of the Enterprise Search Interface

The screenshot displays the IBM Content Analytics Enterprise Search interface. At the top, the header includes the IBM logo, the text "IBM Content Analytics with Enterprise Search", and navigation links for "Collection: NHTS...", "Logged in as: Not lo...", "Preferences", "My Profile", "Help", and "About".

The search bar contains the query `*:* AND /"date"/"2008"`. Below the search bar are buttons for "Search" and "Clear", and a checkbox for "Search within results".

The main results area shows "Results 1-10 of 303 (303 results matched)". A "Time Series Chart" displays a bar chart of search results over time, with the x-axis labeled with dates: 2008-02, 2008-04, 2008-06, 2008-08, and 2008-10. A "Console" panel on the right displays the message: "You searched for '\*:\* AND /"date"/"2008"' Query language: English".

The search results are presented in a table with columns: "Flags", "Actions", "Source", "Date", "Title", and "Thumbnail". The first result is a "V file" dated "3/10/08" with title "10342201". The snippet for this result reads: "E USES 3 TO 4 QUARTS OF OIL BETWEEN 3,000 MILE OIL CHANGES, HAS ALSO HAVE A 'POPPING' FEELING FROM THE FRONT END OR STEERING WARMED UP. YOU'LL FEEL THE 'POP' IN THE STEERING WHEEL AND FUEL BOTH FLORIDA AND TENNESSEE STATED NO PROBLEM FOUND MULTIPLE". The second result is a "CSV file" dated "9/10/08" with title "10342305". The snippet for this result reads: "TL\*THE CONTACT OWNS A 2008 CHRYSLER TOWN AND COUNTRY THE CONTACT HAD TO REPLACE THE".

A yellow callout box with a speech bubble points to the "Flags" column header in the table. The text inside the callout reads: "For another example, perhaps you are exporting documents according to how they are flagged. You decide to move the **Flags** to the top of the Facet Tree for higher eye-level focus." The "Flags" option in the "Facet Tree" on the left is circled in red.

The "Facet Tree" on the left shows "Narrowed by:" with a breadcrumb "/date/2008". Under "Date", the "2008(303)" facet is selected. Under "maker", there are options for "New search" and "Add to search".

## Customizing the Layout of the Enterprise Search Interface

The screenshot displays the IBM Content Analytics with Enterprise Search interface. At the top, the IBM logo and 'IBM Content Analytics with Enterprise Search' are visible on the left, and 'Collection: NHTS... (change)', 'Logged in as: Not lo...', 'Preferences', 'My Profile', 'Help', and 'About' are on the right. The search bar contains the query '\*:\* AND /"date"/"2008"'. Below the search bar are buttons for 'Search' and 'Clear', and a checkbox for 'Search within results'. The interface is divided into several sections:

- Facet Tree:** Shows 'Narrowed by: /date/2008'. Under 'Date', '2008(303)' is selected. Under 'maker', 'New search' and 'Add to search' are options.
- Time Series Chart:** A bar chart showing search results over time from 2008-02 to 2008-10. The chart shows a peak in late 2008.
- Console:** Displays the search query and language: 'You searched for "\*:\* AND /"date"/"2008"' Query language: English.
- Results Table:** A table with columns: Flags, Actions, Source, Date, Title, and Thumbnail. It lists two results:

| Flags   | Actions | Source   | Date    | Title    | Thumbnail |
|---|---------|----------|---------|----------|-----------|
|   |         | CSV file | 3/10/08 | 10342201 |           |
| OIL CONSUMPTION ISSUE, VEHICLE USES 3 TO 4 QUARTS OF OIL BETWEEN 3,000 MILE OIL CHANGES, HAS DONE SO SINCE 25,000 MILES. I'VE ALSO HAVE A "POPPING" FEELING FROM THE FRONT END OR STEERING COMPONENT WHEN VEHICLE HAS WARMED UP. YOU'LL FEEL THE "POP" IN THE STEERING WHEEL AND FUEL PEDDLE. # Customizing the Layout of the Enterprise Search Interface

The screenshot displays the IBM Content Analytics with Enterprise Search interface. At the top, the IBM logo and text "IBM Content Analytics with Enterprise Search" are visible on the left, and "Collection: NHTS... (change)" and "Logged in as: Not lo... | Preferences | My Profile | Help | About" are on the right. The search bar contains the query "\*: \* AND /'date'/'2008". Below the search bar are buttons for "Saved Searches (0)", "Advanced Search", and "Query Tree". A "Search" button and a "Clear" button are also present, along with a checkbox for "Search within results".

The main results area shows "Results 1-10 of 303 (303 results matched)". A toolbar includes icons for saving, printing, and other actions. A callout box points to a gear icon (Preferences) with the text: "When you finish customizing the layout, click **Preferences**." The "Results per page" is set to 10.

On the left, there is a "Flags" section with options: Investigate(0), Confidential(0), and Obsolete(0). Below this is a "Facet Tree" section showing "Narrowed by:" with filters for "/date/2008", "Date" (2008(303)), and "maker".

The main results table has columns: Flags, Actions, Source, Date, Title, and Thumbnail. The first result is a CSV file from 3/10/08 with title "10342201" and a snippet about oil consumption. The second result is a CSV file from 9/10/08 with title "10342305" and a snippet starting with "THE CONTACT OWNS A 2008 CHRYSLER TOWN AND COUNTRY...".

A "Time Series Chart" is visible in the background, showing a bar chart for the period 2008-02 to 2008-10. A "Console" area on the right displays the search query and language settings.

## Customizing the Layout of the Enterprise Search Interface

The screenshot displays the IBM Content Analytics with Enterprise Search interface. At the top, the header includes the IBM logo, the text "IBM Content Analytics with Enterprise Search", and navigation links for "Collection: NHTS... (change)", "Logged in as: Not lo...", "Preferences", "My Profile", "Help", and "About".

The main content area is partially obscured by a "Search and Result Preferences" dialog box. The dialog box has several tabs: "Search", "Facets", "Top Results", "Results", "Result Columns", and "Layout". The "Layout" tab is currently selected, and a yellow callout bubble with the text "Open the Layout tab." points to it. Below the tabs, the dialog box contains the following settings:

- Number of results per page: 10
- Sort by: [Relevance]
- Sort by (3rd): None
- Query language: English
- Sort order: Descending
- Sort order (2nd): Descending
- Sort order (3rd): Descending
- Query mode (how to match query terms): No preference
- Summary length: A slider control ranging from Minimum to Maximum.
- Number of type ahead suggestions: 10
- Type ahead mode: Suggest matches from queries, then matches fro

At the bottom right of the dialog box are "Save" and "Cancel" buttons. In the background, the search results page is visible, showing "Results 1-10 of 303 (303 results matched)", a "Flags" section with "Investigate(0)", "Confidential(0)", and "Obsolete(0)", and a "Facet Tree" section with "Narrowed by: /date/2008" and "Date" with "2008(303)" selected.

## Customizing the Layout of the Enterprise Search Interface

The screenshot displays the IBM Content Analytics with Enterprise Search interface. A dialog box titled "Search and Result Preferences" is open, with the "Layout" tab selected. The dialog contains the following text:

If your administrator authorized you to modify the layout, you can customize the enterprise search application by dragging panes to different locations. If you move a pane to float over another area of the interface, you can resize that pane by dragging its lower left corner.

Save the current layout  
 Restore the default layout

You can save your changes or restore the layout that your administrator set up as the default layout for the application.

Regardless of which option you choose, your current search results are cleared when you click **Save** to apply the layout.

Buttons for "Save" and "Cancel" are visible at the bottom of the dialog.

The background interface shows search results for "2008" with 303 results matched. The "Facet Tree" is narrowed by "/date/2008", with sub-facets for "Date" (2008(303)) and "maker".

## Customizing the Layout of the Enterprise Search Interface

The screenshot displays the IBM Content Analytics with Enterprise Search interface. A modal dialog box titled "Search and Result Preferences" is open, with the "Layout" tab selected. The dialog contains the following text:

If your administrator authorized you to modify the layout, you can customize the enterprise search application by dragging panes to different locations. If you move a pane to float over another area of the interface, you can resize that pane by dragging its lower left corner.

Below the text are two radio button options:

- Save the current layout
- Restore the default layout

At the bottom right of the dialog are "Save" and "Cancel" buttons. The background interface shows search results for "2008" with 303 matches, a facet tree for "Date" with "2008(303)" selected, and a search query input field containing "2008"" Query".

## Customizing the Layout of the Enterprise Search Interface

The screenshot displays the IBM Content Analytics with Enterprise Search interface. At the top, the IBM logo is on the left, and the text "IBM Content Analytics with Enterprise Search" is next to it. On the right, it shows "Collection: NHTS... (change)", "Logged in as: Not lo...", and links for "Preferences", "My Profile", "Help", and "About".

The search bar contains the query "\*: \* AND /'date'/'2008". Below the search bar are buttons for "Search" and "Clear", and a checkbox for "Search within results". Navigation options include "Saved Searches (0)", "Advanced Search", and "Query Tree".

The main results area shows "Results 1-10 of 303 (303 results matched)". A toolbar includes icons for saving, printing, and other actions, along with a "Results per page: 10" dropdown and a pagination control showing "1 2 3 4 5 6 7 8 9 10".

On the left, there are sections for "Flags" (Investigate(0), Confidential(0), Obsolete(0)), "Facet Tree" (Narrowed by: /date/2008, Date: 2008(303), maker), and "Category Tree".

The central area features a "Time Series Chart" with a tooltip that reads: "This concludes the tour of how to customize the layout of the enterprise search application." The chart shows a bar for 2008-02. To the right is a "Console" showing the search query and language: "searched for '\*: \* AND /'date'/'2008'" Query uage: English".

The main results table has columns for "Flags", "Actions", "Source", "Date", "Title", and "Thumbnail". It lists two results:

| Flags   | Actions | Source   | Date    | Title    | Thumbnail |
|---|---------|----------|---------|----------|-----------|
| Q   | [icon]  | CSV file | 3/10/08 | 10342201 |           |
