Owners of Rose XDE Developer Plus Who Use XDE Developer for Java

(This guidance also pertains to former owners of Rose XDE Developer Plus whose entitlements have already been converted to Rose Enterprise, and who use XDE Developer for Java)

Summary: if you use XDE Developer for Java as packaged in XDE Developer Plus your replacement products will be Rational Systems Developer and (optionally) PurifyPlus for Windows. (Also optionally, you could pay to trade Rational Systems Developer up to Rational Software Architect.)

These replacement products are already available to you via Anticipatory Access and you may begin to adopt them at any time. You do not have to worry about migrating any of your Rose XDE Developer Plus or Rose Enterprise entitlements because over time, the entitlement issues will resolve themselves as part of the maintenance renewals process.

Timeframe	Option 1	Option 2 (preferred)	Option 3
<ul style="list-style-type: none"> Before XDE End of Service on September 30, 2007 (maintenance renewals will quote Rose Enterprise) 	<ul style="list-style-type: none"> Accept default migration (renewal) to Rose Enterprise Continue to use XDE Developer for Java Prepare to adopt Rational Systems Developer no later than September 30, 2007 	<ul style="list-style-type: none"> Accept default migration (renewal) to Rose Enterprise Adopt Rational Systems Developer ASAP, based on Anticipatory Access 	<ul style="list-style-type: none"> Request migration of entitlement to Rational Systems Developer plus (optionally) PurifyPlus for Windows Adopt Rational Systems Developer and (optionally) PurifyPlus for Windows
<ul style="list-style-type: none"> After XDE End of Service (by then, all entitlements will have been migrated either to Rose Enterprise or to Rational Systems Developer and PurifyPlus for Windows) Until market withdrawal of Rose Enterprise (see Rose Expected Lifetime below) 	<ul style="list-style-type: none"> Same as Option 2 	<ul style="list-style-type: none"> Continue to accept default renewals on Rose Enterprise Continue to use Rational Systems Developer based on Anticipatory Access 	
<ul style="list-style-type: none"> After market withdrawal of Rose Enterprise (all maintenance renewals will begin to quote the following: <ul style="list-style-type: none"> Choice of Rational Software Modeler or Rational Systems Developer PLUS <ul style="list-style-type: none"> Rational Modeling Extension for Microsoft® .NET (optional) PLUS <ul style="list-style-type: none"> PurifyPlus for Windows (optional) 	<ul style="list-style-type: none"> Same as Option 2 	<ul style="list-style-type: none"> Elect migration from Rose Enterprise to Rational Systems Developer plus PurifyPlus for Windows (decline Rational Modeling Extension for Microsoft® .NET) Continue to use Rational Systems Developer and PurifyPlus for Windows 	

Owners of Rose XDE Developer Plus Who Use XDE Developer for Visual Studio

(This guidance also pertains to former owners of Rose XDE Developer Plus whose entitlements have already been converted to Rose Enterprise, and who use XDE Developer for Visual Studio)

Summary: if you use XDE Developer for Visual Studio as packaged in XDE Developer Plus your replacement products will be Rational Software Modeler or Rational Systems Developer plus Rational Modeling Extension for Microsoft® .NET and (optionally) PurifyPlus for Windows. The combination of Rational Software Modeler (or Rational Systems Developer) plus Rational Modeling Extension for Microsoft® .NET is designed to be used in combination with Visual Studio 2005 and .NET Framework 2.0. (In its latest generation of model driven development products, IBM Rational has elected not to introduce back-level support for Visual Studio 2003.)

These replacement products are already available to you via Anticipatory Access and you may begin to adopt them at any time. You do not have to worry about migrating any of your Rose XDE Developer Plus or Rose Enterprise entitlements because over time, the entitlement issues will resolve themselves as part of the maintenance renewals process.

Timeframe	Option 1	Option 2 (preferred)	Option 3
<ul style="list-style-type: none"> Before XDE End of Service on September 30, 2007 (maintenance renewals will quote Rose Enterprise) 	<ul style="list-style-type: none"> Accept default migration (renewal) to Rose Enterprise Continue to use XDE Developer for Visual Studio (in combination with Visual Studio 2003) Prepare to adopt Rational Software Modeler with Rational Modeling Extension for Microsoft® .NET (in combination with Visual Studio 2005) no later than September 30, 2007) 	<ul style="list-style-type: none"> Accept default migration (renewal) to Rose Enterprise Adopt Rational Software Modeler with Rational Modeling Extension for Microsoft® .NET (in combination with Visual Studio 2005) ASAP, based on Anticipatory Access 	<ul style="list-style-type: none"> Request migration of entitlement to Rational Software Modeler plus Rational Modeling Extension for Microsoft® .NET plus (optionally) PurifyPlus for Windows Adopt Rational Software Modeler with Rational Modeling Extension for Microsoft® .NET (in combination with Visual Studio 2005) and (optionally) PurifyPlus for Windows
<ul style="list-style-type: none"> After XDE End of Service (by then, all entitlements will have been migrated either to Rose Enterprise or to Rational Software Modeler plus Rational Modeling Extension for Microsoft® .NET Systems plus (optionally) PurifyPlus for Windows Until market withdrawal of Rose Enterprise (see Rose Expected Lifetime below) 	<ul style="list-style-type: none"> Same as Option 2 	<ul style="list-style-type: none"> Continue to accept default renewals on Rose Enterprise Continue to use Rational Software Modeler with Rational Modeling Extension for Microsoft® .NET (in combination with Visual Studio 2005) based on Anticipatory Access 	
<ul style="list-style-type: none"> After market withdrawal of Rose Enterprise (all 	<ul style="list-style-type: none"> Same as Option 2 	<ul style="list-style-type: none"> Elect migration from Rose Enterprise to Rational Software 	

<p>maintenance renewals will begin to quote the following:</p> <ul style="list-style-type: none"> • Choice of Rational Software Modeler or Rational Systems Developer <p>PLUS</p> <ul style="list-style-type: none"> • Rational Modeling Extension for Microsoft® .NET (optional) <p>PLUS</p> <ul style="list-style-type: none"> • PurifyPlus for Windows (optional) 		<p>Modeler or Rational Systems Developer plus Rational Modeling Extension for Microsoft® .NET plus (optionally) PurifyPlus for Windows</p> <ul style="list-style-type: none"> • Continue to use Rational Software Modeler with Rational Modeling Extension for Microsoft® .NET (in combination with Visual Studio 2005) and (optionally) PurifyPlus for Windows
