bull9 /db2dba/db2admin> db2 get snapshot for all dcs databases

DCS Database Snapshot

DCS database name	= DB2PROD
Host database name	= DB2PROD
First database connect timestamp	= 08/10/2009 16:14:44.977232
Most recent elapsed time to connect	= 0.008621
Most recent elapsed connection duration	= 0.242642
Host response time (sec.ms)	= 1.808851
Last reset timestamp	=
Number of SQL statements attempted	= 234
Commit statements attempted	= 61
Rollback statements attempted	= 64
Failed statement operations	= 0
Total number of gateway connections	= 33
Current number of gateway connections	= 1
Gateway conn. waiting for host reply	= 0
Gateway conn. waiting for client request	= 1
Gateway communication errors to host	= 0
Timestamp of last communication error	=
High water mark for gateway connections	= 2
Outbound bytes sent	= 23708
Outbound bytes received	= 39583
Host execution elapsed time	= 1.377798

Info for statements taking 2 transmissions:

Number of SQL statements	= 234
Total Outbound bytes sent	= 23708
Total Outbound bytes received	= 39583
Outbound bytes sent high water mark	= 406
Outbound bytes received high water mark	= 784
Outbound bytes sent low water mark	= 10
Outbound bytes received low water mark	= 54
Maximum network time for statement	= 0.031828
Minimum network time for statement	= 0.000480
Total Host response time (sec.ms)	= 1.808851
Total elapsed times for stmts (sec.ms)	= 1.295515

Number of statements with outbound bytes sent:

Between 1 and 128 bytes	= 109
Between 129 and 256 bytes	= 0
Between 257 and 512 bytes	= 65
Between 513 and 1024 bytes	= 0
Between 1025 and 2048 bytes	= 0
Between 2049 and 4096 bytes	= 0
Between 4097 and 8192 bytes	= 0

IBM Program usage and installation report instructions

Between 8193 and 16384 bytes	= 0
Between 16385 and 31999 bytes	= 0
Between 32000 and 64000 bytes	= 0
Greater than 64000 bytes	= 0

Number of statements with outbound bytes received:

Between 1 and 128 bytes	= 105
Between 129 and 256 bytes	= 15
Between 257 and 512 bytes	= 27
Between 513 and 1024 bytes	= 27
Between 1025 and 2048 bytes	= 0
Between 2049 and 4096 bytes	= 0
Between 4097 and 8192 bytes	= 0
Between 8193 and 16384 bytes	= 0
Between 16385 and 31999 bytes	= 0
Between 32000 and 64000 bytes	= 0
Greater than 64000 bytes	= 0

Number of statements with network time:

Up to 1 ms	= 122
Between 1 and 4 ms	= 20
Between 4 and 16 ms	= 25
Between 16 and 100 ms	= 7
Between 100 and 500 ms	= 0
Greater than 500 ms	= 0
