Open computing

A new route to collaboration and innovation

- **Open standards**
 - ▶ Improve data sharing by simplifying integration of disparate technologies
- **Open architecture**
 - ▶ Increase collaboration by easily extending business processes
- **Open source**
 - ▶ Promote innovation by leveraging community development

Modular systems

Greater flexibility

- **Maximize investments: *Reuse components***
 - ▶ Leverage existing assets and investments
 - ▶ Avoid rip and replace
- **Increase flexibility: *Interoperable systems***
 - ▶ Connect and share business components
 - ▶ Easily distribute business processes
- **Accelerate initiatives: *Scalable and agile***
 - ▶ Add capacity or functionality quickly
 - ▶ Scale technology based on business demands
