Use Internet commerce to boost your sales and customer base.

Selling your products on the Web exposes your company to millions of new prospects. And risks. IBM Software Servers help you reduce those risks. They provide a secure environment for processing confidential information such as invoices and credit cards.

of a series

Analyze data so deeply, you're able to conquer new ground.

Transform piles of data into nuggets of vital customer information to help you make smarter, quicker decisions. For instance, access a data warehouse from the Web or your company's intranet with our DB2 Database Server. It's completely scalable and runs on Windows NT®, OS/2® and AIX®.

It's easier to solve your business problems when you've got a number of options.

Taking advantage of the Internet is one of the smartest options you have. To find out why, simply call or visit our Website for a free copy of *A Guide to Business on the Internet*. IBM and their Business Partners can take you beyond the Net to help you create a more competitive and flexible business environment.
