Installation Instructions

Download the appropriate package from the FTP link below to your Rational ClearCase or Rational ClearCase Remote Client host.

If ClearCase or CCRC are installed at the default^{*} location, then you are good to use the integration package as is. Go to Step 6.

If installed at a non-default location, follow the steps below. This example assumes that you have downloaded CC_VS2017_x64.vsix and you are on a 64-bit operating system.

- 1) Rename the downloaded CC_VS2017_x64.vsix file to CC_VS2017_x64.zip
- 2) Decompress the archive to a temporary location, let us assume the folder to be CC_VS2017 for demonstration.
- 3) Modify the library paths in pkgdef files to point to the installed location
 - a) Search for the following string in the file CTPackage.pkgdef:
 - i) "InprocServer32"="C:\Program Files (x86)\Common Files\Rational\ClearCase\CCVSI\bin\CTPackage.dll"
 - ii) "Path"="C:\Program Files (x86)\Common Files\Rational\ClearCase\CCVSI\bin"
 - iii) "MainPackage"="C:\Program Files (x86)\Common Files\Rational\ClearCase\CCVSI\bin\CTPackage.dll"
 Change the path to match the installation path. Save and close the file.
 - b) Search for the following string in the file ccvsisearchtoolwin.pkgdef:
 - i) "CodeBase"="C:\Program Files (x86)\Common Files\Rational\ClearCase\CCVSI\bin\ccvsisearchtoolwin.DLL"
 - ii) "Path"="C:\Program Files (x86)\Common Files\Rational\ClearCase\CCVSI\bin"
 Change the path to match the installation path. Save and close the file.
 - c) Search for the following string in the file ccvsiwanservice.pkgdef :
 - i) "CodeBase"="C:\Program Files (x86)\IBM\RationalSDLC\clearcase\RemoteClient\WANPackage\CcVsiWa nService.dll"
 - ii) "Path"="C:\Program Files (x86)\IBM\RationalSDLC\clearcase\RemoteClient\WANPackage"
 Change the path to match the installation path. Save and close the file.
 - d) Search for the following string in the file ccvislanservice.pkgdef (Not required in CCRC only integration) :
 - i) "InprocServer32"="C:\Program Files (x86)\IBM\RationalSDLC\ClearCase\bin\CcVsiLanService.dll"
 - ii) "Path"="C:\Program Files (x86)\IBM\RationalSDLC\ClearCase\bin\"

Change the path to match the installation path. Save and close the file.

*Default location of ClearCase/CCRC Installation On a 32-bit OS: C:\Program Files\IBM\RationalSDLC\ClearCase On a 64-bit OS: C:\Program Files (x86)\IBM\RationalSDLC\ClearCase

- 4) Select all the files in CC_VS2017 created in Step 2 and select the option to "Send to -> Compressed (zipped) Folder", CC_VS2017.zip
- 5) Rename the compressed folder to vsix extension, CC_VS2017.vsix
- 6) Open the vsix file and follow the instructions as shown below,

7) Open Visual Studio 2017 IDE and confirm that the integration package is installed successfully. Go to Tools -> Extensions and Updates... and search for "ClearCase" in the installed extensions.
