**Renate Maier**

Manager of ISV and Developer Relations

IBM Central and Eastern Europe, Middle East and Africa (CEEMEA)

  [Renate\\_maier@at.ibm.com](mailto:Renate_maier@at.ibm.com)

# Your comments from previous Advisory Board meeting

Comments	Addressed
VAR focussed, should we run future sessions with parallel stands for SVI/ISV, SI?	This time, we are running this meeting in conjunction with the IDR team to ensure that we include ISV focused content
More about Industry & Cloud/SaaS	Industries and Industry Frameworks is a big focus for this meeting and a followup session on SaaS/Cloud is also included
Further on industry focus. This strategy is very important and partner driven!	See above
More access to IBMers; I was unable to reach some to discuss topics	Time to network during breaks and dinner, but we have also extended the IOT sessions
No agenda is perfect, but I wish to have more time to talk with IBM	See above
more room for discussion about problems with programs. SBOs etc, IOT session was excellent therefore	See above
Good to see the "old format" again (1,5days, breakout etc...) Good dialogue, constructive conversation, new liasions established...success	Stayed with this format for this advisory board meeting
Make it mandatory for each speaker to have 20% of their time as discussion w/out slides	We did and do ask our speakers to allocate time for discussion – most especially for the workgroup and breakout sessions.
