Security - protection that meets your business demands

- Using LNT, emails synchronised over **secured end-to-end connection** with SSL/TLS authentication and data encryption
- **Security certificates** from leading Certificate Authorities (CA) are preloaded in Nokia smartphones, including: Baltimore, Equifax, GeoTrust, Go Daddy, and VeriSign. Additionally, an enterprise has the option to use its own self-signed certificate
- All essential IT **security policies** supported, Policies such as device password, device lock & remote wipe can be mandated.
- Partners such as F-Secure and Kaspersky Mobile Security offer alternative anti-theft, remote data wipe solutions
- Enterprises that need specific additional policies can implement Open Mobile Alliance (OMA) standards-based device management solutions.
- **Low risk of virus** on Nokia smartphones with Symbian signed policy for applications
- **Nokia Eseries** smartphones support:
 - **hardware accelerated AES 256 + XTS encryption** on data in the phone memory, as well as the memory card
 - **WLAN authentication & encryption** features including WPA2, TKIP, AES
 - Option to **clear browser cache**, cookies, stored form data etc

Why Nokia for your business mobility needs?

Business is challenged to...

- Increase mobile workers' **productivity** and stays competitive as an innovative company
- Satisfy **user demands** for mobile hardware choices without compromising **enterprise security** and incurring high **cost**
- Find **quality** solutions from reliable brands that are **easy to implement**, maintain, use and **future proof**

Nokia offers...

- New solutions that **increase business efficiency** by enabling **easy access to information**, and easy connection to co-workers, customers, partners and company's resources
- **Low total cost of ownership (TCO)**: no middleware & CAL investment; **widest range of smartphone choices** across price range
- Solutions with **enterprise grade security** measures
- **Quality , environment friendly business smartphones** and **best-in-class solutions** developed in **partnership with market leading brands including** IBM, Cisco and others

Customer quotes from all over the World

A stylized world map in shades of blue and white is centered in the background of the slide.

“AVON is thrilled to be able to offer additional mobile options to our associates using the Traveler Service and Nokia Smartphones. This new offering enhances our commitment to increasing end user productivity, and at the same time lowers our overall spend on mobile devices.” – Sharon Kane – Avon

“We are extremely happy to use Lotus Traveler on Nokia phones as it is quite cost effective and easy to use. We expect Nokia to bring more and cheaper and elegant smart phones which have Lotus Traveler as standard email interface. I wish IBM LOTUS and Nokia alliance, all the very best!” - endorsed S.P. Arya - Vice President Corporate(IT) - Amtek Auto Limited

“Expected to achieve 100% return on investment in 12 months through enhanced workforce productivity.” expressed Raghubir Singh – Dy. General Manager – Usha International Limited.
