zSeries® PD Tools Services

Service Name	IBM File Manager for z/OS® Mentor Workshop
Service Description	**IBM consultants deliver hands-on training and mentoring for use of IBM File Manager**

Overview:

An IBM consultant will provide in-depth lecture and hands-on training, or optionally lecture-only training at your sites. Gives your staff an understanding of the functions provided by File Manager, and the skills needed to use it to work with files and databases. The consultant can optionally install and/or customize the software in the customer's environment.

Scope:

- IBM consultant will review the installation and configuration of IBM File Manager and provide recommendations for changes (if any) based on your current application development environment.
- Deliver classroom training and optionally hands-on lab exercises for IBM File Manager for z/OS. Training is delivered in three modules:
    - File Manager base
    - File Manager DB2® feature
    - File Manager IMS™ feature
- Topics covered:

File Manager base	File Manager / DB2	File Manager / IMS

• Introduction to File Manager
• Edit, Browse and Templates
• Utilities:
    Print, Create Data, Copy, Compare, Find/Change, Catalog Services, VTOC
• Options

	• Edit and Browse
	• Utilities:
	    Print
	    Copy
	    Object List
	    Managing Objects and Privileges
	    Import and Export
	    DB2 Utility Job generation
	• SQL Execution and Prototyping
	• Options
		• Introduction
		• Edit and Browse
		• Using Templates and Views
		• Extract data from database
		• Load database
		• Options
		• Batch utilities

zSeries® PD Tools Services

Benefits:
- Rapidly gain the skills to use the product
- Maximize your staff's productivity by leveraging IBM's experienced consultants

Training Options:

- **Full Workshops**: In-depth lecture and hands-on training at your site
    - Perform supplied workshop lab exercises on your system(s)
    - Extensive coverage of basic and advanced product features

- **Lecture-only Workshops**: Lecture training at your site
    - Receive the same lecture training as provided in the full workshop, without the hands-on lab exercises.
    - Takes less time than the full workshop. Can be a good option for people who prefer to reduce training time, who may not use some of the more advanced product features.
    - Gain an understanding of primary product functions

- **Webcast Workshops**: Lecture training provided via web-based teleconference
    - Same as the Lecture-only workshop, but delivered remotely
    - Can be a good option for customers with staff at multiple sites

Training Duration:

	File Manager base	File Manager / DB2	File Manager / IMS
Full workshop	7 ½ hours	4 hours	4 hours
Lecture-only	5 ½ hours	2 ½ hours	3 hours
Webcast	5 ½ hours	2 ½ hours	2 ½ hours

Each training module (base, DB2, IMS) module can be provided separately. We will work with you to provide flexible workshops. The scope and depth of topics covered in a workshop can be adjusted to match your training requirements.

zSeries® PD Tools Services

Prerequisites:

- Experience with application development in an OS/390® or z/OS environment
- Customer has IBM File Manager for z/OS installed and configured prior to the start of the workshop
- For hands-on workshops, participants need workstations with access to your system(s)
- For Webcast workshops, participants need internet access to the IBM web site
- If installation or customization services are requested, access to SMP environment to install standard IBM software

IBM File Manager for z/OS can be ordered from your IBM representative

z/OS and OS/390 are registered trademarks of International Business Machines Corporation in the United States, other countries, or both.
