# IBM QuickStart for WebSphere Process Server

---

## Highlights

---

- ***Engage the experts—team with IBM Software Services for WebSphere! Our skilled consultants will propel your WebSphere Process Server project into full swing***
- ***IBM Software Services for WebSphere has the depth and breadth of knowledge and experience with WebSphere software to enable your business to be agile and high performing in a constantly changing environment***

## Business Challenge

You know that your business can benefit from implementing WebSphere Process Server, but you face challenges ahead. Our experts will help you to:

- Realize value from your recent investment in WebSphere Process Server
- Avoid common pitfalls while quickly and efficiently adopting a new technology
- Speed time to value to boost project return on investment (ROI)

## Services Solution

Our experts help you quickly get your WebSphere Process Server project on the right track. Backed by years of proven software deployment experience, IBM Software Services for WebSphere is a team of highly skilled consultants with broad architectural knowledge, deep technical skills, and recommended practices expertise. We provide worldwide support for WebSphere products to make it easy for clients and partners to design, build, test, and deploy solutions—helping you to become an On Demand Business.

Our expert consultants provide a working installation of WebSphere Integration Developer in a sandbox environment and establish competency in translating process integration requirements into possible WebSphere Process Server solutions. We offer hands-on experience developing and deploying process integration solutions with WebSphere Process Server and also provide a tailored roadmap for moving forward with WebSphere Process Server.

## Typical Activities

In addition to the benefits of having subject matter experts at your team's side, the following activities are provided as part of this QuickStart service:

- Exploring the decomposition of business requirements into process integration patterns and possible WebSphere Process Server solutions
- Installation of WebSphere Integration Developer in a staging environment
- Exploring how WebSphere Process Server is installed and deployed as an enterprise for process integration

## Deliverables

The following items will be delivered to you as a result of this offering:

- Installation of WebSphere Integration Developer in a staging environment
- Lectures and interactive working sessions with your team

## Related Education

The following course complements this QuickStart service, enabling you to get the most out of your WebSphere software investment:

- BI861 - Introduction to WebSphere Process Server and WebSphere Integration Developer

For further information about IBM courses, please visit the education site at [ibm.com/websphere/education](http://ibm.com/websphere/education).

## Duration

The duration of this QuickStart is approximately 80 hours and provides you with the support of one WebSphere services consultant.
