## **Need to improve the efficiency and operation of your WebSphere MQ environment?**

Many businesses use the market leading IBM WebSphere MQ software as the infrastructure messaging and message brokering components within their e-business environment.

Ensuring optimum efficiency and operation of your WebSphere MQ environment, helps ensure your e-business infrastructure:

- ✍ is operating at optimum efficiency
- ✍ meets your current business requirements
- ✍ provides a firm foundation for future enhancements

This service provides you with an assesment of your WebSphere MQ messaging environment, including WebSphere MQ, WebSphere MQ Integrator and MQSeries Workflow; and recommendations to address identified problems or issues. These services cover all aspects of your WebSphere MQ environment and will identify actions to help you obtain optimum efficiency and operation of your WebSphere MQ environment.

## **IBM Technology Assessment and Consulting Services for WebSphere MQ healthcheck provides:**

### **A requirements workshop to:**

- ✍ gather and review your WebSphere MQ business requirements
- ✍ agree the WebSphere MQ systems and applications to be assessed
- ✍ identify any specific WebSphere MQ problem areas to be assessed

### **A healthcheck assessment to assess your current WebSphere MQ environment, including aspects of WebSphere MQ:**

- ✍ Product installation and configuration;
- ✍ Systems;
- ✍ Networking;
- ✍ Performance;
- ✍ Resilience;
- ✍ Security;
- ✍ Systems management;
- ✍ Applications;
- ✍ backup and recovery;
- ✍ operational procedures.

**Recommendations** for improvement and to address identified problems or issues.
