

Commerce Management Center

Enhancements lab

What this exercise is about	2
What you should be able to do	2
Requirements	2
Part 1: Set the default catalog	3
Part 2: Create a new multi-value attribute	8
Part 3: Create promotions with new promotion types	12
Part 4: Test your new promotions.....	18
Part 5: Export promotion codes	23
Part 6: Using promotion folders	26
Part 7: Overriding description fields in Extended sites	28
Part 8: What you did in this exercise	32

What this exercise is about

In this tutorial, you will try the new WebSphere Commerce Management Center enhancements in Feature Pack 5.

- In the first activity, you will manage catalogs by setting a default catalog to display in the storefront.
- In the second activity, you will create, assign, and view a multi-value attribute on the storefront.
- Next, you will create six promotions using the new promotion types in Feature Pack 5 and view them on the storefront.
- You will then export promotion codes into a CSV file. You will also create and work with promotion folders.
- Last, you will override the name and description fields in the Aurora Esite and verify the results.

It should take approximately 100 minutes to complete.

What you should be able to do

After completing this exercise, you should be able to:

- Set the default catalog in the Catalogs tool
- Create and use a multi-value attribute to describe products
- Create and use six new promotions from Feature Pack 5
- Export promotion codes
- Add and delete promotions to folders
- Override catalog entry description fields in extended site

Requirements

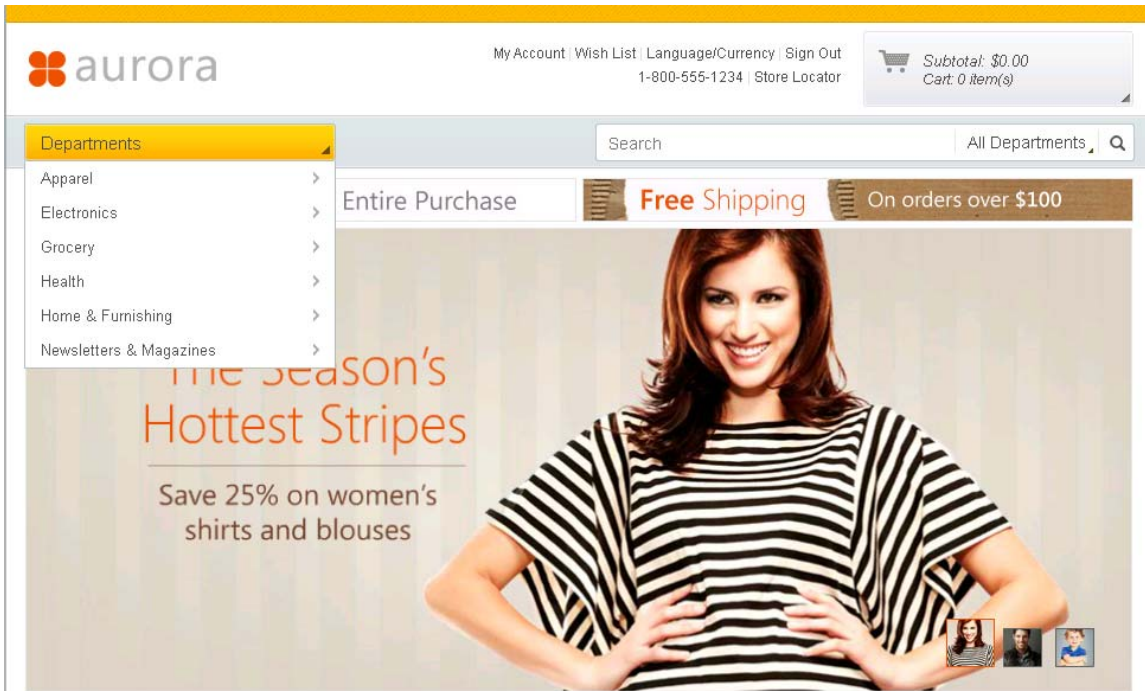

Before beginning this lab, ensure you have:

- Installed WebSphere Commerce V7 Fix Pack 6
- Installed WebSphere Commerce V7 Feature Pack 5
- Enabled the management-center feature
- Publish the ExtendedSitesV2.sar file

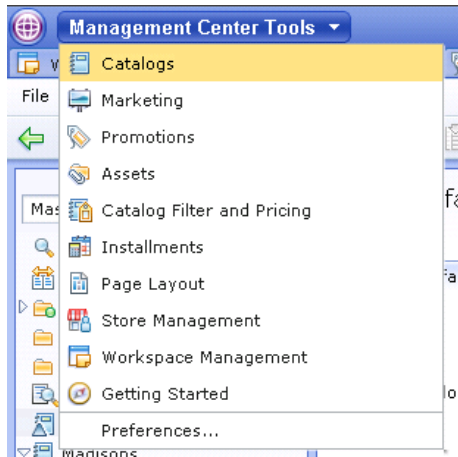

Part 1: Set the default catalog

In this part of the lab, you will learn how to set the default catalog.

- ___ 1. **Start** your WebSphere Commerce application or test server.
- ___ 2. Launch the Aurora E-site store.
 - ___ a. You can launch the store from the Store Management tool.
- ___ 3. Browse the Aurora store to see the default Catalog.
 - ___ a. If no default Catalog is set, then the master Catalog is automatically displayed.

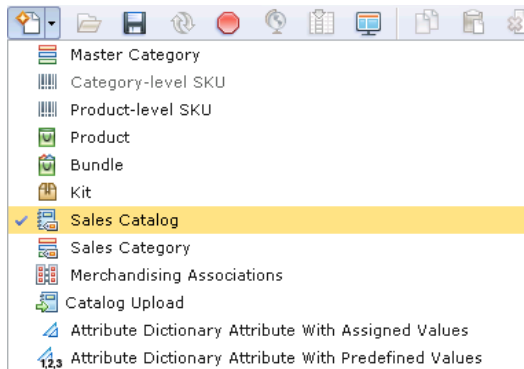

- ___ 4. Set the Sales Catalog as the default catalog.
 - ___ a. Launch Management Center.
 - ___ b. Open the **Catalogs** tool.

- ___ c. Select the **AuroraEsite** store.

- ___ 5. Create a sales catalog and set it as the default catalog.
 - ___ a. Click **New**, and create a new **sales catalog**.

- ___ b. Use the information in the table below when creating your new sales catalog and save your changes.

Field	Value
Code	Aurora Summer Sales
Name	Aurora Summer Sales
Short Description	Aurora Summer Sales Catalog

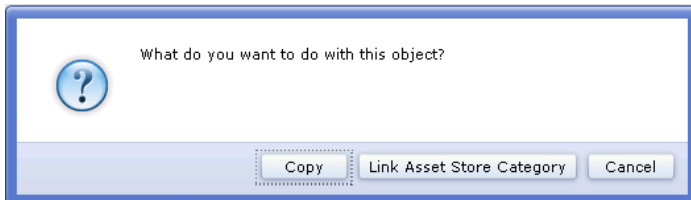

___ c. Select the Sales Catalog Categories from the explorer drop down menu.

___ d. Open the Aurora Summer Sales Catalog you just created.

___ e. Open the Utilities View  and find the Women's Master Catalog Category.

___ f. Drag the Women's category to the Aurora Summer Sales Catalog. Select **Copy** from the dialog below.

___ g. Rename the Women's category to **Women Apparel** and **Save** your changes.

___ 6. Add products to your new Sales category.

___ a. In the utilities view go to the Extended Sites Catalog Asset Store > Apparel > Women > Dresses category.

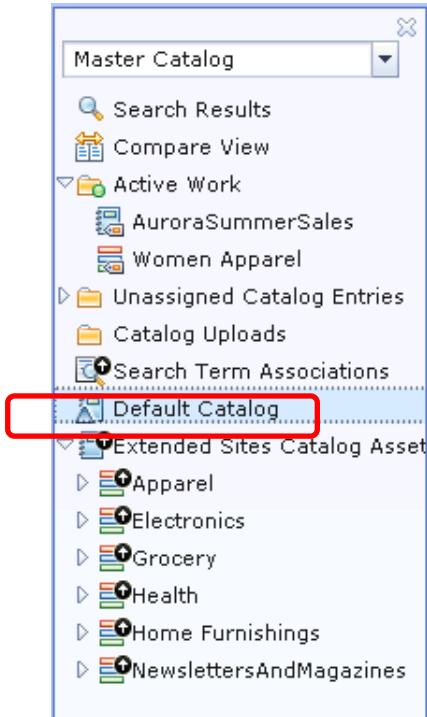

___ b. Select and drag catalog entries AuroraWMDRS-1 to AuroraWMDRS-10 from this category to the new Women Apparel category in the AuroraSummerSales catalog.

___ c. **Save** your changes.

___ 7. Set the Aurora Summer Sales catalog to be the Default Catalog table for the AuroraEsite.

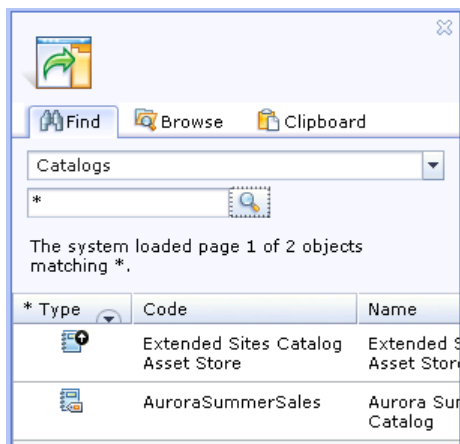

___ a. Select Master Catalog in the explorer drop down menu.

___ b. Select the Default Catalog option from the Explorer.

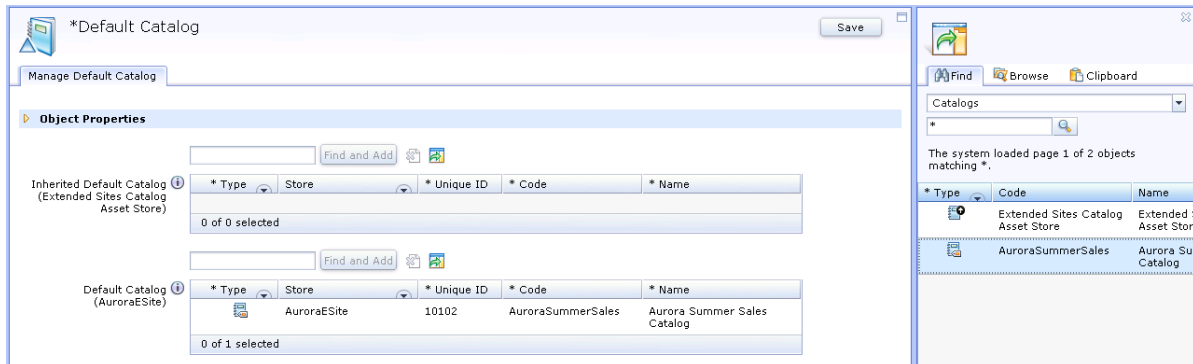

___ c. Open the Utilities view  .

___ d. On the Find tab, enter * in the field to see all available catalogs. You can also use the Browse tab to find catalogs.

___ e. Drag the Aurora Summer Sales catalog to the Default Catalog table for the AuroraEsite.

___ f. Click **Save** and **Close**.

___ 8. Verify the results.

___ a. Launch the AuroraEsite store or the store preview to verify your changes.

___ b. Browse to verify that the catalog is set to AuroraSummerSales catalog. Check that the list of departments has changed from the initial list shown when you first browsed the store in step 3 to show just Woman Apparel.

Part 2: Create a new multi-value attribute

In this part of the lab, you will create and assign a multi-value attribute to a product and view it on the storefront.

- ___ 1. Launch the Aurora E-site store or store preview.
- ___ 2. Search for **Electronics > Computer Accessories > Widescreen LCD Monitor (CAC024_2401)**.
 - ___ a. Look at the Description panel for the product.

Widescreen LCD Monitor
SKU: CAC024_2401
\$450.00 **\$135.00**

A monitor capable of high-definition resolutions with rich colors and contrast.

Brand: Eye Dee Team
Size: 24"

Quantity:

Description

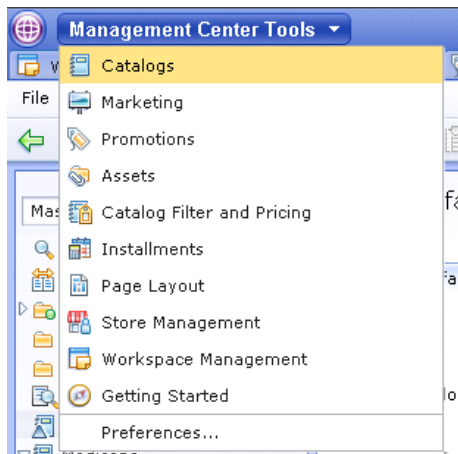

This widescreen LCD monitor provides all the functionality that any power user would require from their display. It supports a number of inputs, including VGA, DVI, and HDMI ports, for maximum flexibility. Its native resolution is 1920 x 1080.

- Size: 24"

Recommended

Widescreen LCD Monitor
\$135.00

- ___ b. You will add a multi-value attribute to this product.
- ___ 3. Open the **Catalogs** tool.

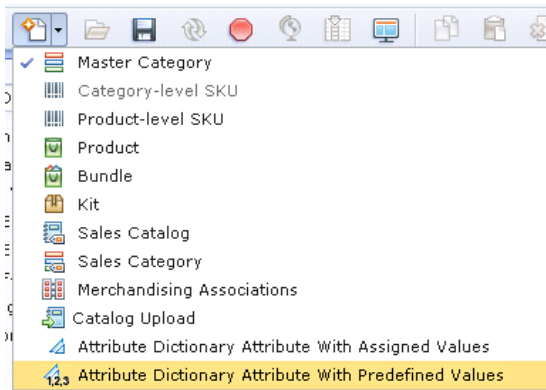

___ 4. Select the **Extended Sites Catalog Asset Store** store.

___ 5. Select the Attribute Dictionary option from the explorer drop down menu.

___ 6. Create a new Attribute Dictionary Attribute.

___ a. Click the New  icon, and from the drop down menu and select Attribute Dictionary Attribute with Predefined Values.

___ b. Complete the **General Attribute Information** as below.

Field	Value
Code	monitorResolution
Name	Monitor resolution
Data type	Text
Displayable	Yes

___ c. Add these attribute values: 1280x1024, 1440x900, 1024x768, and 1920x1200 as shown below.

Attribute Values Information

Attribute values	Sequence (United States English)	* Type	Store	* Value (United States English)	Default value
	0.0			1280x1024	<input checked="" type="checkbox"/>
	0.0			1440x900	<input type="checkbox"/>
	0.0			1024x768	<input type="checkbox"/>
	0.0			1920x1200	<input type="checkbox"/>

1 of 4 selected

___ d. **Save and Close.**

___ 7. Assign the attribute to the product.

___ a. Select the Master catalog option from the Explorer drop down menu.

___ b. Search for the Widescreen LCD Monitor (CAC024_2401) product in the Catalogs tool.

___ c. Open the product.

___ d. Go to the **Descriptive Attributes** tab.

___ e. Open the Utilities pane

___ f. In the Find tab, search for the new Monitor resolution attribute.

___ g. Drag the attribute into the Descriptive Attributes table 4 times and assign a different value each time until all values have been used.

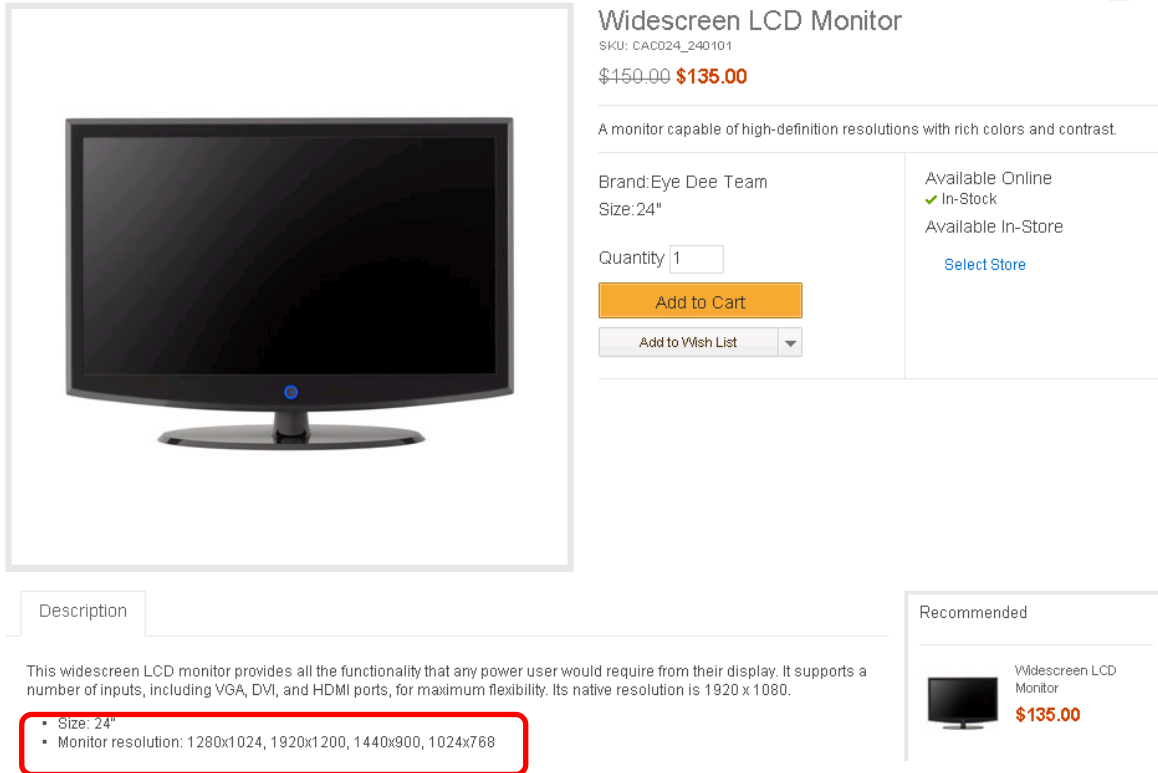

Descriptive Attributes (Attribute Dictionary)

Sequence	* Type	* Code	* Name (United States English)	* Data type	* Value (United States English)
0.0		Size	Size	Text	24"

Part 3: Create promotions with new promotion types

In this part of the lab, you will create 6 new promotions that are included in Feature Pack 5.

New Promotion Type
Fixed price on individual catalog entries from a category
Fixed price on the subtotal of catalog entries from a category
Fixed price on individual catalog entries
Fixed price on the subtotal of catalog entries
Buy A (AND B AND C), get a percentage off Y
Buy A (AND B AND C), get fixed amount off Y

___ 9. Open the **Promotions** tool.

___ 10. Select the **Aurora** store.

___ 11. Deactivate existing promotions.

___ a. Select **Promotions** from the explorer to view all available promotions.

___ b. Select ALL promotions, right click, and deactivate them.

___ 12. Create new promotion: **Fixed price on individual catalog entries from a category**

___ a. Use the Create New toolbar button  to create a new promotion.

___ b. Select the Fixed price category > Fixed price on individual catalog entries from a category.

___ c. Complete the promotion fields as outlined below.

1) In the **Promotion Properties** section, enter the values specified in the table below. All other fields can be left as the default values

Field name	Value
Administrative name	\$20 for any 3 lamps

2) In the **Purchase Condition and Reward** section, enter the values specified. All other fields can be left as the default values

a) Enter **Lighting** in the Categories section and click the Find and Add button.

b) For the Minimum purchase condition, enter the values specified.

Field name	Value
Minimum purchase condition	
<ul style="list-style-type: none"> • Minimum Order Purchase • Fixed Price 	<p>3</p> <p>20</p>

3) Click **Save** and **Close**.

___ 13. Create new promotion: **Fixed price on the subtotal of catalog entries from a category**

___ a. Use the Create New toolbar button  to create a new promotion.

___ b. Complete the promotion fields as outlined below.

1) In the **Promotion Properties** section, enter the values specified in the table below. All other fields can be left as the default values

Field name	Value
Administrative name	3 lamps for \$100

2) In the **Purchase Condition and Reward** section, enter the values specified. All other fields can be left as the default values

a) Use the Utility View to pick three lamps to drag into the Catalog entries section for this promotion.

(1) HLG028_2801

(2) HLG028_2802

(3) HLG028_2803

b) Enter values as specified.

Field name	Value
• Quantity	3
• Fixed Price	100

Purchase Condition and Reward

*Target payment type: Any payment type

Site-wide promotion:

- ___ j. In the Promotions tool, right click the promotion and **deactivate** it.

Part 5: Export promotion codes

In this part of the lab, you will export promotion codes to a CSV file and download it to your local system.

___ 1. Open the **Promotions** tool.

___ 2. View your list of promotions.

___ 3. You will now add promotion codes to a promotion.

___ a. Pick any previously created promotion, and deactivate it, if not already deactivated.

___ b. Open the promotion details and go to the **Manage Promotion** tab.

___ c. Select **Requires promotion codes** for Redemption method.

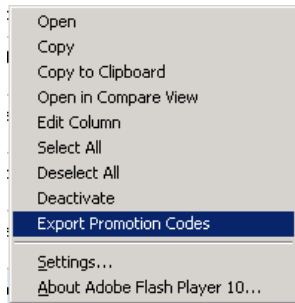

___ d. Enter values as specified.

Field name	Value
<ul style="list-style-type: none"> Promotion code specification 	Simple system-generated unique promotion codes
<ul style="list-style-type: none"> Unique system-generated code length 	10
<ul style="list-style-type: none"> Number of unique codes to be generated 	20

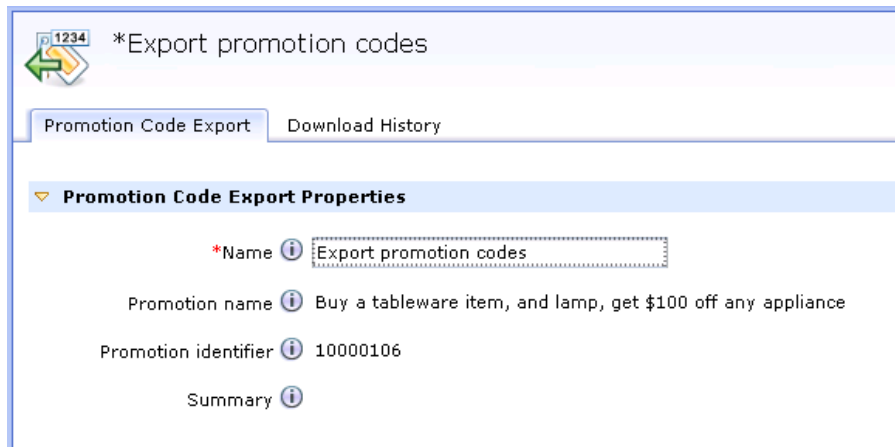

- ___ e. **Save and Close.**
- ___ f. **Activate** your promotion.

___ 4. Export the promotion codes.

- ___ a. Right click the promotion and select Export Promotion Codes

- ___ b. Give the export job a name.

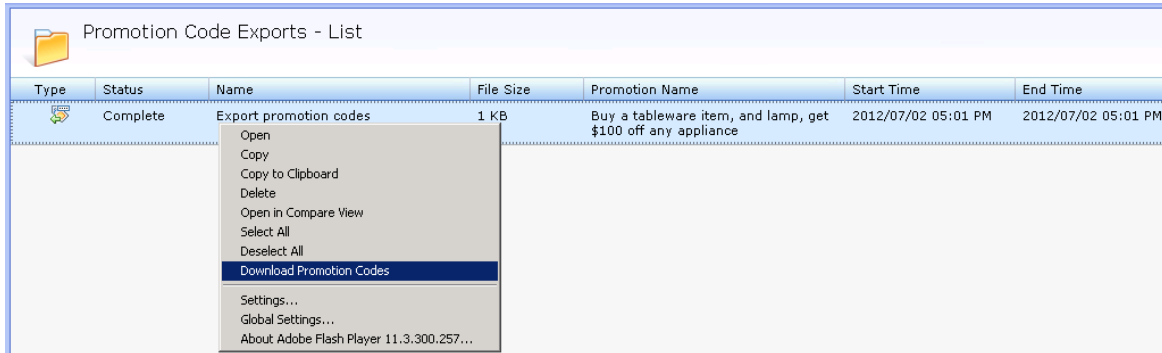

- ___ c. **Save and Close.**

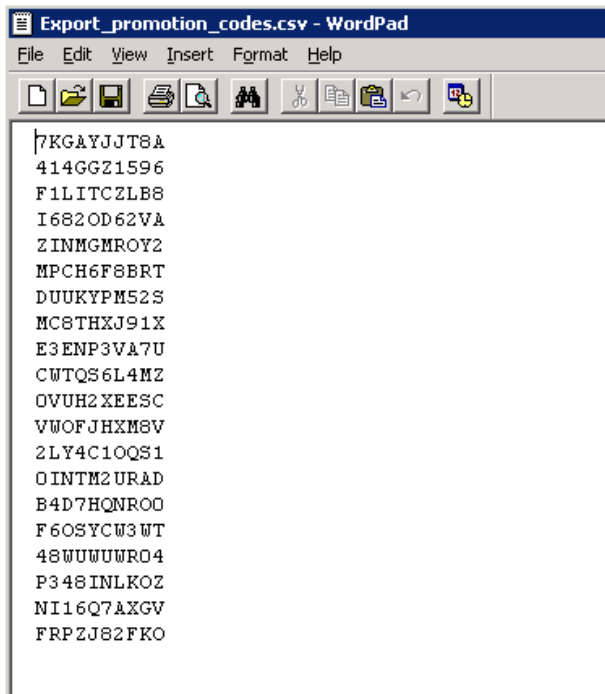

___ 5. View the promotion code export job results.

- ___ a. Select the Promotion Code Exports folder list.
- ___ b. Refresh  the page.
- ___ c. Select the completed job and view the results.

- ___ 6. Download the promotion codes.
 - ___ a. Right click the completed job and select **Download Promotion Codes**.

- ___ b. You are prompted to save the file to your desktop.
- ___ c. View the results of the CSV file by opening it up in WordPad or Excel.
- ___ d. You should see one code on each line.

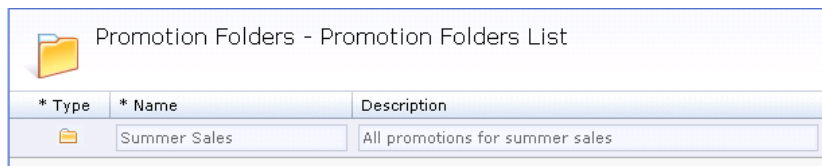

Part 6: Using promotion folders

In this part of the lab, you will add and delete promotions to promotion folders.

- ___ 1. Create promotion folders.
 - ___ a. Currently, the release will only support folder creation as an IT task through the database in SQL.
 - ___ b. (Toolkit) Open the database access JSP page from the hints and tips page or use URL: <http://localhost/webapp/wcs/admin/servlet/db.jsp>
 - ___ c. (Runtime) Type 'db2cmd' in the command window. A DB2 CLP window is opened.
 - 1) Type 'db2' in DB2 CLP window.
 - 2) Type following command to connect to the database
 - 3) connect to <DB_name> user <DB_user_ID> using <DB_user_PWD>
 - ___ d. Run the SQL statement to create a sample folder. Note that you need to change the store ID to your store.

```
insert into folder
(FOLDER_ID,STOREENT_ID,MEMBER_ID,PARENTFOLDER_ID,IDENTIFIER,DESCRIPTION,TYPE) VALUES(1, <STORE_ID>, NULL, NULL,'Summer Sales','All promotions for summer sales','IBM_PromotionFolder');
```

- ___ 2. Open the Promotions Tool.
- ___ 3. Select the Aurora store.
- ___ 4. Select **Promotion Folders** from the Explorer view.
 - ___ a. You should see the new folder you just created.
 - ___ b. If you do not see the new folder, click Refresh.

* Type	* Name	Description
	Summer Sales	All promotions for summer sales

- ___ 5. Add promotions to the promotion folder.
 - ___ a. Select the **Summer Sales** promotion folder.
 - ___ b. Open the utilities view.
 - ___ c. Browse for Promotions.

- ___ d. Drag promotions to the Summer Sales folder.
- ___ 6. Delete promotions from the promotion folder.
 - ___ a. In the **Summer Sales** promotion folder, you can select various promotions you have added and delete it. This will not delete the promotion from the main list, but just delete it from the folder.

Part 7: Overriding description fields in Extended sites

In this part of the lab, you will use data load to override catalog entries properties in the extended sites.

___ 1. Verify products before override.

___ a. Launch the Aurora Esite to view the products.

1) Versatil Strapless Sundress or AuroraWMDRS-11.

1) Versatil Strapless Sundress or AuroraWMDRS-11.

Home \ White Flower Sundress

The image shows a product page for a 'White Flower Sundress'. On the left is a photograph of a woman wearing a white, strapless, knee-length sundress with a vibrant floral pattern in red, blue, and purple. On the right is the product information panel. The product name 'White Flower Sundress' is highlighted with a red box. Below it, the price is shown as '\$50.00' crossed out and '\$40.00' in red. A red-bordered box highlights the description: 'Celebrate life with this white flower sundress'. Below the description are color selection options (Red, Blue, Purple) and available sizes (S, M, L, XL, 2XL). The 'M' size is selected. There is a quantity input field set to '1', an 'Add to Cart' button, and an 'Add to Wish List' button.

2) Luigi Valenti Strapless Cocktail Dress or AuroraWMDRS-6.

Home \ Strapless Cocktail Dress

The image shows a product page for a 'Strapless Cocktail Dress'. On the left is a photograph of a woman wearing a red, strapless, knee-length cocktail dress with a lace-like texture and a large red bow at the waist. On the right is the product information panel. The product name 'Strapless Cocktail Dress' is highlighted with a red box. Below it, the price is shown as '\$250.00' crossed out and '\$100.00' in red. A red-bordered box highlights the description: 'Luigi Valenti red cocktail dress with appliqued roses and tassels at the hem'. Below the description are color selection options (Red, Purple) and available sizes (XS, S, M, L, XL). The 'M' size is selected. There is a quantity input field set to '1', an 'Add to Cart' button, and an 'Add to Wish List' button.

Note: If you do not see the changes, try these steps.

- Clear your browser cache.

- If you have DynaCache turned on, you need to clear the cache created by Dynacache.
- Rebuild your search index by following directions here: Administering > Administering WebSphere Commerce search > Managing WebSphere Commerce Search > Populating and building the search index data > Building the WebSphere Commerce search index.

Part 8: What you did in this exercise

You should now understand how to complete these tasks:

- Set the default catalog in the Catalogs tool
- Create and use a multi-value attribute to describe products
- Create and use the six new promotions included in Feature Pack 5
- Export promotion codes
- Add and delete promotions to folders
- Override catalog entry description fields in extended site
