

Transform the point of sale to a point of service

## IBM SurePOS 700 Series

### Highlights

- *Industry-standard, open platform maximizes application, peripheral and display choices, so you can create the best solution for your store*
- *Delivers advanced technology – including powered USB, DVI video, PCI, DVD and NVRAM – in a durable, retail-hardened design*
- *Supports the latest power and systems management options, including Wake on LAN®, Wired for Management and APM/ACPI*

### A new standard for POS performance

Designed for retailers who want to push the boundaries of point-of-sale (POS) technology, the IBM SurePOS™ 700 Series delivers the power and performance to drive e-business solutions today and tomorrow. Fast processing speed and high-bandwidth Ethernet support multichannel retailing, electronic marketing, CRM, multimedia, instant advertising and computer-based training. DMA hard drives minimize seek and write times. And powered USB technology enables hot-plugging, plug-and-play<sup>1</sup> setup and automatic configuration – all of which help simplify management and help reduce maintenance time.

### Dynamic multimedia

The IBM SurePOS 700 Series includes the high-tech multimedia assets you need to captivate customers and generate revenue at the POS. Options include an integrated CD-ROM or DVD-ROM, and Digital Visual Interface (DVI) video, which allows you to run conventional and high-performance video now and add digital video solutions later.

### Strong investment protection

An open platform runs applications for Microsoft® Windows® and IBM 4690 OS, so you can keep proven software. Choices for speed, slots, bays and peripherals let you configure the right solution today – then add capabilities when the time is right. System units and other components are retail-hardened for reliable performance.

### Broad software offering

Select from a diverse number of POS applications developed by IBM, as well as StoreProven™<sup>2</sup> applications from IBM Business Partners. StoreProven software has been tested to work with the SurePOS 700 Series – look for the StoreProven emblem to find the right one for your store.

## High-powered POS solutions for retail e-business

### **NEW** Models 752/7P2

#### **Narrow-format, thick-client solution optimized for Microsoft Windows 98/2000**

- 850 MHz Intel® Celeron™ processor<sup>3</sup>
- 64 (752) or 128 MB (7P2) standard (up to 512 MB available<sup>5</sup>)
- 20 GB hard drive<sup>4</sup> optional (standard on 7P2)
- CD-ROM or DVD-ROM optional

### **NEW** Models 753/7P3

#### **Wide-format, thick-client solution optimized for Microsoft Windows 98/2000**

- 850 MHz Intel Celeron processor<sup>3</sup>
- 64 (753) or 128 MB (7P3) standard (up to 512 MB available<sup>5</sup>)
- Two optional 20 GB hard drives<sup>4</sup> (one standard on 7P3)
- CD-ROM or DVD-ROM optional

### Models 732/7V3

#### **Narrow-format, thin-client solution optimized for IBM 4690 OS**

- 500 MHz Intel Celeron processor<sup>3</sup>
- 32 (732) or 128 MB (7V2) standard (up to 512 MB available<sup>5</sup>)
- 20 GB hard drive<sup>4</sup> optional (standard on 7V2)

### Models 733/7V3

#### **Wide-format, thin-client solution optimized for IBM 4690 OS**

- 500 MHz Intel Celeron processor<sup>3</sup>
- 32 (733) or 128 MB (7V3) standard (up to 512 MB available<sup>5</sup>)
- 20 GB hard drive<sup>4</sup> optional (standard on 7V3)

### Software

Operating systems supported	<ul style="list-style-type: none"><li>• 4690 OS V2 R3 or later</li><li>• Microsoft Windows 2000 (Professional Edition)</li><li>• Linux-enabled<sup>7</sup></li></ul>	<ul style="list-style-type: none"><li>• Microsoft Windows 98 (Second Edition)</li><li>• Microsoft Windows XP (Professional Edition)<sup>7</sup></li></ul>
Drivers supported	<ul style="list-style-type: none"><li>• JavaPOS™ for Windows V1.5.0 or later</li><li>• OPOS V1.4.5 or later</li></ul>	

### Services

Limited warranty <sup>8</sup>	<ul style="list-style-type: none"><li>• 1 year, onsite service</li></ul>
Technical support	<ul style="list-style-type: none"><li>• 24x7 phone support (during warranty period<sup>9</sup>) and Web-based help</li></ul>

<sup>1</sup> Support of USB hardware hot-plug and plug-and-play capabilities is OS and device dependent.

<sup>2</sup> IBM makes no warranties, express or implied, regarding StoreProven products and services, including any implied warranties of merchantability or fitness for a particular purpose. Statements made by IBM Business Partners that offer StoreProven applications are provided by the relevant third-party company and not IBM.

<sup>3</sup> MHz/GHz only measures microprocessor internal clock speed; many factors affect application performance.

<sup>4</sup> MB/GB/TB equals one million/billion/trillion bytes when referring to storage capacity; accessibility may be less.

<sup>5</sup> More than 512 MB available through special order. System has two PC-133 DIMM sockets.

<sup>6</sup> Power management functionality is device dependent.

<sup>7</sup> Specific device support coming in 2002.

<sup>8</sup> For a copy of the terms and conditions of IBM's statement of limited warranty, please contact your IBM representative or reseller.

<sup>9</sup> Response times may vary.
