IBM BigFix Expert Assistance Services for Windows XP Fixlet Support

IBM BigFix

Maximize the Value of your IBM Security Solution

This offering provides one year of Fixlet development to support patching for Windows XP security patches.

- You need to provide support for Windows XP beyond the Microsoft end of life date.
- You have a contract with Microsoft to receive patches for Windows XP and need assistance with the development of the released patch content.
- You have a substantial deployed surface area of Windows XP endpoints with no way to keep them patched.

Benefits

- Receive Fixlet content developed and tested by IBM professionals directly to you via a custom external content site.
- Receive personal attention regarding the Fixlet content developed on your behalf.
- Ensure consistent patching of your environment.
- Enjoy the benefit of receiving patch content for a fixed price, for a single language, regardless of the number of patches Microsoft releases for Windows XP.

Deliverables

- Developed Windows XP support Fixlets
- Duration: 1 year of Fixlet development support for one language of the Windows XP Operating System.
- **Please contact your local Sales Representative for pricing**
