## Purpose of Support Plan

This document communicates the full range of IBM support available to you, the procedures for obtaining support, and information on contacting IBM. You will find information on IBM e-support, hardware and software reporting procedures, escalation processes, as well as information available by phone.

### NOTE:

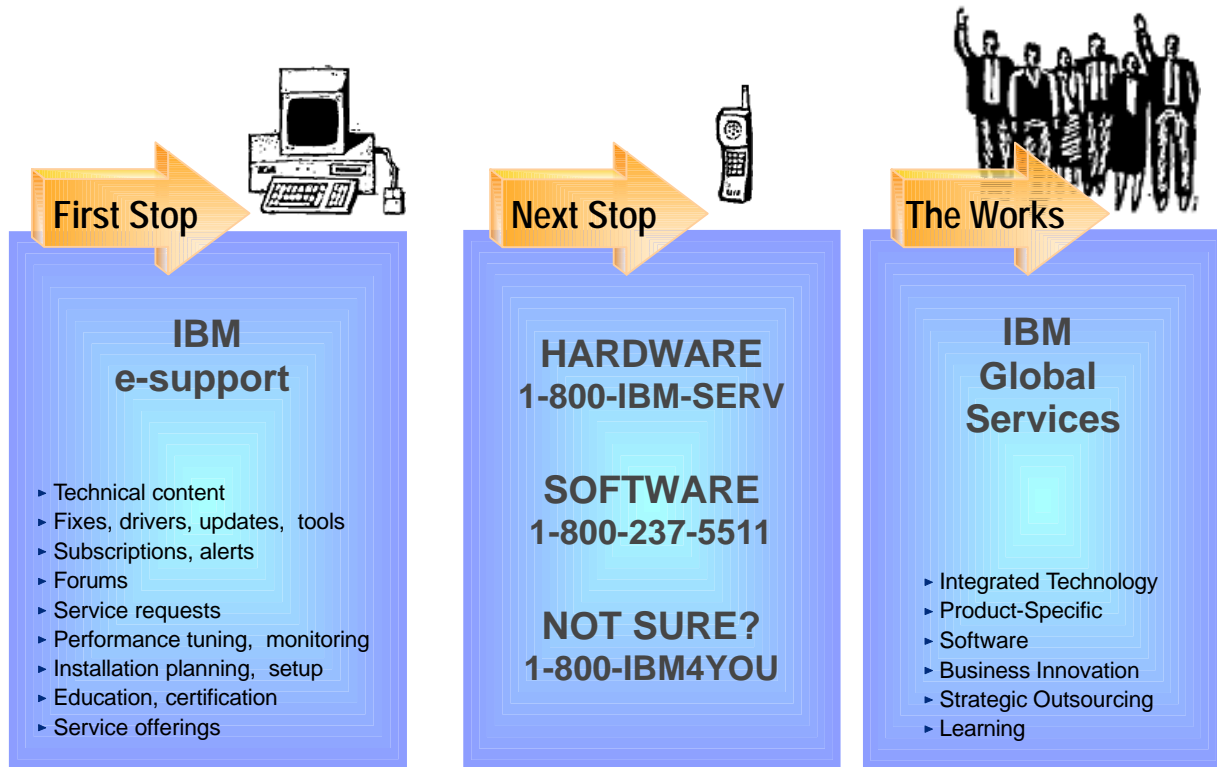

To download the latest version of this Customer Support Plan, go to <http://www.ibm.com/support/> and do a search using "customer support plan" (quotation marks included) in the search field.

# Support Overview

From IBM's very largest customer to the individual consumer, the Web (<http://www.ibm.com>) is key to enabling e-relationships. Customers use the Web to learn about and buy offerings and solutions, to comparison shop, check on order status, and to invoke / receive after-purchase support and services. This is referred to as the **Learn / Shop / Buy / Receive / Use** cycle.

IBM also delivers technical sales support via the Web to allow customers to **Learn / Shop / Buy** in a self-service mode, without requiring assistance from the IBM sales channels or Technical Sales Support organizations; these activities can be end-to-end Web or Web-assisted, where the customer accomplishes some tasks via the Web and then engages skilled resources.

As an IBM Customer, you have access to a range of technical support unmatched in the industry. IBM @servers come with the service and support you expect, giving you enhanced value and confidence. Below is a bird's-eye view of IBM's after-purchase customer support capability:

Your IBM Sales and Support Team

## Base Services and Support

When you buy new IBM systems, you also buy IBM's unique depth of experience and expertise. You buy support from people dedicated to developing systems solutions for your business. As always, you can access a wide variety of technical support for your purchase -- free of charge.

Before you decide on any purchase, you can use a wealth of technical sales support, delivered both via the Web and through your sales and technical team. We want to ensure that our solutions and offerings address your business requirements. To help you learn about our offerings and make a purchase decision, we offer a wide array of technical sales support including:

- ◆ Offering technical content, such as white papers, model comparisons, and specifications
- ◆ Trial software downloads
- ◆ Offering and solutions demonstrations and seminars (including webinars)
- ◆ Identification and selection of appropriate solutions, including:
  - Complex solution design and assistance
  - Offering configurations
  - Basic capacity plans
  - Pricing
  - Solution Assurance reviews for new IBM offerings to assure the solution both addresses your business needs and is technically feasible
  - Education and education planning assistance

### **Leading Server Performance**

**IBM consistently scores at the highest levels in a wide range of industry benchmarks. See <http://www.ibm.com/servers/solutions/benchmark.html>**

Once you have decided on a server offering, you can take advantage of the significant technical support resources to help you install and implement your solution, including:

- ◆ Web self-service such as hints and tips, usage information, fixes, and downloads
- ◆ Installation planning assistance for new software licenses
- ◆ Physical planning and installation planning assistance
- ◆ Warranty support of IBM hardware
- ◆ Repair of IBM hardware engineering and manufacturing defects
- ◆ Base Software Support included with your software offering license
  - Base software support for most System/390 offerings includes problem support for suspected defects in IBM code and publications. Support is by fax, mail, telephone (voice), and electronic access (bulletin boards).
  - Base software support for IBM and Lotus, AS/400, RS/6000, and desktop platform products includes reporting and defect resolution for IBM code and publications. Support is by fax, mail, and electronic access where available.
  - A complete discussion of IBM/Lotus/Tivoli software support is at <http://ps.software.ibm.com/pbin-usa-ps/getobj.pl/?pdocs-usa/webhndbk.html>

*NOTE: This document contains representative lists only of the services and support available from IBM. For further information on services and support, see <http://techsupport.services.ibm.com/eserver/support/>, contact your sales and support team, or call 1-800-IBM-4YOU.*

# Your first stop for IBM support ... e-support

IBM 

IBM delivers world-class server support. We furnish you with the technical information and tools to help support a buying decision as well as help you get maximum value from your current servers. Our technical support portal -- <http://www.ibm.com/support> -- offers you self-service 24 x 7 x 365 -- with its powerful, cross-IBM offering knowledge base. The portal also posts hotlinks to all of IBM offering support Web sites, including server e-support at <http://www.ibm.com/servers/support/>

- ◆ Technical content
- ◆ Fixes, drivers, updates, tools
- ◆ Subscriptions, alerts
- ◆ Forums
- ◆ Service requests
- ◆ Performance tuning, monitoring
- ◆ Installation planning, setup
- ◆ Education, certification
- ◆ Service offerings

## Don't overlook Redbooks!

IBM Redbooks are “how-to” guides to technical information, and *Redbooks Online!* is THE web source for finding complete information on IBM solutions and offerings on the World Wide Web. You can view and download complete books. We also offer two ways to find the redbook you want. . Do a quick keyword search for a hit list of IBM Redbooks, Redpieces and Redpapers. Or browse through pre-selected categories.

See <http://www.redbooks.ibm.com/>

The screenshot shows the IBM Redbooks website. At the top left is the Redbooks logo. Below it, a 'Featured' section contains a 'Registration required!' notice with a small image of a person and text stating that registration is now required to read IBM Redbooks. To the right of this notice is a 'Recent Redpieces' section with a link to 'Integrating XML with DB2 XML' (SG24-6130-00). Below that is a 'Recent Redbooks' section with links to 'Getting the Most From Your Db' (Published Nov-07-2000), 'Linux on IBM Netfinity Servers' (SG24-5994-00, Published Nov-06-2000), and 'e-business Connectivity for VSI' (Published Nov-06-2000). At the bottom right is a 'Featured Events and Other News' section with links to 'Tips for reading IBM Redbooks' and 'Did you ever wonder who write:'. A globe icon and an 'e-mail' envelope icon are also visible.

## Residencies

IBM Redbooks are developed through a unique program - the Residency - that teams IBM technical professionals with Business Partners, customers, and IBM product developers. Depending on the market needs of a product or solution, a team of residents is chosen through a competitive nomination process and works at one of the IBM International Technical Support Organization (ITSO) centers for two to eight weeks, devoted to developing an IBM Redbook.

During the intensive, multi-week residency, small teams explore and document (via Redbook) a product's implementation, integration and operations -- often in the context of marketplace solutions. ITSO residencies apply leading-edge information technology to customer needs. If you are interested in participating in a residency, you can get more information from the IBM Redbook home page -- <http://www.redbooks.ibm.com/>

## iSource -- Your Customizable, One-Stop Source for IBM Information

Whether it's hardware, software, system solutions or special pricing and promotions -- now you can get the IBM news you need e-mailed directly to you.

To receive *iSource*, simply sign up -- at <http://isource.ibm.com/world/subscribe.shtml>

### Ordering Redbooks and Other Publications

Many publications are available online free of charge. You may view or download these titles without having to place them in a shopping cart and without providing any information about yourself.

To order hardcopy publications for a fee, however, you will be asked to provide your name, address, e-mail address, and credit card information. This information allows the IBM Publications Center search results to display prices in your local currency. If available in stock, your order will be dispatched within 8-14 days by surface delivery, without additional cost.

See <http://www.elink.ibm.com/public/applications/publications/cgibin/pbi.cgi?CTY=US>

#### Quick Publication Ordering System search

Begin your IBM Publication Ordering System (POS) search by using one or more keywords. You can type (parts of) a publication title and description keywords, and publication numbers. At the bottom of this page provide additional search functionality to the IBM Publications Center.

Search on

Publication number -- (xxxx-xxxx-xx)

List

- All publications
- Only orderable publications
- Only online publications (read/download)

## If you don't find what you need with e-support, your next stop should be 1-800-IBM-SERV for Hardware Support

Your first call will connect you to your IBM Remote Technical Support Center Representative. This Representative will help diagnose your hardware problem and, if not resolved, will create a plan to resolve it, including recommending parts (if appropriate) to the IBM System Services Representative (SSR) responsible for supporting your IBM hardware. You can reach Hardware Support at **1-800-IBM-SERV**. The Service Delivery Manager or Duty Manager can assist you with any service issues you may have.

## If you need Software Support, call 1-800-237-5511

Your call to Software Support at 1-800-237-5511 gives us the opportunity to consistently meet your expectations by providing:

- ♦ Rapid response to your requests
- ♦ Fast relief for high impact problems
- ♦ Timely problem resolution
- ♦ High quality fixes and information
- ♦ Up-to-date service and installation information.

NOTE: To be eligible for voice support on some software offerings, you must have either a Support Line or Passport/Advantage contract.

You are a valued customer. If, for any reason, we are not meeting your expectations, please call us.

- ♦ **Duty Manager -1- 800-237-5511**
- ♦ **Support Family Information Center -1- 888-426-4343 (option 3)**

## When you're not sure, call 1- 800-IBM-4YOU

If you encounter a problem of unknown origin, contact your Remote Technical Support Specialist by calling the Hardware or Software Support numbers listed above or call our general access number -- **1-800-IBM-4YOU**.

### Problem Resolution Using Severity Codes

The following severity codes determine how IBM escalates hardware and software problems. **Report a severity code when placing the initial service request to the IBM Support Center.**

#### Severity 1— CRISIS

- ♦ The system (or a major application or component) goes down, critically impacting a customer's ability to do acceptable business.
- ♦ No bypass alternatives are available. Severity 1 requires total commitment of equipment and personnel by the customer and vendors to resolve the problem. The respective management groups are responsible for assigning personnel.

#### Severity 2 — MAJOR

- ♦ A problem that causes a severe operational impact.
- ♦ Bypassing the problem is possible but not feasible.
- ♦ Severity 2 requires that the failing component be made available for repair.

#### Severity 3 — MINOR

- ♦ Any problem causing restricted function or minor impact on performance.
- ♦ Bypassing the problem is both possible and feasible.
- ♦ Deferred maintenance may be acceptable.

#### Severity 4 — BYPASSED

- ♦ A circumvented problem.
- ♦ The problem's impact is non-critical and does not affect operation.
- ♦ Deferred maintenance is acceptable.

# IBM Global Services -- Overview

## Why IBM Services?

IBM is uniquely qualified to deliver a caliber of service and support that allows businesses to concentrate on doing business. Why? Because:

- ◆ 116,000 people worldwide deliver IBM support and service in 164 countries.
- ◆ 2,500 IBM support specialists handle thousands of customer and Business Partner calls each month, in 23 languages from 10 HelpCenters around the world.
- ◆ Maintenance parts are available from 145 parts-stocking locations (US); 479 locations (worldwide).

## What IBM Services are available for your IBM eServers?

# IBM Services

## IBM xSeries (Netfinity) Services

xSeries Services include:

- ◆ Infrastructure & Systems Management Services
- ◆ Networking & Connectivity Services
- ◆ Technical Support Services (see sidebar)

### xSeries Technical Support Services

- High Availability
- Installation
- Integration
- Maintenance
- Migration
- Operational Support
- Planning
- Power Protection
- Relocation
- Site
- SmoothStart

## IBM iSeries (AS/400) Services

iSeries Services include:

- ◆ Infrastructure & Systems Management Services
- ◆ Networking & Connectivity Services
- ◆ Technical Support Services
- ◆ Maintenance Services

### **Additional IBM iSeries Service --**

#### **PM/400e (Performance Management)**

##### **PM/400 Services Highlights**

- ◆ *Helps you fine tune your operating system to manage peak periods efficiently*
- ◆ *Helps you effectively plan for future capacity requirements*
- ◆ *Produces regularly scheduled, detailed usage reports in an easy-to-understand format*
- ◆ *Captures performance trend data automatically*
- ◆ *Displays valuable historical performance data that is thoroughly analyzed*
- ◆ *Provides the option of online access to your performance data via the Internet*

## IBM pSeries (RS/6000) Services

pSeries Services begin with System Expert Services:

When you use RS/6000 System Expert services specialists can help you manage your AIX system limits and workloads - both automatically and proactively. With System Expert, IBM provides the following:

- ◆ RS/6000 System Expert software that helps us continually and remotely monitor your networked or remote AIX systems for:
  - Performance
  - Capacity
  - Configuration
  - Security
- ◆ Daily electronic reports that let you see both high-level and detailed data about system events, changes and urgent conditions
- ◆ Emergency alerts (such as a breach in security limits) with notification to you and your remote staff either by pager, by e-mail or onscreen
- ◆ A monitor and viewer software for looking at your reports and alerts online
- ◆ Automatic encryption of data and reports that are transferred from or to the RS/6000 System Expert

### Additional IBM pSeries Services

- ◆ **Infrastructure & Systems Management**
  - Asset
  - Capacity Planning
  - Performance Management
  - Testing
  - Tivoli
- ◆ **Networking & Connectivity**
- ◆ **Technical Support**
  - Installation
  - Integration
  - Maintenance
  - Migration
  - Operational Support
  - Planning
  - Power Protection
  - Relocation
  - Site
  - SmoothStart

## IBM zSeries (S/390) Services

zSeries Services include:

- ◆ Infrastructure & Systems Management Services
- ◆ Networking & Connectivity Services
- ◆ Technical Support Services
