IBM Software for Smarter Planet.

The world is getting smaller, flatter and smarter. Today, people and systems are becoming more interconnected, instrumented and intelligent, offering businesses greater capabilities and opportunities than ever before.

See, touch and feel: Discover the full power of IBM Software at TEC

Seeing is believing. IBM Technical Exploration Centre (TEC) provides you with a dynamic and stimulating environment to see, touch and feel IBM Software in its full glory. TEC gives you everything you need to learn how IBM solutions can be applied to best fit your company's business needs.

TEC Capability and Services

TEC offers a wide showcase of IBM Software Solutions, covering Information Management, Lotus, Rational, Tivoli and WebSphere. The capabilities and business value of each Software Solution are presented through the following formats:

Technology Solution Tour - a high level workshop that includes a presentation, reference stories, and demonstration to help customers connect technology ideas to broad business issues.

Technology Test Drive - allows customers to explore and experience the technology in depth through a demonstration, presentation and hands-on lab session. The Test Drive delivers a deeper understanding of how specific technologies are used to support the business.

Special Interest Orientation - IBM will share important technology trends, as well as insights gleaned from thousands of customer implementations, to provide a solid orientation on emerging technology and how it relates to current business challenges.
