

RULES ARE GOOD

MORE SO, WHEN COMPLIANCE IS EASY

- FISMA
- FedRAMP
- PCI DSS 3.1
- HIPAA
- HITECH
- CJIS

VMware on IBM Cloud has proven to help avoid legal risks and protect data in one of the simplest ways possible.

VMware on IBM Cloud uses HyTrust Cloud Control (HTCC) and HyTrust Data Control (HTDC) to prevent sensitive workloads from being susceptible to malware and human error.

ONE WAY

Control access based on role

4 GROUND RULES OF SMARTER COMPLIANCE

SAFE LANE

Run workloads only on geo-fenced and authorised servers

WRONG WAY

Ensure data encryption for specified pool of servers

Use forensic quality logging for a detailed audit trail

BREAK NON-COMPLIANCE. NOT THE RULES.
