

**T04 IBM TotalStorage DS300 and DS400 Product Presentation
by Kevin Cleveland, IBM**

This session will overview the latest in entry and midrange storage networking, including a preview of the newest members of the TotalStorage Disk Systems, the DS300 and DS400. IBM is ushering new levels of storage connectivity and price performance in the areas of iSCSI and Fibre Channel storage networking solutions. Make sure you're up to speed on IBM's latest offerings and our complete range of entry/mid-range solutions up through and including TotalStorage FASTT.
