Using Search on the Rational Solutions for Windows Online Documentation CD

The Rational Solutions for Windows Online Documentation CD supports full-text searches of Adobe Acrobat PDF files.

Setting up the Full-Text Search

To use the full-text search, you must first select the full-text index included on the Documentation CD.

1. In Adobe Acrobat, click Edit > Search > Select Indexes.

Index Selection		
Available Indexes		
Acrobat 5.0 Online Guides		
(currently unavailable indexes are grayed out)		
OK <u>A</u> dd <u>Remove</u> <u>I</u> nfo		

2. Click Add...

3. In the file selection dialog box, select index.pdx.

Select Index		?×
Look in:	V Rational Doc Cd (D:)	
My Recent Documents Desktop My Documents My Computer	 index.pdx rational_suite Rational Unified Process Rational Test Rational Rose Rational RequisitePro Rational ProjectConsole Rational Process Workbench Rational Development Tools Rational ClearQuest Rational ClearCase LT index 	
Places	Object name: index.pdx	en
	Objects of type: Acrobat Index (*.PDX) Can	cel

4. Click OK.

Using Full-Text Search

See the Searching Document Collections topic in the Adobe Acrobat Help.

Note: you cannot use Acrobat Search when viewing a PDF file within a browser window.

To browse the Rational Solutions for Windows Online Document, open the index.pdf file on this disc.
