The File Manager for z/OS tutorials were created using a specific product version of File Manager for z/OS. Therefore, the screen captures provided in the tutorials reflect the functionality provided in the version used. However, users of other versions of the product can also benefit from these tutorials.

You can view these tutorials at any time, and while viewing them, you can use the buttons at the bottom of the presentation window to restart or pause the tutorial.

Once you have completed a tutorial, you can use the Back arrow or click the 'Web-based training' link in the left pane to again display the list of tutorials.

If you wish to provide feedback on any of these tutorials, or any other aspect of the IBM Education Assistant, please click the 'Provide feedback on this material' link, which is located above the list of tutorials on the 'Web-based training' page.

We hope you find these tutorials informative, and we thank you for taking the time to view them!
