

# IBM Program usage and installation report instructions

## DB2 Content Manager onDemand Help Guide

Please see below the additional help in collecting deployment information for your IBM Software. (You may need to zoom in to more easily view the screenshots.)

1. For every DB2 Content Manager onDemand Install, provide a text file of output from the following select statement: `select * from ICMSTSysAdmEvents`

EVENTCODE	CREATED	USERID	EVENTDATA1	EVENTDATA2	EVENTDATA4	EVENTDATA5

2. For every DB2 Content Manager onDemand Install on iSeries, provide a text file of output from the following select statement:  
db2 select \* from archive.user where userid not in ('ICMCONCT','ICMPUBLIC')

## IBM Program usage and installation report instructions

```
abc001p01p[ /home/db2/db2inst4]# ere userid not in ('ICMCONCT','ICMPUBLIC') and userkind=0" <
-----
1
19
1 record(s) selected.
3. For every DB2 Content Manager onDemand Install on Mainframes, provide a text file of output from the
following select statement:
db2 select * from arsservr.arsuser where userid not in ('ICMCONCT','ICMPUBLIC')
abc001p01p[ /home/db2/db2inst4]# ere userid not in ('ICMCONCT','ICMPUBLIC') and userkind=0" <
-----
1
19
1 record(s) selected.
```
